Filipinos Didn't Disturb the People of Manila.

#### **\*CCASIONAL VOLLEYS WERE FIRED.**

Bunches of the Enemies Sent In Shots From Various Points Along the Line Outside-Dewey's Request For the Oregen-Many Casualties Among Natives.

Manila, Feb. 25.-(10:15 a. m.)-Despite the threats of the Filipinos to burn the business center, the inhabitants of Manila were not disturbed last night. There was not a single incident worth recording from the time when the streets were cleared until day dawned this morning.

Everything was equally quiet along the line outside, except for occasional velleys from bunches of the enemy at various points.

The enemy were most active along General King's and General Ovenshine's line, from the beach to Pasig, but a few volleys of musketry, supplemented by shells from the Buffalo, effectually quieted them.

Washington, Feb. 25.—The cabinet gave some attention to Dewey's cable! message relative to the political importance of sending the Oregon at once to Manila. The conclusion reached was that too much importance should not be attached to it; that Dewey wants the big ship to influence the Filipinos through fear. Secretary Long said when asked for an explanation of the reference to political reasons in the dispatch: "I am sure that it has no international significance. You may state that positively. Probably he wants a fine ship there, as the American commissioners are about due, and it will give weight to the American representat ons.

It was suggested from other naval sources that Dewey wants the Oregon to release a number of the smaller ships of the fleet for other work. He had been planning a tour among the other islands than Luzon with the purpose of establishing the authority of the United States among them. It is also necessary to establish a close blockade to prevent the insurgents from receiving supplies. These projects require for their execution a number of ships. Dewey cannot Oregon got into Manila harbor she will be sufficiently formidable to insure the protection of the entire harbor in conjunction with the two big double-turreted monitors Monterey and Monadnock. The remainder of the fleet then wid be free to carry out the projects. While these three armored ships are lying in Manila bay there is no lear that any force can enter or pass out without their consent.

These messages were received from Dewey:

"MANILA, Feb. 24. "For political reasons the Oregon

"DEWEY." (Signed) "MANILA, Feb. 24.

should be sent here at once.

"Yorktown arrived. Charleston and Petrel cruising around the Philippine

islands. Affairs more quiet. "DEWEY." (Signed)

The Oregon sailed from Honolala, Feb. 12, it is thought for Manila.

General Otis cabled the war department as follows:

"MANILA, Feb. 24.-Scandia arrived last night. On nights 21st and 22d and yesterday morning insurgent troops gained access to outskirts of city behind our lines. Many in hiding and about 1,000 entrenched themselves. Completely routed yesterday with loss of killed and wounded about 500 and 200 prisoners. Our loss very slight. City quiet, confidence restored, business

progressing. (Signed) "Oris." MANILA. Feb. 25.—Owing to the wholesale arrests of all suspected Filipinos Thursday and the clearance of the streets at 7 o'clock Thursday night the threatened renewal of the scenes of the previous night did not occur. With the exception of a few shots fired in the neighborhood of the penitentiary the city was as quiet as possible.

Outside Manila the rebels were very active. Near Caloocan, the brigade commanded by General Harrison Gray Ous had several lively skirmishes with the rebels. But at daylight the enemy were driven back with severe loss.

The feeling in this city was much improved and business generally was resumed. Excellent order was maintained by General Hughes' police force,

which was universally commended. The United States transport Scandia, with the I wentieth iniantry on board, arrived here from San Francisco, which

port she left on Jan. 26. All outles on importations of fresh

fruits, vegetables and meats had been temporarily suspended.

Orders had been issued to enforce the provisional customs tariffs at lioilo and the following officers had been appointed to conduct the civil affairs of lloilo: Major Theodore Stomberg, treasurer; Captain J. T. Evans, collector of customs; Ensign L. H. Everhart, port captain; L. C. Hatch, Eighteenth infant. y, collector of revenue.

The enemy's sharpshooters had been three gun battery near the railroad and "Has the Lay Representation Been a the improvement of the rebel marks- Blessing to the Church?"

manship was very nonceaute. The rebels fired volleys at the battery, their bullets frequently skimming the tops of the sandbags. A lieutenant of the Twentieth Kansas volunteers and three others men were slightly wounded. A

man was killed in the trenches Friday. The rebel battery had not been used tince a shell from the United States couble-turreted monitor Monadnock exploded over it Thursday.

The enemy's hre was so hot, during the night, in the vicinity of the Higgins House, that the headquarters was removed to a church 400 yards inside the line.

The Twentieth infantry was being disembarked from the transport Scandia. The regiment likely will be encamped on the water front, at the former quarters of the Tennessee volunteers, temporarily.

#### TRADE NEVER BETTER

Dun's Review on the General Situation. Gain Astonishing In Some Industries.

NEW YORK, Feb. 25 .- R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

The situation is without precedent. Busiless has never been better on the whole, and n some great in lustries the gain is astonish-Exports surpass last year's as much as , though the excess over imports then eavy. Failures are smaller than last and smaller than in either of six years stocks are stronger, the average for the native railway securities being a little higher of for trusts much more owing to the exhary a lyance of \$18,75 in tobacco. Pay through exchanges show a greater , and nearly one half larger than in the t of previous years. The outgo of breaduffs and cotton continues heavy. But there are some who fear that such prosperity can-

Popular impressions have to be reckoned with because they control events. Yet at every point of danger except one the signs are in every respect favorable. The upward rush of 16.5 per cent in the prices of pigiron since Jan. l and 17.6 per cent in prices of iron and steel products does indeed raise a question whether exports of such products may not be temporarily checked, but if they could be entirely stopped, as they are not, the balance due this ountry would still be large. The crush of demand for finished products, at a time when nearly all the works are crowded by orders covering production until July 1 or later. causes many to refuse to contract beyond that date except at higher prices, and a rise under such circumstances may prove the one thing needful to sober buyers and to bring into the list of producers other establishments heretofore idle.

While a fairly large capacity of production is still in reserve, the demand now pressing for cars, vessels, bridges, buildings and pipes is partly to anticipate an expected rise in prices. The best sign is that great producers spare them at present, but when the appear to be anxious to maintain their hold of foreign markets, although just now unable to take orders for future delivery.

Little weakness is there seen, except for fleece and in quarter and three-eighths blood and combing wool prices are generally strong with scarcity of supply, but sales for three weeks have been 18,050,200 pounds, against 34,4 753,500 pounds two years ago with free wool and 17.003,200 pounds in 1892.

Wheat has gained only 1% cents in price, although Atlantic exports, flour included, have been 2,567,334 bushels, against 3,030,417 bushels last year, and including other exports, 3,-79,736 bushels, against 3,656,793 bushels last year. The exports have been so heavy that many doubt their continuance and yet grain comes from the farms and then goes abroad as if such doubt had no basis. The western receipts during the past three weeks have been 9,376,473 bushels, against 7,335,426 bushels

Corn has gained but one-half cent, with smaller demand for export, although its outward movement will be quite beyond precedent, but for last year. In three weeks the exports have been 6,915,567 bushels, against 10.931.774

Failures for the week have been 191 in the United States against 233 last year and 40 in Canada against 30 last year.

#### BULGARIA SAFE IN PORT.

The Steamer, Thought to Have Foundered, Reached the Azores.

PONTA DEL GADA, Azores, Feb. 25 .-The Hamburg-American liner Bulgaria reached this port. All on board the Bulgaria are in good health.

The British tank steamer Weehawken arrived at Ponta del Gada on Feb. 12, with 25 passengers which she had taken off the Bulgaria. The Bulgaria was dent of the new company, and have spoken by the Weehawken on Feb. 5. charge of the operation of the road. She was pronounced to be in a sinking condition. She had a crew of 98 men and carried 41 passengers. The Weehawken lost sight of the Bulgaria during the night of Feb. 5 and was obliged to proceed. The rescued passengers of the Bulgaria reported that the cargo of the Bulgaria shifted, throwing the steamer on her beam ends and that although a quantity of her cargo was jettisoned the crew were unable to right it is known their supply of provisions is her. During the gale 150 horses were lost from the Bulgaria and a boat with five men in her went adrift. These five were rescued and brought to the United States by another vessel.

The Bulgaria, it appears, stopped about 11 days, during which she was engaged in repairing her machinery and rudder. She lost one man during

the operation. The British steamer Antillian, Captain Fost, from Liverpool, on Feb. 4, for New Orleans, attempted to take the Bulgaria in tow, but gave up the task. The Bulgaria eventually proceeded

## United Evangelical Conference.

READING, Pa., Feb. 25.—At the United Evangelical conference Revs. C. S. Haman, B. J. Smoyer and A. M. Stirk particularly active about Caloocan all were re-elected eiders. Bishop Duos day. Special attention was paid to the delivered an address on the question,

State Operators and Miners Try to Agree.

#### LITTLE PROSPECT OF SETTLEMENT.

Neither Side Showed a Disposition to Yield-Miners Offered to Send Organizers Into West Virginia-Little Inducement to the Operators.

Columbus, Feb. 25.--The conference held here between the executive committees of the Ohio miners and operators developed serious differences. The operators of this state not having been a party to the interstate agreement at Pittsburg are not bound by it, and they had determined to secure the most advantageous terms possible by dealing directly with the Ohio miners.

At the conference they demanded a settlement on the run of mine basis in the Pittsburg district, which is 423 cents per ton. The miners insisted on the price under the Chicago agreement, which would be 4712 cents per ton. Neither side showed a disposition to yield, and the conference adjourned until today, with the prospects for a settlement anything but encouraging. his own price for them.

The Indianian Made a Sensational Attack In the House on the President.

(Rep., Ind.) delivered a most remarkable and sensational speech, in the house, arraigning the administration in bitter terms for its alleged imperialistic program. He referred in opening to the recent banquet at Boston attended by the president and members of his cabinet. He paid his respects to Secretary Alger, who, he said, had been retained in the cabinet despite his incompetency on account of his contributions to the campaign fund in 1896. Secretary Long also came in for his share of irony. He had the audacity, Mr. Johnson said, to repeat the baseless charge that those opposed to ratification of the treaty were responsible for the bloodshed in the Philippines.

The president's speech at the Boston banquet, Mr. Johnson declared, was the most disingenius that ever fell from the lips of a chief executive. "Apart from it's platttudes and professions of virtue; wounded, and Mr. T. Haslam slightly. it was," he said, "a carefully devised and studious misstatement of facts."

He likened the president to Peck-

If the president really felt that congress should determine upon the future of the Philippines, he asked why the president did not call congress in extra session and then keep his hands off. He charged that the president coerced the senate into ratifying the treaty; that he would not permit a vote on the Bacon resolution and only allowed the McEnery resolution, which meant nothing, to pass in order to lull the opposition of the country to sleep while he went ahead waging relentless war against a helpless people struggling for

How the two-thirds vote to ratify the treaty was secured, Mr. Johnson said, only the president could tell. The people did not endorse the action of the senate. They would overthrow him in the end.

The true cause of the president's change of attitude toward the Philippines, Mr. Johnson declared, was to be found in the demands of selfish capitalists. They were the gentlemen, he said, who had turnished the money for his nomination and election and he had no doubt they had already pledged him a renomination and re-election.

He charged that these men had already seized valuable concessions in China which the acquisition of the Philippines would benefit. He said vast concessions had already been granted in Porto Rico and he had no doubt the board created by the president would farm out valuable franchises to Americans which properly belonged to the natives of those islands.

The speech did not raise about him the storm of his former speeches. Mr. Landis, one of his Republican colleagues from Indiana, briefly stated to the house that Mr. Johnson's constituents had repudiated him, and the two members had a wordy duel. Later in the day Mr. Marsh (Rep., Ills.) replied to some of Mr. Johnson's strictures, but the Republican leaders had evidently decided to ignore the attacks of the Indianan and no general reply was made to his speech. the road lett on a special train for Cin-

#### CANAL AMENDMENT PASSED.

It Went Through the Senate With the River and Harbor Bill.

WASHINGTON, Feb. 25.-The senate passed the river and harbor bill by the decisive vote of 50 to 3. A sharp con-CLEVELAND, Feb. 25 .- Five men were test arose over the Nicaragua canal bill amendment. A point of order was made against it that it was general legislation, but the senate, to which the vice president submitted the point, overruled it. It was then attacked as not being relevant to a river and harbor had with the men for several days, and measure, but this, too, was overruled by the senate. Mr. Pettigrew (Rep., S. D.), Mr. Rawlins (Dem., Utah) and Mr. Teller (Silver Rep., Colo.) vigorously attacked the bill, their opposition being directed especially against the canal amendment.

Mr. Seweli (N. J.) delivered a speech in support of the Hull-Hawley army reorganization bill, in the course of which he deciared that the United States was now as much at war in the Philippines as it was with Spain when our army was before Santiago. He expressed the belief that it would require an army of 50,000 men to control the Filipinos and that we were likely yet to have serious trouble in Cuba.

ROAD SOLD FOR \$4,000,000.

Hocking Valley Property Goes to the Morgan Syndicate.

COLUMBUS, Feb. 25.—The Columbus, Hocking Valley and Toledo railroad was sold here by R. R. Cowen and A. R. Humes, special master commissioners, to representatives of the Morgan syndicate, in furtherance of the reorganization committee's plan. There was only one bid, made by M. E. Ingalls, Jr., and George F. Gardner, the amount being that of the upset price, \$3,250,000 for the road, and \$750,000 for the Hocking Valley Coal and Railroad

The two properties were knocked down at \$1,000,000. The stock of the Wellston and Jackson Belt line brought \$250,000 and two other batches of stocks \$5,000 each.

immediately after the sale the reorganization con mittee and officials of the road lett on a special train for Cincinnati to appear before Junge Taft and have the sale confirmed, intending then to return at once to Columbus and complete the reorganization. The present receiver, M. Monsarrat, it is generally conceded, will be made presidens of the new company, and have charge of the operation of the road.

#### Prisoners In the Ice.

CLEVELAND, Feb. 25 .- Five men were imprisoned in a temporary water works crib several miles out in Lake Erie, and there was much apprehension felt for their safety. Enormous piles of ice covered the crib, almost hiding it from view. No communication had been had with the men for several days, and it is known their supply of provisions is

#### EGG FAMINE.

Retail Price Reached 50 Cents at Cleveland - Forty Cents at Pittsburg, Where They Were Cornered.

CLEVELAND, Feb. 25.—The egg famine has reacted this city and the retail price reached 50 cents per dozen. Many grocers were unable to obtain even a small supply and would-be purchasers in many cases were unable to get their orders fille . At some of the restaurants eggs have been erased from the bill of rare. Commission dealers express the belief that there will be no adequate supply for a week or ten days

at least. PITTSBURG, Feb. 25.-Eggs jumped from 21 and 22 cents a dozen to 25 and 40 cents a dozen since Wednesday in Pittsburg, Allegneny and asl the sur-rounding towns. The market was winds.

cornered in a most daring rashion right under the very noses of the commission. dealers. H. D. Miller, a poultry and eggs dealer, hailing from Philo, Muskingum county, O., did the cornering and succeeded not only in buying up eggs in this locality, but also in getting his own price for them.

Indianapolis, Feb. 25 .- An egg famine was on in this city. The retail price was 60 cents and the wholesalers were holding at 55 cents. The retailers hesitate to meet this price and were hopeful that shipments from Southern Indiana would soon bring the price

#### JOHNSON'S FIERCE PHILLIPIC

The Indianian Made a Sensational Attack In the House on the President.

WASHINGTON, Feb. 25,-Mr. Johnson (Rep., Ind.) delivered a most remarkable and sensational speech, in the house, arraigning the administration in bitter terms for its alleged imperialistic program. He referred in opening to the recent banquet at Boston attended by the president and members of his cabinet. He paid his respects to Secretary Alger, who, he said, had been retained in the cabinet despite his incompetency on account of his contributions to the campaign fund in 1896. Secretary Long also came in for his share of irony. He had the audacity, Mr. Johnson said, to repeat the baseless charge that those opposed to ratification of the treaty were responsible for the bloodshed in the Philippines.

The president's speech at the Boston banquet, Mr. Johnson declared, was the most disingenius that ever fell from the lips of a chief executive. "Apart from it's platttudes and professions of virtue; wounded, and Mr. T. Haslam slightly. it was," he said, "a carefully devised and studious misstatement of facts." He likened the president to Peck-

If the president really felt that congress should determine upon the future of the Philippines, he asked why the president did not call congress in extra session and then keep his hands off. He charged that the president coerced the senate into ratifying the treaty; that he would not permit a vote on the Bacon resolution and only allowed the McEnery resolution, which meant nothing, to pass in order to lull the opposition of the country to sleep while he went ahead waging relentless war against a helpless people struggling for

How the two-thirds vote to ratify the treaty was secured, Mr. Johnson said, only the president could tell. The peo-ple did not endorse the action of the They would overthrow him senate. in the end. The true cause of the president's

change of attitude toward the Philippines, Mr. Johnson declared, was to be found in the demands of selfish capitalists. They were the gentlemen, he said, who had turnished the money for his nomination and election and he had no doubt they had already pledged him a renomination and re-election.

He charged that these men had already seized valuable concessions in China which the acquisition of the Philippines would benefit. He said vast concessions had already been granted in Porto Rico and he had no doubt the board created by the president would farm out valuable franchises to Americans which properly belonged to the natives of those islands.

The speech did not raise about him the storm of his former speeches. Mr. Landis, one of his Republican colleagues from Indiana, briefly stated to the house that Mr. Johnson's constituents had repudiated him, and the two members had a wordy duel. Later in the day Mr. Marsh (Rep., Ills.) replied to some of Mr. Johnson's strictures, but the Republican leaders had evidently decided to ignore the attacks of the Indianan and no general reply was made to his speech.

#### CANAL AMENDMENT PASSED.

It Went Through the Senate With the River and Harbor Bill.

WASHINGTON, Feb. 25 .- The senate passed the river and harbor bill by the decisive vote of 50 to 3. A sharp contest arose over the Nicaragua canal bill amendment. A point of order was made against it that it was general legislation, but the senate, to which the vice president submitted the point, ling's physicians at 10:30 last night: overruled it. It was then attacked as not being relevant to a river and harbor mation and a continuation of the dismeasure, but this, too, was overruled ease, is a little weaker, but otherwise as by the senate. Mr. Pettigrew (Rep., S. D.), Mr. Rawlins (Dem., Utah) and Mr. Teller (Silver Rep., Colo.) vigorously attacked the bill, their opposition being directed especially against the canal amendment.
Mr. Seweli (N. J.) delivered a speech

in support of the Hull-Hawley army reorganization bill, in the course of which he deciared that the United States was now as much at war in the Philippines as it was with Spain when our army was before Santiago. He expressed the behef that it would require an army of 50,000 men to control the Filipinos and that we were likely yet to have serious trouble in Cuba.

Mr. Sewell said he never was in favor

of keeping the Philipp nes.

## FOREIGN CONSULS MET.

Result of Meeting Not Communicated to General Otis.

BRITISH CONSUL DIDN'T ATTEND.

One Englishman Killed by American Soldiers, Another Fatally Wounded and Another Slightly Hurt-Mistaken For Filipinos-British Bluejackets Landed.

MANILA, Feb. 25.-10:15 A. M.-The foreign consuls met yesterday to confer regarding commercial interests, but the result of their deliberations has not been communicated, it is understood, to the American authorities. The British consul was not present at the confer-

The shooting of two Englishmen and of Mr. Argentine, manager of the Andrews cotton mill at Tondo on Wednesday is generally regretted, but it is admitted that this was unavoidable. Instead of remaining in the stone basement during the excitement occasioned by the fires in the vicinity the trio leaned from an upper window.

Their white suites attracted attention of the American soldiers, who believing them to be natives firing from the windows, shot all three. Mr. Argentine is dead. Mr. C. F. Simpson is fatally

By permission of the authorities a party of blue jackets is landed every evening from the British cruiser Narcissus to act as a special fire brigade for wetting down the consulate and banks, as a precaution against the incendiarism.

#### ARMY BILL REPORTED.

The New Compromise Measure Given to the Senate-Some of It's Provisions.

Washington, Feb. 25.-The senate on military affairs reported the compromise army reorganization bill to the senate. One section reads as follows:

"That to meet the present exigencies of the military service the president is nereby authorized to maintain the regular army at a strength of not exceeding 65,000 enlisted men, to be distributed among the several branches of the service according to the needs of each, and raise a force of not more than 35,000 volunteer infantry, as he may determine, from the country at large, under general law, or from the localities where their services may be required with regard to citizenship or educational qualifications, and to form the same into not more than 30 regiments organized as infantry regiments of war strength in the regular army.' Another section said:

"Provided, that such increase in the reguler and volunteer force shall continue in service only during the necessity therefor, and not later than July 1,

FOUR SOLDIERS DIED.

General Brooke Reported Deatks at Various Places In Cuba.

WASHINGTON, Feb. 25.—General Brooks cabled as follows:

"Death report Feb. 22:

"Havana-George W. Skellenger, Company K, Second artillery, Feb. 20, typhoid, on hospital ship Missourt.

"Puerto Principe — Clarence Beneki, Company C, Eighth cavalry, 22d, typhoid. "Santiago—Charles M. Hanser, Company G, Fifth volunteers, 22d, malaria. Trinidad-William Bullock, Company A, Fourth Tennessee, 21st. malaria."

#### KIPLING WAS WEAKER.

Due to the Inflammation Increasing and a Continuation of the Disease.

NEW YORK, Feb. 25.—The following bulletin was issued by Rudyard Kip-

"Mr. Kipling, owing to added inflamat the last builetin.

"E. J. JANEWAY," (Signed) "THEODORE DUNHAM."

Dr. Janeway and Dr. Dunham were with the patient for about an hour and a half before issuing the above bulletin. Soon after it was posted Dr. Janeway came downstairs. He was asked if he could not add to the bulletin, but said he did not wish to say anything more. "Is the case likely to prove fatal, doc-

tor?" was asked. "The progress of the disease is less rapid than in a fatal case," was all the doctor would say, and he hurried away

from the hotel. Grovener's anoor Union Measure.

WASHINGTON, Feb. 25 .- Representative Grosvenor of Onio introduced a bill directing that government publications shall bear the imprint of the luterns tonal Typographical union.

Filipinos Didn't Disturb the People of Manila.

#### **\*CCASIONAL VOLLEYS WERE FIRED.**

Punches of the Enemies Sent In Shots From Various Points Along the Line Ostside-Dewey's Request For the Oregen-Many Casualties Among Natives.

Manila, Feb. 25.—(10:15 a. m.)—Despite the threats of the Filipinos to burn the business center, the inhabitants of Manila were not disturbed last night. There was not a single incident worth recording from the time when the streets were cleared until day dawned this morning.

Everything was equally quiet along the line outside, except for occasional volleys from bunches of the enemy at various points.

The enemy were most active along General King's and General Ovenshine's line, from the beach to Pasig, but a few volleys of musketry, supplemented by shells from the Buffalo, effectually quieted them.

Washington, Feb. 25 .- The cabinet gave some attention to Dewey's cable message relative to the political importance of sending the Oregon at once to Manila. The conclusion reached was that too much importance should not be attached to it; that Dewey wants the! big ship to influence the Filipinos | not last. through fear. Secretary Long said when asked for an explanation of the reference to political reasons in the dispatch: "I am sure that it has no international significance. You may state that positively. Probably he wants a fine ship there, as the American commissioners are about due, and it will give weight to the American representat ous.'

It was suggested from other naval sources that Dewey wants the Oregon to release a number of the smaller ships of the fleet for other work. He had been planning a tour among the other islands than Luzon with the purpose of establishing the authority of the United States among them. It is also necessary to establish a close blockade to prevent the insurgents from receiving supplies. These projects require for their execution a number of ships. Dewey cannot spare them at present, but when the Oregon got into Manila harbor she will be sufficiently formidable to insure the protection of the entire harbor in conlanction with the two big double-turreted monitors Monterey and Monadnock. The remainder of the fleet then will be free to carry out the projects. While these three armored ships are lying in Manila bay there is no tear that any force can enter or pass out without their consent.

These messages were received from Dewey:

"MANILA, Feb. 24. "For political reasons the Oregon should be sent here at once.
(Signed) "DEWEY." (Signed)

"MANILA, Feb. 24.

"Yorktown arrived. Charleston and Petrel cruising around the Philippine islands. Affairs more quiet.

(Signed) "DEWEY." The Oregon sailed from Honolala, Feb. 12, it is thought for Manila.

General Otis cabled the war department as follows:

"Manila, Feb. 24.—Scandia arrived last night. On nights 21st and 22d and yesterday morning insurgent troops gained access to outskirts of city behind our lines. Many in hiding and about 1,000 entrenched themselves. Completely routed yesterday with loss of killed and wounded about 500 and 200 prisoners. Our loss very slight. City quiet, confidence restored, business

progressing. (Signed) "Offs."
MANILA. Feb. 25.—Owing to the wholesale arrests of all suspected Filipinos Thursday and the clearance of the streets at 7 o'clock Thursday night the threatened renewal of the scenes of the previous night did not occur. With the exception of a few shots fired in the neighborhood of the penitentiary the city was as quiet as possible.

Cutside Manila the rebels were very active. Near Caloocan, the brigade commanded by General Harrison Gray Ous had several lively skirmishes with the rebels. But at daylight the enemy were driven back with severe loss.

The feeling in this city was much improved and business generally was resumed. Excellent order was maintained by General Hughes' police force, which was universally commended.

The United States transport Scandia, with the I wentieth iniantry on board, arrived here from San Francisco, which port she left on Jan. 26.

All outles on importations of fresh fruits, vegetables and meats had been temporarily suspended.

Orders had been issued to enforce the provisional customs tariffs at lioilo and the following officers had been appointed to conduct the civil affairs of lloilo: Major Theodore Stomberg, treasurer; Captain J. T. Evans, col-

lector of customs; Ensign L. H. Everhart, port captain; E. C. Hatch, Eighteenth infant, y, collector of revenue. The enemy's sharpshooters had been particularly active about Caloocan all day. Special attention was paid to the three gun battery near the railroad and

manship was very nonceasie. The rebels fired volleys at the battery, their bullets frequently skimming the tops of the sandbags. A lieutenant of the Twentieth Kansas volunteers and three others men were slightly wounded. A

man was killed in the trenches Friday. The rebel battery had not been used lince a shell from the United States couble-turreted monitor Monagnock exploded over it Thursday.

The enemy's fire was so hot, during the night, in the vicinity of the Higgins House, that the headquarters was removed to a church 400 yards inside

The Twentieth infantry was being disembarked from the transport Scandia. The regiment likely will be encamped on the water front, at the former quarters of the Tennessee volunteers, temporarily.

#### TRADE NEVER BETTER.

Dan's Review on the General Situation. Gain Astonishing In Some Industries.

NEW YORK, Feb. 25.-R. G. Dun & Co.'s Weekly Review of Trade, issued directly with the Ohio miners. oday, said in part:

The situation is without precedent. Busies has never been better on the whole, and n some great in lustries the gain is astonish-Exports surpass last year's as much as its, though the excess over imports then avy. Failures are smaller than last nd smaller than in either of six years tocks are stronger, the average for the ative railway securities being a little higher of for trusts much moregowing to the exthrough exchanges show a greater volume of business than ever before at this and nearly one half larger than in the t of previous years. The outgo of bread. uifs and cotton continues heavy. But there are some who fear that such prosperity can-

Popular impressions have to be reckoned with because they control events. Yet at every point of danger except one the signs are in every respect favorable. The upward rush of 18.5 per cent in the prices of pigiron since Jan. 1 and 17.6 per cent in prices of iron and steel products does indeed raise a question whether exports of such products may not be temporarily checked, but if they could be entirely stopped, as they are not, the balance due this country would still be large. The crush of demand for finished products, at a time when nearly all the works are crowded by orders covering production until July 1 or later. causes many to refuse to contract beyond that date except at higher prices, and a rise under such circumstances may prove the one thing needful to sober buyers and to bring into the list of producers other establishments heretofore idle.

While a fairly large capacity of production is still in reserve, the demand now pressing for cars, vessels, bridges, buildings and pipes is partly to anticipate an expected rise in prices. The best sign is that great producers appear to be anxious to maintain their hold of foreign markets, although just now unable to take orders for future delivery.

Little weakness is there seen, except for fleece and in quarter and three-eighths blood and combing wool prices are generally strong with scarcity of supply, but sales for three weeks have been 18,050,200 pounds, against 34,-753,500 pounds two years ago with free wool and 17.005,200 pounds in 1892.

Wheat has gained only 1% cents in price, although Atlantic exports, flour included, have been 2,567,334 bushels, against 3,030,417 bushels last year, and including other exports, 3,-79,736 bushels, against 3,656,793 bushels last year. The exports have been so heavy that many doubt their continuance and yet grain comes from the farms and then goes abroad as if such doubt had no basis. The western receipts during the past three weeks have been 9,376,473 bushels, against 7,335,426 bushels last year.

Corn has gained but one-half cent, with smaller demand for export, although its outward movement will be quite beyond precedent, but for last year. In three weeks the exports have been 6,915,567 bushels, against 10.931.774.

Failures for the week have been 191 in the United States against 233 last year and 40 in Canada against 30 last year.

#### BULGARIA SAFE IN PORT.

The Steamer, Thought to Have Foundered, Reached the Azores.

PONTA DEL GADA, Azores, Feb. 25 .-The Hamburg-American liner Bulgaria reached this port. All on board the Bulgaria are in good health.

The British tank steamer Weehawken arrived at Ponta del Gada on Feb. 12, with 25 passengers which she had taken off the Bulgaria. The Bulgaria was spoken by the Weehawken on Feb. 5. She was pronounced to be in a sinking condition. She had a crew of 98 men and carried 41 passengers. The Weehawken lost sight of the Bulgaria during the night of Feb. 5 and was obliged to proceed. The rescued passengers of the Bulgaria reported that the cargo of the Bulgaria shifted, throwing the steamer on her beam ends and that although a quantity of her cargo was jettisoned the crew were unable to right her. During the gale 150 horses were lost from the Bulgaria and a boat with five men in her went adrift. These five were rescued and brought to the United States by another vessel.

The Bulgaria, it appears, stopped about 11 days, during which she was engaged in repairing her machinery and rudder. She lost one man during

the operation. The British steamer Antillian, Captain Fost, iroin Liverpool, on Feb. 4, for New Orleans, attempted to take the Bulgaria in tow, but gave up the task. The Bulgaria eventually proceeded

#### alone. United Evangelical Conference.

READING, Pa., Feb. 25.-At the United Evangelical conference Revs. C. S. Haman, B. J. Smoyer and A. M. Stirk were re-elected elders. Bishop Dubs delivered an address on the question, "Has the Lay Representation Been a the improvement of the rebel marks- Blessing to the Church?"

# COAL CONFERENCE.

State Operators and Miners Try to Agree.

#### LITTLE PROSPECT OF SETTLEMENT.

Neither Side Showed a Disposition to Yield-Miners Offered to Send Organizers Into West Virginia-Little Inducement to the Operators.

COLUMBUS, Feb. 25, -- The conference held here between the executive committees of the Ohio miners and operators developed serious differences. The operators of this state not having been a party to the interstate agreement at Pittsburg are not bound by it, and they had determined to secure the most advantageous terms possible by dealing

At the conference they demanded a settlement on the run of mine basis in the Pittsburg district, which is 4234 cents per ton. The miners insisted on the price under the Chicago agreement. which would be 47% cents per ton. Neither side showed a disposition to yield, and the conference adjourned until today, with the prospects for a settlement anything but encouraging. National President Mitchell and Vice President Davis were here to assist in the settlement.

The Ohio miners offered to send organizers into the West Virginia coal fields and endeavor to raise the price of mining there, but as similar efforts in the past had failed the offer of the

# A METHODIST CHURCH

Will Probably Be Built In the OUTLINE OF HIS OPEN DOOR PLANS Near Future.

LOOKING FOR A

Officers and Members of the Organization Desire a Change and Have Taken Preliminary Steps-Schools are Crowded With no Hope of Relief Soon.

While several churches in East End have been making improvements upon their property or erecting new buildings. the members of the Second M. E. church have been thinking and saying nothing. This morning it was learned from the most reliable source that their thoughts were of a new church. The gentleman who ventured the assertion said:

"The matter of building a new church has been talked over by the board of ited. trustees, and even by some of the members, but as yet nothing of a definite character has been decided upon. Work is being quietly done, and so far several building sites have been considered. Among these were lots in the Harker plat. Objection was raised to these from the fact that they were too far away from the center of the place. The ridge has been suggested as a suitable site, and it is probable will receive favorable consideration."

The Second M. E. church was organized 11 years ago in the building known then as the Episcopal chapel, with the following members: Mr. and Mrs. Henry Chambers, Mr. and Mrs. William Bryan, Mr. and Mrs. John Green, Mr. and Mrs. Reagle, Mr. and Mrs, William Finley and Mrs. Marsh. Messrs. Bryan, Green and Reagle are now dead. One of the old school rooms in Pennsylvania avenue was purchased for \$100 and the seats were bought from the colored church in this city. The first meeting held was a revival service, conducted by Doctor Williams, of the First M. E. church. At this meeting 120 conversions were made.

The present congregation numbers 240 members, and the church is free from debt.

#### Mud Was Very Deep.

The cold weather has benefited the teamsters to a considerable extent in this part of the city. The warm weather caused the frost to come out of the ground, and the recent rains resulted in much mud being formed. In Mulberry street and Pennsylvania avenue the mud was at least five inches deep in some places while in other parts it was even deeper. Now that the ground is frozen pedestrians as well as teamsters are thankful.

#### Schools Filled.

The crowded condition of the schools in this part of the city will not be relieved this term as was anticipated. In the building in Pennsylvania avenue every room is filled with the exception of one, that which is taught by Miss Flowers. The rooms at Helana are filled, as is the Neville institute at Dry Run. The condition of the schools is the best evidence that the East End is growing, and growing rapidly.

#### Delayed by Painters.

The painters now working at the Second U. P. church will not finish their work tonight as expected, and the time has been extended until next week. The work of laving the carpet could not be commenced under such circumstances, and will not until the painters have finished. All the seats have been joined, and these will be placed in position as soon as the carpet is laid.

#### Lewellen Is Better.

William Lewellen, who was seriously injured by being thrown from a horse recently, is improving. His condition is such that it is thought by his friends that he will be able to resume his work within a few days.

#### One Man In a Mine.

The coal mine at Dry Run is not being worked extensively at present. Only one man is employed, and the owner is ill at his home. The vein is not a large one, but much coal remains to be mined.

#### Disappeared.

A prominent individual of this place has not been seen since the first of the week. No word has been received from him and his friends are becoming anxious as to his whereabouts.

#### A Stranger.

The many friends of Mr. and Mrs. W. A. Andrews will be pleased to learn that a little son came to their home in First avenue. Thursday night.

## THE EAST END. BERESFORD ON AMERICA

He Is Gratified With His Reception In This Country.

American Prestige Is High, He Says In the Orient-Our Reputation In the East Warrants an Alliance to the world. Guarantee Freedom of Trade.

Lord Charles Beresford, the British commissioner who is on a semiofficial Topic For the Week Beginning Feb. visit to this country, is received with enthusiastic expressions of good will at every place he visits. To a reporter of an Omaha paper a day or two ago he

"I had expected the American people to take kindly to the idea of a commercial alliance that would lead to a better understanding in the far east and contribute to the development of better trade relations, but I cannot say that I was prepared for the enthusiastic reception I have received thus far from the sections of the United States I have vis-

Lord Beresford declared with emphasis that he believed the community of interest needed for the maintenance of open ports in China and the restriction of "spheres of influence" would be se-

"I base my opinion of the success of this venture," said he, "not only on the enthusiasm displayed by American commercial bodies since my arrival, but from the letters and telegrams received from prominent men throughout the United States. Even while in China studying this subject I received letters from prominent Americans.

"I am gathering memorials, resolutions and other forms of expression of the commercial bodies of this country. Of course I will exhibit these testi-

26, "Palm Tree Christians." Text, Ps. xcii, 12-15.

"The righteons shall flourish like the palm tree." Few objects are more beautifully majestic than the palm. The palms lifted high above the luxuriance of tangled jungles of shrubs and vines. So, says the Bible, does a Christian man appear in the mass of men. What dignity and power there is in a life like that of David Livingstone, of Bishop Hannington of Uganda, of Judson of Burma or of Chinese Gordon, of Havelock and the heroes of the Christian faith of many lands and times!

Whoever cares to know the truth can quickly assure himself of the fact that during the ages past as well as today the man who prospers most and the people who achieve most substantial success and progress are those who maintain the highest moral integrity. The man who disregards truth and the rights of others, the people who indulge in oppression, fraud and violence, may for a little while acquire an advantage over others, but in the long run they weaken themselves and will invariably fall.

Permanent wealth cannot be acquired by gambling or theft. Industry and frugality alone lay the foundations of stable fortunes. Experience teaches this, reason approves it.

Happiness is an element of all human advancement. No man or people are flourishing unless there are contentment of spirit and joyousness in the life. Happiness was never known to rest in the heart of one doing evil. No people can be prosperous and contented who are fraudulent and wicked.

Today in all the higher circles of trade the honest yard and honest dollar are recognized as necessities. Over all other considerations of self approval and the regard of fellow men rises the fact that the approbation of God is the most necessary thing to the human heart. He is pure and just and good. His blessing is on righteousness only. His mercies are over all, even the evil, but His promises of peace and prosperity are only to the upright in heart and life.

However iniquity may seem to abound no lie prospers and no fraud is stable. From the vantage ground of heaven we shall look back and see in human history that righteousness alone and do good; so shalt thou dwell in the

#### What Is It Good For!

Thistles and thorns have their place and worth, but the man who cultivates them in hope of harvesting grapes and figs from them loses time and labor. So some folks have started in the Christian way, thinking it yielded fruits of a "Can a man make more money and make it faster by being a Christian than by not being one?" is a question not infrequently asked. "Is a Christian more prospered in business than one not a Christian?" These questions mistake the nature of Christianity and salvation. It is not possible for any one to confound a full pocktbook with love for his child, though the two may have close connection and profound influence on each other.

Religion of the right sort will make a man better in every part of life and work, but it is not of the nature of an and assurance of Divine pardon and favor and joyousness in consciousness of Christ as Saviour and God as Father.

From the leaves on the roof of the bower have. shone scores of electric lights so tiny that they hardly gave the suggestion of

were open. The guests stood at the vere pains across the small of my back threshold, as if they were in an Aladdin's garden which would suddenly disappear. Before them was a circle which beamed with colors and light. There cloth showed; beyond were beds of the pain soon left me and I was all right flowers, and in the center of all a bronzed boy leaning against a stork locked with laughing eyes at a purling fountain. A sparkling jet rose to within two feet of the lamp which hung from the apex of the bower's roof.

The chairs were drawn back. The gnests sat down at a board which told them of what this old earth gives for the comfort of mankind. There was no lavish display of silver. There were instead flowers and fruit, the most perfect known to man. Bunches of grapes glowed on the white cloth. There lay corsage bouquets of pink roses and lilies of the valley and boutonnieres of white carnations. The menus were painted in letters of gold upon cocoanuts, from a part of the shell of which the rough part of the shell of which the rough fiber had been scraped away. The menus at the places for the women guests were printed upon fans.

Those who sat at that board could hardly keep their eyes from the beauties beyond the rim of white napery Here was a miniature garden, which seemed to grow before their eyes. Between the hedges, along the path. walked the guests to a summer house. in the midst of a tropic jungle of palms It may have been called a grape arbor, save that the smilax twined itself with the vine. Full, round tunches of grapes | queror is proven hung from the leafy canopy. Over all was the light which came from Venetian lanterns. wrought from iron, after the manner which made famous the artificers of mediaval Italy. The electric light shone through panels and medallions of richly colored glass. From the leaves on the roof of the bower have. shone scores of electric lights so tiny that they hardly gave the suggestion of

Only two sides of the 12 sided arbor were open. The guests stood at the threshold, as if they were in an Aladdin's garden which would suddenly disappear. Before them was a circle which beamed with colors and light. There cloth showed; beyond were beds of flowers, and in the center of all a bronzed boy leaning against a stork locked with laughing eyes at a purling fountain. A sparkling jet rose to within two feet of the lamp which hung from the apex of the bower's roof.

The chairs were drawn back. The gnests sat down at a board which told them of what this old earth gives for the comfort of mankind. There was no lavish display of silver. There were instead flowers and fruit, the most perfect known to man. Bunches of grapes glowed on the white cloth. There lay corsage bouquets of pink roses and lilies of the valley and boutonnieres of white carnations. The menus were painted in letters of gold upon cocoanuts, from a part of the shell of which the rough fiber had been scraped away. The menus at the places for the women guests were printed upon fans.

Those who sat at that board could hardly keep their eyes from the beauties beyond the rim of white napery Here was a miniature garden, which seemed to grow before their eyes. From the edge of the basin of the fountain, more than two feet from what had been the floor, sloped a bed of tulips. Then the flower beds reached to the table. Upon the ascent bloomed roses, and sometimes a daffodil would droop upon the table. Sometimes a drop of exhibition of all products, machinery water would splash upon the floral borand appliances that concern calcium ders, glisten in the light and disappear Here is the menu

All the first truits or the earth contributed to that feast. There were strawberries which looked as though they were products of the early summer Then there were raspberries of a new kind. They were brought in on sugar leaves made in imitation of the leaves of the fruit.

As leisurely as the feasts of the Romans this banquet proceeded. There was an hour or so for dancing before the guests went home. Not in the Arcadia, to be sure, but the place of the waxed floors and the brocaded settees -New York Herald

The Christian era was not introduced as a basis of reckoning time until the mixth century.

## METHODIST CHURCH

Will Probably Be Built In the Near Future.

LOOKING FOR A SITE

Officers and Members of the Organization Desire a Change and Have Taken Preliminary Steps-Schools are Crowded With no Bope of Relief Soon.

While several churches in East End have been making improvements upon their property or erecting new buildings. the members of the Second M. E. church have been thinking and saying nothing. This morning it was learned from the most reliable source that their thoughts were of a new church. The gentleman who ventured the assertion said :

"The matter of building a new church has been talked over by the board of trustees, and even by some of the members, but as yet nothing of a definite character has been decided upon. Work is being quietly done, and so far several building sites have been considered. Among these were lots in the Harker plat. Objection was raised to these from the fact that they were too far away from the center of the place. The ridge has been suggested as a suitable site, and it is probable will receive favorable consideration."

The Second M. E. church was organized 11 years ago in the building known then as the Episcopal chapel, with the following members: Mr. and Mrs. Henry Chambers, Mr. and Mrs. William Bryan, Mr. and Mrs. John Green, Mr. and Mrs. Reagle, Mr. and Mrs, William Finley and Mrs. Marsh. Messrs. Bryan, Green and Reagle are now dead. One of the old school rooms in Pennsylvania avenue was purchased for \$100 and the seats were bought from the colored church in this city. The first meeting held was a revival service, conducted by Doctor Williams, of the First M. E. church. At this meeting 120 conversions were made.

The present congregation numbers 240 members, and the church is free from debt.

#### Mud Was Very Deep.

The cold weather has benefited the teamsters to a considerable extent in this part of the city. The warm weather caused the frost to come out of the ground, and the recent rains resulted in much mud being formed. In Mulberry street and Pennsylvania avenue the mud was at least five inches deep in some places while in other parts it was even deeper. Now that the ground is frozen pedestrians as well as teamsters are thankful.

#### Schools Filled.

in this part of the city will not be relieved this term as was anticipated. In the building in Pennsylvania avenue every room is filled with the exception of one, that which is taught by Miss Flowers. The rooms at Helana are filled, as is the Neville institute at Dry Run. The condition of the schools is the best evidence that the East End is growing, and growing rapidly.

#### Delayed by Painters.

The painters now working at the Second U. P. church will not finish their work tonight as expected, and the time has been extended until next week. The work of laying the carpet could not be commenced under such circumstances, and will not until the painters have finished. All the seats have been joined, and these will be placed in position as soon as the carpet is laid.

#### Lewellen Is Better.

William Lewellen, who was seriously injured by being thrown from a horse recently, is improving. His condition is such that it is thought by his friends that he will be able to resume his work within a few days.

#### One Man In a Mine.

The coal mine at Dry Run is not being worked extensively at present. China. Only one man is employed, and the owner is ill at his home. The vein is not a large one, but much coal remains to be mined.

#### Disappeared.

A prominent individual of this place has not been seen since the first of the week. No word has been received from him and his friends are becoming anxious as to his whereabouts.

#### A Stranger.

The many friends of Mr. and Mrs. W. A. Andrews will be pleased to learn that a little son came to their home in First avenue. Thursday night.

## THE EAST END. BERESFORD ON AMERICA

He Is Gratified With His Reception In This Country.

OUTLINE OF HIS OPEN DOOR PLANS.

American Prestige Is High, He Says. In the Orient-Our Reputation In the East Warrants an Alliance to Guarantee Freedom of Trade.

Lord Charles Beresford, the British commissioner who is on a semiofficial visit to this country, is received with enthusiastic expressions of good will at every place he visits. To a reporter of an Omaha paper a day or two ago he

"I had expected the American people to take kindly to the idea of a commercial alliance that would lead to a better understanding in the far east and contribute to the development of better trade relations, but I cannot say that I was prepared for the enthusiastic reception I have received thus far from the sections of the United States I have visited.

Lord Beresford declared with emphasis that he believed the community of interest needed for the maintenance of open ports in China and the restriction of "spheres of influence" would be secured.

"I base my opinion of the success of this venture," said he, "not only on the enthusiasm displayed by American commercial bodies since my arrival, but from the letters and telegrams received from prominent men throughout the United States. Even while in China studying this subject I received letters from prominent Americans.

"I am gathering memorials, resolutions and other forms of expression of the commercial bodies of this country. Of course I will exhibit these testi-

LORD BERESFORD.

monials in England, but the more practical advantage will be the influence heaven we shall look back and see in these gentlemen in America will contribute toward the forming of a wave of public sentiment that will have practical effect in urging the importance of the situation on the congress of the United States.

"I am especially desirous of seeing the chamber of commerce of Chicago take a determined stand in favor of this The crowded condition of the schools alliance. In New York I desire to secure about the same thing. I will also go to Washington and probably get some testimonials if possible from men of public prominence there. I am anxious to visit other cities of the country | make it faster by being a Christian than before I return to England, but am not vet sure I can do so.

"I find a difference of sentiment with reference to one phase of the proposition I am attempting to promote. That refers to the form of alliance between the nations that will undertake to guarantee the integrity of the Chinese empire. I have met many Americans who are unqualifiedly in favor of an alliance for defensive and offensive purposes, while others seem to prefer an amicable understanding between these powers, but | work, but it is not of the nature of an not a formal agreement. The latter insurance policy on his business prosargue that the results can be obtained as well through a friendly understanding as by a formal treaty.

"This is a question that will bear careful discussion. My study of the Christ as Saviour and God as Father, proposition in the orient leads me to conclude that a formal alliance is the proper manner in which the subject should be handled. Community of interests is the mainspring of all national alliances. The subject matter for a community of action between America, England and Germany and 'Japan certainly exists. If a formal alliance is entered into between these nations it will be a notice to the civilized world of their determination to act in behalf of

"I want to impress one thing especially upon the minds of the Americans -that is, the vast prestige the great American republic has secured in the orient through the magnificent work of its army and navy against Spain. The battle of Manila Bay did more to impress upon the higher classes of Chinese the efficiency of modern methods in war exposition.—Philadelphia Press. over the methods used by effete nations than anything that could have occurred. Then, too, it gave the average Chinaman respect for the stars and stripes that they could have secured in no oth-

not only to the Chinese, but to the of clothes he was to be taried in

orient. It placed the stars and scripes in the front rank. Americans, of course, appreciate the efficient work of their gallant admiral, but in the east the naval victory at Manila and the celerity with which the administration rushed vast bodies of troops half way around the world to support its navy had the effect of impressing upon many nations of the orient the boundless power of the great republic, the strength of the great nation on the other side of the world. which at a single bound has placed itself in the front rank of the powers of

#### EPWORTH LEAGUE.

Topic For the Week Beginning Feb. 26, "Palm Tree Christians." Text. Ps. xcii, 12-15.

"The righteous shall flourish like the palm tree." Few objects are more beautifully majestic than the palm. The charm of the tropical landscape is greatly enhanced by the towering fronds of palms lifted high above the luxuriance of tangled jungles of shrubs and vines. So, says the Bible, does a Christian man appear in the mass of men. What dignity and power there is in a life like that of David Livingstone, of Bishop Hannington of Uganda, of Judson of Burma or of Chinese Gordon, of Havelock and the heroes of the Christian faith of many lands and times!

Whoever cares to know the truth can quickly assure himself of the fact that during the ages past as well as today the man who prospers most and the people who achieve most substantial success and progress are those who maintain the highest moral integrity. The man who disregards truth and the rights of others, the people who indulge in oppression, fraud and violence, may for a little while acquire an advantage over others, but in the long run they weaken themselves and will invariably fall.

Permanent wealth cannot be acquired by gambling or theft. Industry and frugality alone lay the foundations of stable fortunes. Experience teaches this, reason approves it.

Happiness is an element of all human advancement. No man or people are flourishing unless there are contentment of spirit and joyousness in the life. Happiness was never known to rest in the heart of one doing evil. No people can be prosperous and contented who are fraudulent and wicked.

Today in all the higher circles of trade the honest yard and honest dollar are recognized as necessities. Over all other considerations of self approval and the regard of fellow men rises the fact that the approbation of God is the most necessary thing to the human heart. He is pure and just and good. His blessing is on righteousness only. His mercies are over all, even the evil, but His promises of peace and prosperity are only to the upright in heart and life.

However iniquity may seem to abound no lie prospers and no fraud is stable. From the vantage ground of human history that righteousness alone has been prosperous. "Trust in the Lord and do good; so shalt thou dwell in the land, and verily thou shalt be fed."

#### What In It Good For!

Thistles and thorns have their place and worth, but the man who cultivates them in hope of harvesting grapes and figs from them loses time and labor. So some folks have started in the Christian way, thinking it yielded fruits of a variety different from what it does. "Can a man make more money and by not being one?" is a question not infrequently asked. "Is a Christian more prospered in business than one not a Christian?" These questions mistake the nature of Christianity and salvation. It is not possible for any one to confound a full pocktbook with love for his child, though the two may have close connection and profound influence on each other

Religion of the right sort will make a man better in every part of life and perity. Righteousness in all his transactions and intentions, peaceableness and assurance of Divine pardon and favor and joyousness in consciousness of that is the nature of Christian prosperity. It is worth something, it is worth everything, for a man to have peace with God, whether he be beggar or billionaire. Religion is for the soul. It saves it. Prosper in all else and fail here, and all is lost.

#### Stuttgart's Calcium Light Show.

The Philadelphia Commercial museum has received advices that there ble. Upon the ascent bloomed roses, will be held at Stuttgart, Germany. from May 1 to 20 of the present year an exhibition of all products, machinery carbide and acetylene, and also all material and tools for sheet metal work The Commercial museum is in a position to furnish the names of firms or individuals who are willing to represent American manufacturers at this

## AN AL FRESCO DINNER.

Gotham's Costliest Banquet Given by Randolph Guggenheimer.

FORTY FRIENDS AS HIS GUESTS

Entertainment at the Waldorf-Astoria Excelled Anything of the Kind Ever Given In New York-Famous Lackmeyer Dinner of 1873 Outdone - Roses Bloomed, Birds

Beneath a vine clad bower, while nightingales sang and a fountain purled. Randolph Guggenheimer, president of the municipal council, gave a dinner the other night at the Waldorf-Astoria which in decoration and appointments surpassed any function of the kind ever given in New York. It set the mark above the Lackmeyer dinner of 1873. which has always been spoken of as the most costly feast ever served on Manhattan Island. That banquet was known as the "swan" dinner, because three of the sort of bird that rested upon "Still St. Mary's Lake" floated about a fountain surrounded by the circular table.

The dinner at which Mr. Guggenheimer entertained 40 personal friends was given beneath the spreading vine in a garden which exhaled the fragrance of the flowers of spring and rang with the roundelay of nightingales, blackbirds and canaries. Real grapes hung from the trellis beneath which the guests were seated, and flowers actually growing nodded at their

to enter a fairyland of spring, electric lights were turned on, and the air was filled with the notes of a woodland oratorio notes attuned to the throats of birds hidden in foliage. The flash of light was to them the breaking of another dawn. They greeted an artificial sun and a morn which was the beginning of night. From beyond was wafted the minstrelsy of stringed instruments. Softly glowed the light upon the garden It was like the sunrise in the spring. The guests were walking down a garden path. Tulips raised their chalices where once had been a well waxed floor. A bank of ferns bearing the dews of morn had upon the top the

It Is Not Forgotten by Company E Soldiers.

THREE LOTS WERE RECEIVED

The First Was Buried as Being Unfit For Use, Some of the Second Was Eaten and the Third Was Not Altogether Good, Only a Memory Now.

The announcement in the NEWS RE-VIEW of last evening that an officer of the Eighth Ohio had stated that beef many years old had been issued to the regiment while it was in Cuba, recalled some things to members of Company

Among those who are in position to talk of the matter is F. L. Trump, commissary sergeant. He recalls many things in connection with the rations received by the company.

We received three consignments of beef while in Cuba," he said, "all of familiar with the subject, the case of koff's brigade, Hawkins, a soldier who posed of. The next lot did not seem so it was by no means what it Henry will reach the age limit ahead of battled until the victory was won has should have been. Soon afterwards Miles. Lee and Wilson are his seniors, been told. dysentery appeared in camp, and every- and so is Wheeler, who is a marvel of regiment in Cuba knows the rests. The last shipment was received while we were at Santiago and was an improvement over the others but by no means good. Some of it was spoiled and unfit Cubans for almost anything they could leaders. When Winfield Scott stood upget, yet it constituted the greater part on the dome of the castle of Chapulteof their ration.

"There may be something in this can story for the packages in which the beef was sent us were tin cans, old and rusty. They had the appearance of having seen service for a long time, and were by no means the bright, attractive appearing tins put on the market here. I don't know how old they were, but the meat they contained was certainly too old for soldiers' use."

"GOING TO SCIO."

That Is the Latest Statement of Tramps.

passed through the city yesterday going down the river. One, a well-built fellow with shirt thrown open at the throat in spite of the cold, was called from a party of four who were standing in Fourth street and asked where they were going.

"Going to Scio," was the prompt reply. "Any man who wants work can get it there without beggin' for it. That's where all the boys are bound for, and they don't lose much time either. Only enough to get something to eat here and there."

His pockets were stuffed with what food he had begged in the city, and his companions seemed equally well provided.

Gallant Deeds of Officers In Advanced Years.

THE LATE GENERAL G. S. GREENE.

His Case Was but One of Many In the United States Army-Generals of Threescore Years In the Mexiean, Civil and Spanish Wars.

Tennessee battlefields have been active-

cept Wade, and not fewer than 100

Threescore years or an age approachpec, directing his battalions in the attack on the City of Mexico, he could look back 34 years to the day of his first battle wound. And General Zachary Taylor, who initiated the Mexican war with all the fiery ardor of youth, was 62 when he crossed the Rio Grande at the head of the American army, marching to Buena Vista and Monterey. And it was only last year that all the world applauded the spectacle of Dewey, in his sixty-first year, smashing Spanish sovereignty in the Philippines, but he was simply bringing to fruit, late in life, lessons that he had himself learned back in the sixties, sailing under Farragut, then a veteran of more than A larger number of tramps than usual threescore, having a record of almost 50 years of active warfare behind him.

> It is interesting to contrast the ages of the distinguished leaders in the civil war. Gray hairs were on the side of the Confederates in those commanders who fought brilliant campaigns. When the conflict began, Grant was 39; Burnside, 37; McClellan, 35; Sherman, 40; Meade, 46; Hcoker, 46; Thomas, 45; Rosecrans, 42; Buell, 43; Sheridan, 30. Of the foremost southerners Lee was 54; A. Sidney Johnston, 58; Joseph E. Johnston, 54; Stonewall Jackson, 37 Longstreet, 40; Beauregard, 44; Bragg, 46; Hood, 31; A. P. Hill, 36; J. E. B. Stuart, 28; Forrest, 40. The crime of being a young man was not lightly passed over in Washington surely, for it was held that Sheridan was too youthful to be appointed colonel of a cavalry regiment when he was 31. Miles received the same sort of rebuff at the Boston statehouse when he asked to be commissioned captain of a hundred patriots who had elected him their leader at the age of 21. Young men were coming to the front in 1865 because of the immense armies in the field and the lack of trained old heads to take the lead. For that reason the highest battlefield valor has been associated with names like Sheridan, Stuart, Custer, Kilpatrick, Wilson, the fiery Cleburne and John B. Gordon, who were all under the average age for commissioned officers as it stood in the last year of the war.

But long before that the gray locks of fighting warriors had been conspicuous on scores of bloody battlefields and the bullets of Yankee and Confederate spared them not. General Leonidas Polk, the ex-bishop, known as the Surpliced Warrior of the South, was killed in the defense of Atlanta at the age of 58; Mansfield, in his sixtieth year, fell at Antietam while deploying his army corps, regiment by regiment, for a grand charge, and General Wadsworth was 57 when he leaped his horse over the Confederate works at the battle of the Wilderness and fell dead within the enemy's lines. But the cldest hero of on account of his fiery ardor in battle. Old Bull of the Woods, had reference We are selling our men's \$5 to his impetuosity when the hour came

That Dewey had many gray haired compeers in the battles against Spain is shown by the long list of veterans who made history for the army at Sana soldier who had held a commission in 37 years. By Wikoff's side almost when

killed was the second in command of the First brigade, Colonel Worth, with nearly 40 years of service to his credit Worth fell within a few feet of his dead chief. Next in rank came Lieutenant Colonel Liscum, who at that moment was climbing the rough hillside at the head of his negro regiment. That young staff officer, Charles E. Tayman. mentioned in the official reports as the breathless messenger sent by Colonel Kent to summon the Seventy-first to the front, owed his breathlessness to a race after Liscum to tell him that the command of the brigade devolved upon General George Sears Greene, who the start of Tayman at the bank of the him. HE UPHELD SUICIDE.

A New York Magistrate Who Thinks Self Destruction Is Justifiable.

When a 16-year-old boy charged with attempting to take his own life was arraigned before Magistrate Wentworth in New York recently, the magistrate startled the court attendants and few spectators by declaring himself in favor

Policemen, clerks and court habitues were looking for the usual lecture on the enormity of the offense and were unprepared for the radical announcement that came from the bench.

Congratulations were extended afterward to the prisoner on his good fortune in being haled before a judge whose views of life and death were similar to

Matthew Mohr, who has been in this country only a short time, and had been apprenticed to a Brooklyn baker, lost his place and was unable to find another. He became despondent and decided to kill himself. He went to a hotel and, after writing a note saying he had nothing to live for, swallowed a gas. A chambermaid noticed the odor version of the origin of the name of escaping gas, and the young man was pumped out at the hospital.

When he was arraigned in court, his sister and her husband made a plea for clemency. Magistrate Wentworth said

"This is a sad case. I believe in suito shuffle off when he has nothing in life left for him. When I get so that there is nothing left in life for me, I think that is what I shall do.

over to his sister, who took him home with her. When asked later if he thought suicide justifiable, Magistrate Wentworth said:

"That is not the question. I believe in suicide. That is all.

Other magistrates have been lenient in punishing persons who, after attempting to take their lives, have manifested regret, but Magistrate Wentworth is the first one to excuse the act | it. She had two female friends, middle and to declare that the right to end aged. It is safe to say they had never life rests with the individual. Attempted suicide is a misdemeanor under law in New York state.

THE WITCH VILLAGE.

A Name That Keeps the Memory of Three Old Women Fresh. Possibly Hexenshded'l, Pa., is the

only settlement in the United States that has for its name "witch village," for that is the meaning of the Pennsylvania German word Hexenshded'l. The village is a century old, and the practices which gave it its name are nearly as old. A man 92 years of age, a former little carbolic acid and turned on the resident of the neighborhood, gave this

"It must have been 75 years ago," he said, "when we young men heard of a politician who came down from Lebanon to consult a woman on the mountain side as to whether he was going to be elected. The old woman told cide, and I think every one has a right her visitor that he would win, but would die before he was in office three moons, and as true as I live it came to

"Most people are too young to re The magistrate then turned the boy member that. That old woman was then 70 years of age. She wandered all over South mountain. She had a dead cheek-that is to say, she had a mark that was said to be the print of a witch below her left eye. Wherever a witch touches the flesh dies. She said she received her mark on the night she became a witch, and ever thereafter she. too, had the power of putting a blight upon living flesh wherever she touched read or even heard of Shakespeare, but when together on the hill in the moonlight, with their canes and hoods, they resembled for all the world the three witches in 'Macbeth.' These women knew the Bible from end to end-that is to say, everything in the Old and the New Testament that in any way related to the black art. People were afraid of her and her companions. They were glad enough to let them alone, just so placed upon them. Why, I well remembered a spell placed on a girl for 21 months. All that time she could not get out of a chair. Finally the father of the girl came down from the mounes at a spring. He determined to face her. She was dipping water into a wash boiler, and he volunteered to carry the boiler down the hill to her hut, which has long since crumbled into ruins. She accepted his offer. When they reached her door, she laughed in an unearthly manner, made a couple of signs by swinging her arms and exclaimed. 'She's well again.' When the man reached home, his daughter and the whole family were singing a hymn, for the girl was well and strong as usual

stories told in olden times. IT the w dows in the hamlet rattled at night when there was no wind, the people believed the witches were abroad. If one farmer's corn disappeared from his crib and was found scattered over the fields of a neighbor, it was the work of the witches. I can well remember when a farmer made affidavit that half his well filled haymow had been spirited away at night, and the farmer who discovered it in his wagon shed the next day was kind enough to haul it back where it belonged. No. it was not stolen, depend on that. My own grandmother declared to me that her bake oven was so bewitched at one time that no fire would burn in it. She sent word to one of the witches on the hillside that if the spell was not removed the hags would have to quit the neighborhood. That night the family heard an unearthly yell. Looking out of the window on the moonlit snow scene, they could see nothing. The next bake day that oven was

United States Wheat In Spain. Theodore Mertens, in charge of the United States consular agency at Va-

lencia, writes as follows:

"The great demand for wheat in this country and the present low price of this article in the United States offer a rare opportunity to our grain exporting merchants to sell large quantities to Spain until her own crops are ready for market. A steamer cargo of 4,000 tons of red winter wheat has just arrived here from New York, which has proved satisfactory, and importers are willing to receive more during the winter or spring. The price seems to compare favorably with that of Russian wheat (the kind generally imported here when there is a demand for foreign wheat), although American wheat pays 20 per cent higher duties than grain from countries which have a commercial treaty with Spain. This is the first direct shipment from the United States to this port since the war."

It Is Not Forgotten by Company E Soldiers.

THREE LOTS WERE RECEIVED

The First Was Buried as Being Unfit For Use, Some of the Second Was Eaten and the Third Was Not Altogether Good, Only a Memory Now.

The announcement in the NEWS RE-WIEW of last evening that an officer of the Eighth Ohio had stated that beef many years old had been issued to the regiment while it was in Cuba, recalled some things to members of Company

Among those who are in position to talk of the matter is F. L. Trump, commissary sergeant. He recalls many things in connection with the rations received by the company.

"We received three consignments of beef while in Cuba," he said, "all of which was more or less tainted. The first lot was so rotten that we were compelled to throw it away, and a good many dollars worth of the stuff was buried below Camp Lookout. The boys could not eat it, and it was quickly disposed of. The next lot did not seem so had and a part of it was eaten, but it was by no means what it should have been. Soon afterwards dysentery appeared in camp, and everybody who followed the fortunes of the regiment in Cuba knows the rests. The last shipment was received while we were at Santiago and was an improvement over the others but by no means good. Some of it was spoiled and unfit for use. The boys traded cans to the Cubans for almost anything they could get, yet it constituted the greater part of their ration.

"There may be something in this can story for the packages in which the beef was sent us were tin cans, old and rusty. They had the appearance of having seen service for a long time, and were by no means the bright, attractive appearing tins put on the market here. I don't know how old they were. but the meat they contained was certainly too old for soldiers' use."

Gallant Deeds of Officers In Advanced Years.

THE LATE GENERAL G. S. GREENE.

His Case Was but One of Many In the United States Army-Generals of Threescore Years In the Mexiean, Civil and Spanish Wars.

General George Sears Greene, who died at Morristown, N. J., recently, in his ninety-eighth year, belonged distinetly to a bygone era. While many of his contemporaries on the Virginia and Tennessee battlefields have been actively campaigning from 1865 up to the present day, this representative of the old army and of the armies of 1861 was sompelled by age to put away the sword more than a generation ago When he waved it in front of his thin but intrepid line on Culp's hill, Gettysburg, in 1863, he was 62 years old, or

Strange as it may seem to readers unfamiliar with the subject, the case of in the annals of the American soldier. The present commanding general of the United States army, Nelson A. Miles, fought his first battle almost 38 of the more distinguished survivors of the civil war now in harness. Brooke, Henry will reach the age limit ahead of Miles. Lee and Wilson are his seniors, and so is Wheeler, who is a marvel of activity at 62. When the army was marshaled for the war against Spain,

Threescore years or an age approaching it is a common one for American leaders. When Winfield Scott stood upon the dome of the castle of Chapulte pec, directing his battalions in the attack on the City of Mexico, he could look back 34 years to the day of his first battle wound. And General Zachary Taylor, who initiated the Mexican war with all the fiery ardor of youth, was 62 when he crossed the Rio Grande at the head of the American army, marching to Buena Vista and Monterey. And it was only last year that all the world applauded the spectacle of Dewey, in his sixty-first year, smashing Spanish sovereignty in the Philippines, but he was simply bringing to fruit, late in life, lessons that he had himself learned Statement of back in the sixties, sailing under Farragut, then a veteran of more than A larger number of tramps than usual threescore, having a record of almost

It is interesting to contrast the ages of the distinguished leaders in the civil war. Gray hairs were on the side of the Confederates in those commanders who fought brilliant campaigns. When the conflict began, Grant was 39; Burnside, 37; McClellan, 35; Sherman, 40 Meade, 46; Hcoker, 46; Thomas, 45 Rosecrans, 42: Buell, 43: Sheridan, 30. Of the foremost southerners Lee was 54; A. Sidney Johnston, 58; Joseph E. Johnston, 54; Stonewall Jackson, 37; Longstreet, 40; Beauregard, 44; Bragg, 46; Hood, 31; A. P. Hill, 36; J. E. B. Stuart, 28; Forrest, 40. Gallant Deeds of Officers In Advanced Years.

THE LATE GENERAL G. S. GREENE.

His Case Was but One of Many In the United States Army-Generals of Threescore Years In the Mexican, Civil and Spanish Wars.

General George Sears Greene, who died at Morristown, N. J., recently, in his ninety-eighth year, belonged distinctly to a bygone era. While many of his contemporaries on the Virginia and Tennessee battlefields have been actively campaigning from 1865 up to the sompelled by age to put away the sword more than a generation ago army officers.

Strange as it may seem to readers un-Miles. Lee and Wilson are his seniors, | been told. and so is Wheeler, who is a marvel of activity at 62. When the army was marshaled for the war against Spain, all the major generals of the line, except Wade, and not fewer than 100 subordinate officers were older than

Threescore years or an age approaching it is a common one for American leaders. When Winfield Scott stood upon the dome of the castle of Chapultepec, directing his battalions in the attack on the City of Mexico, he could look back 34 years to the day of his first battle wound. And General Zachary Taylor, who initiated the Mexican war with all the fiery ardor of youth, was 62 when he crossed the Rio Grande at the head of the American army, marching to Buena Vista and Monterey. And it was only last year that all the world applauded the spectacle of Dewey, in of suicide. his sixty-first year, smashing Spanish sovereignty in the Philippines, but he was simply bringing to fruit, late in life, lessons that he had himself learned back in the sixties, sailing under Farragut, then a veteran of more than A larger number of tramps than usual threescore, having a record of almost 50 years of active warfare behind him.

It is interesting to contrast the ages of the distinguished leaders in the civil his own. Confederates in those commanders who fought brilliant campaigns. When the conflict began, Grant was 39; Burnside, 37; McClellan, 35; Sherman, 40; "Going to Scio," was the prompt Meade, 46; Hcoker, 46; Thomas, 45; Rosecrans, 42; Buell, 43; Sheridan, 30. Of the foremost southerners Lee was 54; A. Sidney Johnston, 58; Joseph E. Johnston, 54; Stonewall Jackson, 37; Longstreet, 40; Beauregard, 44; Bragg, 46; Hood, 31; A. P. Hill, 36; J. E. B. Stuart, 28; Forrest, 40. The crime of His pockets were stuffed with what being a young man was not lightly it was held that Sheridan was too youthful to be appointed colonel of a cavalry regiment when he was 31. Women's \$3 shoes, choice of Miles received the same sort of rebuff at the Boston statehouse when he asked to be commissioned captain of a hundred patriots who had elected him their leader at the age of 21. Young men were coming to the front in 1865 because of the immense armies in the field and the lack of trained old heads to take the lead. For that reason the highest battlefield valor has been associated We, the undersigned, have known F. with names like Sheridan, Stuart, Custer, Kilpatrick, Wilson, the fiery Cleburne and John B. Gordon, who were all under the average age for commissioned officers as it stood in the last year of the war.

But long before that the gray locks of fighting warriors had been conspicuous on scores of bloody battlefields and the bullets of Yankee and Confederate spared them not. General Leonidas Polk, the ex-bishop, known as the Surpliced Warrior of the South, was killed in the defense of Atlanta at the age of 58; Mansfield, in his sixtieth year, fell at Antietam while deploying his army corps, regiment by regiment, for a was 57 when he leaped his horse over the Confederate works at the battle of enemy's lines. But the cldest hero of and gymnasium are well attended every of the Potomac when he was 66 years with which we look at them." on account of his fiery ardor in battle. Old Bull of the Woods, had reference We are selling our men's \$5 to his impetuosity when the hour came

That Dewey had many gray haired compeers in the battles against Spain is shown by the long list of veterans who made history for the army at Santiago. First to fall was Colonel Wikoff, a soldier who had held a commission in the regular establishment for more than 37 years. By Wikoff's side almost when

killed was the second in command of the First brigade, Colonel Worth, with nearly 40 years of service to his credit Worth fell within a few feet of his dead chief. Next in rank came Lieutenant Colonel Liscum, who at that moment was climbing the rough hillside at the head of his negro regiment. That young staff officer. Charles E. Tayman. mentioned in the official reports as the breathless messenger sent by Colonel Kent to summon the Seventy-first to the front, owed his breathlessness to a race after Liscum to tell him that the command of the brigade devolved upon him. Liscum was 58 and hadn't much the start of Tayman at the bank of the river, but the youngster nearly gave out before he could deliver the message Almost instantly the old man disappeared in the tall grass, wounded, but gray hairs were still in evidence on that part of the field. Major Ellis and Major present day, this representative of the Auman of the Thirteenth, charging old army and of the armies of 1861 was abreast of Liscum's colored troops, were war veterans hard crowding threescore. They went down before San Juan block-When he waved it in front of his thin house was reached. Then Colonel Ewers but intrepid line on Culp's hill, Gettys- of the Ninth, a graybeard who had burg, in 1863, he was 62 years old, or fought in that regiment under Grant within two years of the retiring age for as far back as 1862, took command of the victorious line.

Meanwhile, just to the right of Wifamiliar with the subject, the case of koff's brigade, Hawkins, a soldier who General Greene is but one of many began his career in 1852, was leading in the annals of the American soldier. on the Sixth and Sixteenth, under Eg-The present commanding general of bert and Theaker, graybeards who the United States army, Nelson A. were to fall outside the breastworks. Miles, fought his first battle almost 38 Hawkins crossed the trenches and was years ago, but he is today the youngest shot the next day while repelling the of the more distinguished survivors of | Spanish counter assault. Next to Hawthe civil war now in harness. Brooke, kins Wheeler was the oldest man on Merritt, Shafter, Merriam, Otis and the firing line, and how valiantly he Henry will reach the age limit ahead of battled until the victory was won has

It should be noted that with one exception every regiment, battalion and squadron of the regulars engaged at San Juan went into action led by a veteran of 1861, and the ten generals and field officers who were victims of Spanish bullets in that battle were close to 60, while some, notably Hawkins, had passed the threescore mark by a couple of years. -New York Sun.

#### HE UPHELD SUICIDE.

A New York Magistrate Who Thinks Self Destruction Is Justifiable.

When a 16-year-old boy charged with attempting to take his own life was arraigned before Magistrate Wentworth in New York recently, the magistrate startled the court attendants and few spectators by declaring himself in favor

Policemen, clerks and court habitues were looking for the usual lecture on the enormity of the offense and were unprepared for the radical announce ment that came from the bench.

Congratulations were extended afterward to the prisoner on his good fortune in being haled before a judge whose views of life and death were similar to

war. Gray hairs were on the side of the Matthew Mohr, who has been in this another. He became despondent and decided to kill himself. He went to a hotel and, after writing a note saying he had nothing to live for, swallowed a gas. A chambermaid noticed the odor of escaping gas, and the young man was pumped out at the hospital.

When he was arraigned in court, his sister and her husband made a plea for clemency. Magistrate Wentworth said:

"This is a sad case. I believe in suicide, and I think every one has a right to shuffle off when he has nothing in life left for him. When I get so that there is nothing left in life for me, I | pass. think that is what I shall do."

The magistrate then turned the boy over to his sister, who took him home with her. When asked later if he thought suicide justifiable, Magistrate Wentworth said:

"That is not the question. I believe in suicide. That is all."

Other magistrates have been lenient in punishing persons who, after attempting to take their lives, have manifested regret, but Magistrate Wentlife rests with the individual. Attempted suicide is a misdemeanor under law in New York state.

The Old Fashioned Snowstorm. "We call this," said the middle aged man as he stood looking out at the heavily falling snow, "an old fashioned snowstorm, as though the run of snowstorms we have nowadays were small. grand charge, and General Wadsworth puny affairs compared with what we used to have when we were young. But I reckon that when our children have the Wilderness and fell dead within the grown up they will think and say just the same thing. #### THE WITCH VILLAGE.

A Name That Keeps the Memory of Three Old Women Fresh.

Possibly Hexenshded'l, Pa., is the country only a short time, and had only settlement in the United States been apprenticed to a Brooklyn baker, that has for its name "witch village," lost his place and was unable to find for that is the meaning of the Pennsylvania German word Hexenshded'l. The village is a century old, and the practices which gave it its name are nearly as old. A man 92 years of age, a former little carbolic acid and turned on the resident of the neighborhood, gave this version of the origin of the name

"It must have been 75 years ago," he said, "when we young men heard of a politician who came down from Lebanon to consult a woman on the mountain side as to whether he was going to be elected. The old woman told her visitor that he would win, but would die before he was in office three moons, and as true as I live it came to

"Most people are too young to re member that. That old woman was then 70 years of age. She wandered all over South mountain. She had a dead cheek—that is to say, she had a mark that was said to be the print of a witch below her left eye. Wherever a witch touches the flesh dies. She said she received her mark on the night she became a witch, and ever thereafter she, too, had the power of putting a blight upon living flesh wherever she touched worth is the first one to excuse the act | it. She had two female friends, middle and to declare that the right to end aged. It is safe to say they had never read or even heard of Shakespeare, but when together on the hill in the moonlight, with their canes and hoods, they resembled for all the world the three witches in 'Macbeth.' These women knew the Bible from end to end-that is to say, everything in the Old and the New Testament that in any way related to the black art. People were afraid of her and her companions. They were glad enough to let them alone, just so they'd be let alone and not have a spell placed upon them. Why, I well remembered a spell placed on a girl for 21 months. All that time she could not get out of a chair. Finally the father of the girl came down from the mountain one day and met one of the witches at a spring. He determined to face her. She was dipping water into a wash boiler, and he volunteered to carry the boiler down the hill to her hut, which has long since crumbled into ruins. She accepted his offer. When they reached her door, she laughed in an unearthly manner, made a couple of signs by swinging her arms and exclaimed. 'She's well again.' When the man reached home, his daughter and the whole family were singing a hymn, for the girl was well and strong as usual

That was only one of the very many

stories told in olden times. IT the win dows in the hamlet rattled at night when there was no wind, the people believed the witches were abroad. If one farmer's corn disappeared from his crib and was found scattered over the fields of a neighbor, it was the work of the witches. I can well remember when a farmer made affidavit that half his well filled haymow had been spirited away at night, and the farmer who discovered it in his wagon shed the next day was kind enough to haul it back where it belonged. No. it was not stolen, depend on that. My own grandmother declared to me that her bake oven was so bewitched at one time that no fire would burn in it. She sent word to one of the witches on the hillside that if the spell was not removed the hags would have to quit the neighborhood. That night the family heard an unearthly yell. Looking out of the window on the moonlit snow scene, they could see nothing. The next bake day that oven was all right.

United States Wheat In Spain.

Theodore Mertens, in charge of the United States consular agency at Valencia, writes as follows

"The great demand for wheat in this country and the present low price of this article in the United States offer a rare opportunity to our grain exporting merchants to sell large quantities to Spain until her own crops are ready for market. A steamer cargo of 4,000 tons of red winter wheat has just arrived here from New York, which has proved satisfactory, and importers are willing to receive more during the winter or spring. The price seems to compare favorably with that of Russian wheat (the kind generally imported here when there is a demand for foreign wheat), although American wheat pays 20 per cent higher duties than grain from countries which have a commercial treaty with Spain. This is the first direct shipment from the United States to this port since the war."

#### A Manila Attraction.

Merpool, O., postoffice.] TERMS OF SUBSCRIPTION: (Postage free in United States and Canada.) 

sy the Week ..... MAST LIVERPOOL, O., SATURDAY, FEB. 25.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

DIRTY streets are never a good recommendation for a town, and the streets of this town are at present far from clean.

THE people have an opportunity to have good government during the next two years. It only needs the election of the right kind of men to council next April.

COLONEL BRYAN continues to talk, but for some reason even his friends do not hang on his words as they did a few years ago. If not quite gone there is no denying that he is losing his grip.

SENATOR HOAR and his friends have brought down upon their heads the condemnation of loyal Republicans everywhere. If they had any ground upon which to stand they might claim indalgence, but to the present they have shown no good cause for their bitter words and questionable arguments.

North and south have decided to bury all differences under the flowers which cover the graves of blue and gray, but the south cannot expect the north to accept this practice of dis franchising negoes without a protest. It is a matter of too far reaching influepoe, to be passed without the most seyere condemnation.

#### THE CROCKERY TRADE.

It is gratifying to know that without regard to the American Potteries company or its future, the demand for East Liverpool ware continues strong Orders are abundant, and the potteries in operation have all they can do. Trade has seldom been better, and the amount of ware shipped from the city is constantly increasing. It is pleasant intelligence because it means that trust or no trust the western potteries are holding their own against all competition again. and are selling more crockery than ever. That, of course, means prosperity for East Liverpool and ultimately extension of the industry that has made it famous

## SECRETARY ALGER.

resign come from the men who bell are most anxious to see him step down and out, but he does not seem to be made of that sort of material. Perhaps cease to become a public official, but he boards at the Grand Opera House all cry against him, but he has borne it all with a packed house. The opening play very well, and at present there seems to be no indication that he will not stick to his post to the end.

#### Placing Machinery.

The bed plate of the new engine at the ice plant and half of the fly wheel were placed in position yesterday. The bed plate weighs 12 tons, while the fly wheel weighs 15 tons. It will be several days before the improvements are entirely completed.

The Book Committee Will Wind Up Its Affairs.

SUPT. RAYMAN IS AT WORK

Progress Was Made at the Meeting Last Night, But In Order to Have the Books Placed In the Library Very Soon Another Plan Was Adopted

It is expected that the committee appointed to select books for the public library will have its work completed this place were, Volunter, Acorn, J. next Monday evening.

in the office of Superintendent Rayman at Central school last night, and some progress made. It was decided, however, to adopt another and what believed will prove a more rapid method of transacting the business on hand. Mr. Rayman was empowered to select the required number of books and report the list at a meeting to be held in his office Monday. committee then adjourned.

Mr. Rayman is hard at work today and hopes to have the list complete at the appointed time. His selection are of fiction, economics, history, poetry, science, general literature and juvenile literature. A number of reference books will also be included.

The library directors met last evening, but transacted no business of importance beyond paying a few bills.

ONLY AN ICICLE,

But It Made a Business Man Very Nervous.

Several months ago one of the most popular and best known business men of the city found that someone was stealing his chickens. He purchased the best lock he could buy and put it on the coop, but it proved no barrier. At length he decided to take a personal part in the game, and, stretching a wire from the door of the coop to the house, fastened the end to the sensitive trigger of a bell in such manner that tightening of the wire would cause the bell to sound.

One night the bell rang out its alarm, and the young man sprang from his bed, hastily pulled on trousers and slippers, and catching up his revolver ran to a window where he could command a good view of the coop. Then he waited. There were no more alarms, and all seemed quiet at the coop. When he was beginning to grow restless and to shiver, a streak shot down almost before his eyes and the bell sounded

It is not recorded that he swore, but he quickly kicked off his slippers, put aside his revolver, removed his trousers and went to bed the most disgusted man in town. The wire passed under the eaves, and it having commenced to thaw icicles were dropping from the roof, The reports that Secretary Alger is to striking the connection and ringing the

Should the Trust Fail to Materialize.

PROFIT IS ALMOST ALL HERE manufacturers' wholesale prices

Some Surprising Information Brought Out by the Investigation of the Experts. Where New Potteries Will Be Built--Big Advertisement For Liverpool.

"I don't particularly care whether the trust becomes a reality or fails, the fact remains that East Liverpool has been given the greatest advertisement in its history and any benefit arising from this agitation of the past six months will come to the west."

The speaker was a man who is very try and its affairs. Continuing he said :

"Some surprising facts were brought California hollow and run it to Lisbon. out by the accountants who prepared the When this route is finished the surveyors statements for Dos Passos and his will probably survey a route in Jethro friends, and all went to show that hollow. Their work will not be com- money invested in potteries was rather pleted for several weeks, and the route an uncertain quantity, except in the with the slightest grade will probably west. You will probably be surprised to know that 85 per cent of the profit realized was reported from the west, while the east gave the remaining 15 per cent. The bulk of this was from East Liverpool, showing that the manufacturers here can make money where the Trenton fellows would be out of

"You can see what a boon this will be for Liverpool if individual enterprise is to control the industry. The city and the industry has been widely advertised. Men who have money to invest in manufacturing will naturally turn to potting as a safe return for their money. They will, of course, go to the centers, and Liverpool having the best showing will attract the majority. I think it will not be long until we hear from the advertisement in a most substantial manner. You know that old expression about town, 'Trust or no trust, things will come our way.'"

BAST LIVERPOOL, O., SATURDAY, FEB. 25.

Ail Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

DIRTY streets are never a good recommendation for a town, and the streets of this town are at present far from clean.

THE people have an opportunity to have good government during the next two years. It only needs the election of the right kind of men to council next April.

COLONEL BRYAN continues to talk, but for some reason even his friends do not hang on his words as they did a few years ago. If not quite gone there is no denying that he is losing his grip.

SENATOR HOAR and his friends have brought down upon their heads the condemnation of loyal Republicans everywhere. If they had any ground upon which to stand they might claim indulgence, but to the present they have But shown no good cause for their bitter words and questionable arguments.

North and south have decided to bury all differences under the flowers which cover the graves of blue and gray, but the south cannot expect the north to accept this practice of disfranchising negoes without a protest. It is a matter of too far reaching influepon, to be passed without the most se-. : yere condemnation.

THE CROCKERY TRADE.

It is gratifying to know that without regard to the American Potteries company or its future, the demand for East Liverpool ware continues Orders are abundant, and the potteries in operation have all they can do. Trade has seldom been better, and the amount of ware shipped from the city is constantly increasing. It is pleasant intelligence because it means that trust or no trust the western potteries are holding their own against all competition again. and are selling more crockery than ever. That, of course, means prosperity for East Liverpool and ultimately extension of the industry that has made it famous

SECRETARY ALGER.

resign come from the men who bell. are most anxious to see him step down and out, but he does not seem to be made of that sort of material. Perhaps when the storm that has hovered over him for months has passed away he may cease to become a public official, but he cannot afford to resign at this time. He must face the people and maintain his position. To do otherwise would be to run away, and no innocent man can do that and not add to his foes. General Alger may have made many mistakes and there may be some ground for the cry against him, but he has borne it all very well, and at present there seems to be no indication that he will not stick to his post to the end.

Placing Machinery.

The bed plate of the new engine at the ice plant and half of the fly wheel were placed in position yesterday. The bed plate weighs 12 tons, while the fly wheel weighs 15 tons. It will be several days before the improvements are entirely completed.

IS AT WORK

Progress Was Made at the Meeting Las Night, But In Order to Have the Books Placed In the Library Very Soon Another Plan Was Adopted.

It is expected that the committee appointed to select books for the public next Monday evening.

in the office of Superintendent Rayman at Central school last night, and some progress made. It was decided, however, to adopt another and what is believed will prove a more rapid method of transacting the business on hand. Mr. Rayman was empowered to select the required number of books and report the list at a meeting to be held in his office Monday. The committee then adjourned.

Mr. Rayman is hard at work today and hopes to have the list complete at the appointed time. His selection are of fiction, economics, history, poetry, science, general literature and juvenile literature. A number of reference books will also be included.

The library directors met last evening, but transacted no business of importance beyond paying a few bills.

ONLY AN ICICLE,

a Business Man Very It Made Nervous.

Several months ago one of the most popular and best known business men of the city found that someone was stealing his chickens. He purchased the best lock he could buy and put it on the coop, but it proved no barrier. At length he decided to take a personal part in the game, and, stretching a wire from the door of the coop to the house, fastened the end to the sensitive trigger of a bell in such manner that tightening of the wire would cause the bell to sound.

One night the bell rang out its alarm, and the young man sprang from his bed, hastily pulled on trousers and slippers, and catching up his revolver ran to a window where he could command a good view of the coop. Then he waited. There were no more alarms, and all seemed quiet at the coop. When he was beginning to grow restless and to shiver, a streak shot down almost before his eyes and the bell sounded

It is not recorded that he swore, but he quickly kicked off his slippers, put aside his revolver, removed his trousers and went to bed the most disgusted man in town. The wire passed under the eaves, and it having commenced to thaw icicles were dropping from the roof, The reports that Secretary Alger is to striking the connection and ringing the

State of Ohio, Columbiana County, ss I, S. T. Herbert, Secretary of the above-named company, do solemnly swear that the above statement is true, to the best of my knowledge and belief.

S. T. HERBERT,

CORRECT--Attest:
J. M. KELLY,
T. V. MILLIGAN, JR.,
Directors
H. A. KEFFER.

Subscribed and sworn to before me this 1st day of February, 1899. G. Y. TRAVIS,

### Notice of Sale of Real Estate.

IN pursuance of an order of the Probate Court of Columbiana county. Ohio, I will offer for sale, at public auction, on Saturday, the 4th day of March, 1899, at 1 o'clock p. m., upon the premises, the following described real estate: Situated in the city of East Liverpool, county of Columbiana and state of Ohio, and known as and biana and state of Ohio, and known as and being that certain parcel of land near the northwest corner of the southeast quarter of section twenty-four (24), commencing at a post set in the west side of the public road at the southeast corner of a tract of land conveyed by William Dansmore and wife to conveyed by William Densmore and wife to James Densmore, and running thence south eighty-two (82) feet and six (6) inches to a post: thence south eighty-seven and one half (87%) degrees west one hundred and twenty-four feet (124) feet: thence north eighty-two (82) feet and six (6) inches to a post on the east side of a ten-foot alley thence north eighty-seven and one-half (87%) degrees east one hundred and twenty-four degrees east one hundred and twenty-fou

Said property is appraised at eleven hundred and thirty-four dollars (\$1.134.00), and cannot sell for less than two-thirds of said appraisement.

Terms of sale: One-third in hand, one third in one year and one-third in two years from the date of sale, with interest; deferred payments to be secured by mortgage or payments to be secured by mortgage of premises sold.

J. H. BROOKES. Feb. 4, 1899.

Commissioners In Session All of Today.

McGarry Pointed Out the Advantages of Assexation-Some Compromises.

The county commissioners yesterday afternoon in company with Engineer George viewed the territory which proposed to be annexed to the city.

This morning at 10 o'clock they met at city hall for the purpose of hearing the evidence and arguments for and would have to pay. He made a lengthy against annexation. A number of the and strong argument for his client and property owners were present, and they closed by stating that Mr. Fisher would were represented by Attorneys Gross- not derive one benefit from the city and hans and Hill while Councilmen Marshall, Peach and Stewart were also present and Solicitar McGarry looked after the interests of the city.

in going over a plat showing the terris erty and residence of Mr. Fisher, and he tory annexed, while the councilmen and engineer debated the question in the office of Engineer George.

An effort was made to compromise on Columbian park by taking in the race by stating that he thought the line track and leaving out the remainder. should not extend beyond the south line This Attorney Hill refused to accept, of Lisbon road. and Commissioner French stated that the way the board of commissioners felt ject of the city was not to get the adit would be wise for him to accept the ditional taxes. He stated that it was

compromise. Shortly after 10 o'clock Doctor Marshall appeared and stated that council council did not hold that they were gowas ready to proceed, as their last ing to improve to the door of Mr. Fisher proposition in regard to Columbian park had been rejected.

The council practically decided to leave out the Dixson, Dobbs and Lake farms in East End, all of the land west and said the fact that the city had exof Lisbon road and take in but 150 feet pended \$12,000 on the road was an arguof the Anderson farm which lies east of ment in favor of annexing the terri-Calcutta road.

The Columbian park people refused to accept the compromise and it was de- hour for dinner. cided to go on with the original line.

Attorney Grosshans stated that in remise had been effected for the taking in satisfied with the compromise. of 150 feet lying east of Calcutta road, from the northwest corner of Riverview cemetery to Anderson's lane, or present cepted, adding that only eight councilcorporate limits. Then follow line east men wanted annexation because they along the base of the hill along a prop- needed the taxes. erty line between the Anderson and Boyce farms to property of H. R. Hill. the park into the city. Mr. Peach proved. Then cross the road and follow a section line and along this line to Smith's Ferry road near Dry Run. This takes in part of Dixson and Lake farms.

Attorney Hill wanted to know if 150 why was not the same equitable on Pennsylvania avenue.

Commissioner French said they were

that matter was settled.

The property of Alfred Fisher came next. It lies west of the Calcutta road, across from Riverview cemetery, and he thought it should be left out. They heard his story and proceeded to the farm of M. O. Fisher. The statement They Were Disposed of by Mayor Bough was made that it would be well to leave out the cemeteries.

There was a decided kick on this, and the first argument of the day com-

Solicitor McGarry made the statement for the city, and said that counsel for M. O. Fisher would urge that the cemeteries should be left out, but the council was willing to run the risk of them becoming a charge in 50 or 100 years. He said that 18 acres were north of the cemeteries, eight acres of which had been laid off in two and three acre strips and sold at from \$200 to \$300 an acre. The 15 acres upon which the homestead was built was equally valuable while across the road was land lying adjacent to Pleasant Heights upon which had been built several houses of a modern style and the vicinity was well populated.

The solicitor then quoted from a su preme court decision where property was annexed to Toledo when it was separated from the city proper by the Maumee river. The solicitor claimed that Mr. Fisher was enjoying the bene fits of improvement in the city and his property would be made more valuable by the improvements of Lisbon road. upon which \$6,000 would be spent, and some of his land had already sold for \$350 an acre. A Wood Center case was

Attorney Grosshans, representing M. O. Fisher, said he conceded the right of the commissioners to take in the termtory but whether it was the proper thing to do was the question. He argued that it would be of no benefit to Mr. Fisher as the city had nothing to offer him for the 12 mills additional taxes he

On the other hand, it is notable with what unanimity the real authorities commend Royal Baking Powder as the superior of all others in wholesomeness and purity.

the only thing the city desired was to collect 32 mills instead of that which he now pays. He said another reason the city wanted the 18 acres was The commissioners spent some time because it included the personal propwas one of the men in Columbiana county who paid taxes on \$10,000 personal property. He also argued that the cemeteries should be left out. He closed

> President Marshall stated that the obnot practicable to leave out one side of road and take in the other, and that at the present time but they thought it best to take in both sides of the road.

> Solicitor McGarry replied to some of the arguments of Attorney Grosshans

The commissioners then adjourned an 2nd.

Solicitor McGarry, at the afternoon session, argued long for the admission gard to the Anderson farm a compro- of Columbian park, as the others were

Attorney Hill thought no land north of Pennsylvania avenue should be ac-

He entered a protest against taking stated he thought the park should be considered, as the stockholders were the most interested in the improvement of Pennsylvania avenue.

The commissioners were in executive feet was equitable on Calcutta road session a short time, and according to their decision the line was so changed as to leave out the house and 10 acres of the land of M.O. Fisher, very glad to accept the compromise, and but no change was made in regard to the property of Alfred Fisher. It also takes in all of Columbian park except a small patch north of the section line.

#### SOME DRUNKS.

Only one man was arrested last night but since yesterday afternoon two men have been placed behind the bars.

During yesterday afternoon Charles Carragher got drunk, and walking to city hall told the mayor he could not keep sober. He thought he would come which he considered unnecessary work. Officer White put him in jail, and when he was brought out this morning he was fined \$9.60, and committed to the workhouse until the amount was paid.

Hiram Bourne was another individual that Officer White gathered in. He, like the former case, was just drunk. He was assessed \$9.60, paid the amount 7:30. and went away happy over the fact that he escaped a greater fine.

Hiram Scott, who was fined \$9.60 yesterday, is still in custody. Mayor Bough stated this morning his chances for paying the amount seemed slim, and it is probable he will go to Stark county before many days.

The belting which Mr. Patterson, of Wellsville, was after yesterday has not been delivered to its owner by the authorities in this city. Mayor Bough stated this morning he knew where the officers could obtain the goods when ever they were wanted. It is probable no arrests will be made. When asked why the belting was given the boys when they were released the mayor

The police officers have been on duty all night during most of the week. None of them will say what they are after, but it is evident some big game will be bagged before many days.

Trouble.

Commissioners In Session All of Today.

Who Are Opposed to Their Property Besoming a Part of the City, While Solicitor McGarry Pointed Out the Advantages of Assexation-Some Compromises.

The county commissioners yesterday afternoon in company with Engineer George viewed the territory which proposed to be annexed to the city.

This morning at 10 o'clock they met at city hall for the purpose of hearing the evidence and arguments for and against annexation. A number of the property owners were present, and they were represented by Attorneys Grosshans and Hill while Councilmen Marshall, Peach and Stewart were also present and Solicitar McGarry looked after the interests of the city.

The commissioners spent some time in going over a plat showing the territory annexed, while the councilmen and engineer debated the question in the office of Engineer George.

An effort was made to compromise on Columbian park by taking in the race track and leaving out the remainder. This Attorney Hill refused to accept, and Commissioner French stated that the way the board of commissioners felt it would be wise for him to accept the compromise.

Shortly after 10 o'clock Doctor Marshall appeared and stated that council was ready to proceed, as their last ing to improve to the door of Mr. Fisher proposition in regard to Columbian park had been rejected.

The council practically decided to leave out the Dixson, Dobbs and Lake farms in East End, all of the land west of Lisbon road and take in but 150 feet Calcutta road.

The Columbian park people refused to accept the compromise and it was decided to go on with the original line.

Attorney Grosshans stated that in regard to the Anderson farm a compromise had been effected for the taking in satisfied with the compromise. of 150 feet lying east of Calcutta road, along the base of the hill along a property line between the Anderson and Boyce farms to property of H. R. Hill. Then cross the road and follow a section line and along this line to Smith's Ferry road near Dry Run. This takes in part of Dixson and Lake farms.

Attorney Hill wanted to know if 150 feet was equitable on Calcutta road session a short time, and according why was not the same equitable on Pennsylvania avenue.

that matter was settled.

The property of Alfred Fisher came next. It lies west of the Calcutta road, across from Riverview cemetery, and he thought it should be left out. They heard his story and proceeded to the farm of M. O. Fisher. The statement was made that it would be well to leave out the cemeteries.

There was a decided kick on this, and the first argument of the day commenced.

Solicitor McGarry made the statement for the city, and said that counsel for M. O. Fisher would urge that the cemeteries should be left out, but the council was willing to run the risk of them becoming a charge in 50 or 100 years. He said that 18 acres were north of the cemeteries, eight acres of which had been laid off in two and three acre strips and sold at from \$200 to \$300 an acre. The 15 acres upon which the homestead was built was equally valuable while across the road was land lying adjacent to Pleasant Heights upon which had been built several houses of a modern style and the vicinity was well populated.

The solicitor then quoted from a su preme court decision where property was annexed to Toledo when it was separated from the city proper by the Maumee river. The solicitor claimed that Mr. Fisher was enjoying the bene fits of improvement in the city and his property would be made more valuable by the improvements of Lisbon road. apon which \$6,000 would be spent, and some of his land had already sold for \$350 an acre. A Wood Center case was cited.

Attorney Grosshans, representing M. O. Fisher, said he conceded the right of the commissioners to take in the territory but whether it was the proper thing to do was the question. He argued that it would be of no benefit to Mr. Fisher as the city had nothing to offer him for the 12 mills additional taxes he

Commissioners In Session All of Today.

Who Are Opposed to Their Property Besoming a Part of the City, While Solicitor McGarry Pointed Out the Advantages of Assexation-Some Compromises.

The county commissioners yesterday afternoon in company with Engineer George viewed the territory which proposed to be annexed to the city.

This morning at 10 o'clock they met at city hall for the purpose of hearing the evidence and arguments for and against annexation. A number of the property owners were present, and they were represented by Attorneys Grosshans and Hill while Councilmen Marshall, Peach and Stewart were also present and Solicitar McGarry looked after the interests of the city.

The commissioners spent some time to going over a plat showing the terris tory annexed, while the councilmen and engineer debated the question in the office of Engineer George.

An effort was made to compromise on Columbian park by taking in the race track and leaving out the remainder. This Attorney Hill refused to accept, and Commissioner French stated that the way the board of commissioners felt it would be wise for him to accept the

Shortly after 10 o'clock Doctor Marshall appeared and stated that council was ready to proceed, as their last proposition in regard to Columbian park at the present time but they thought it had been rejected.

The council practically decided to leave out the Dixson, Dobbs and Lake farms in East End, all of the land west of Lisbon road and take in but 150 feet of the Anderson farm which lies east of Calcutta road.

The Columbian park people refused to accept the compromise and it was decided to go on with the original line.

Attorney Grosshans stated that in regard to the Anderson farm a compromise had been effected for the taking in of 150 feet lying east of Calcutta road. from the northwest corner of Riverview cemetery to Anderson's lane, or present corporate limits. Then follow line east along the base of the hill along a property line between the Anderson and Then cross the road and follow a section line and along this line to Smith's Ferry road near Dry Run. This takes in part of Dixson and Lake farms.

Attorney Hill wanted to know if 150 feet was equitable on Calcutta road session a short time, and according his son, Dr. A. B. Holland. why was not the same equitable on Pennsylvania avenue.

Commissioner French said they were very glad to accept the compromise, and that matter was settled.

The property of Alfred Fisher came next. It lies west of the Calcutta road, across from Riverview cemetery, and he thought it should be left out. They heard his story and proceeded to the farm of M. O. Fisher. The statement They Were Disposed of by Mayor Bough was made that it would be well to leave out the cemeteries.

There was a decided kick on this, and the first argument of the day com.

menced. Solicitor McGarry made the statement for the city, and said that counsel for M. O. Fisher would urge that the cemeteries should be left out, but the council was willing to run the risk of them becoming a charge in 50 or 100 years. He said that 18 acres were north of the cemeteries, eight acres of which had been laid off in two and three acre strips and sold at from \$200 to \$300 an acre. The 15 acres upon which the homestead was built was equally valuable while across the road was land lying adjacent to Pleasant Heights upon which had been built several houses of a modern style and the

vicinity was well populated. The solicitor then quoted from a su. preme court decision where property was annexed to Toledo when it was separated from the city proper by the Maumee river. The solicitor claimed that Mr. Fisher was enjoying the bene fits of improvement in the city and his property would be made more valuable by the improvements of Lisbon road. upon which \$6,000 would be spent, and \$350 an acre. A Wood Center case was no arrests will be made. When asked

cited. Attorney Grosshans, representing M. O. Fisher, said he conceded the right of the commissioners to take in the territory but whether it was the proper thing to do was the question. He argued that it would be of no benefit to Mr. Fisher as the city had nothing to offer him for the 12 mills additional taxes he

It is singular that any person will take the word of an irresponsible traveling agent or canvasser for some unknown baking powder, as against the scientific reports of eminent chemists and medical authorities. The Is Causing no Small Amount of ATTORNEYS ARGUE FOR CLIENTS canvasser has no actual knowiedge of the subject, and simply commits to memory a plausible argument concocted by the parties most interested. On the other hand, it is notable with what unanimity the real authorities commend Royal Baking Powder as the superior of all others in wholesomeness and purity.

> would have to pay. He made a lengthy and strong argument for his client and closed by stating that Mr. Fisher would not derive one benefit from the city and the only thing the city desired was to collect 32 mills instead of that which he now pays. He said another reason the city wanted the 18 acres was because it included the personal property and residence of Mr. Fisher, and he was one of the men in Columbiana county who paid taxes on \$10,000 personal property. He also argued that the cemeteries should be left out. He closed by stating that he thought the line should not extend beyond the south line of Lisbon road.

President Marshall stated that the object of the city was not to get the additional taxes. He stated that it was not practicable to leave out one side of road and take in the other, and that council did not hold that they were going to improve to the door of Mr. Fisher best to take in both sides of the road.

Solicitor McGarry replied to some of the arguments of Attorney Grosshans and said the fact that the city had expended \$12,000 on the road was an argument in favor of annexing the territorv.

The commissioners then adjourned an 2nd. hour for dinner.

of Columbian park, as the others were evening. satisfied with the compromise.

Attorney Hill thought no land north of Pennsylvania avenue should be accepted, adding that only eight councilmen wanted annexation because they needed the taxes.

Boyce farms to property of H. R. Hill. the park into the city. Mr. Peach proved. stated he thought the park should be considered, as the stockholders were the most interested in the improvement of Pennsylvania avenue.

The commissioners were in executive to their decision the line was so changed as to leave out the house and 10 acres of the land of M.O. Fisher, but no change was made in regard to the property of Alfred Fisher. It also takes in all of Columbian park except a small patch north of the section line.

#### SOME DRUNKS.

Today.

Only one man was arrested last night but since yesterday afternoon two men have been placed behind the bars.

During yesterday afternoon Charles Carragher got drunk, and walking to city hall told the mayor he could not keep sober. He thought he would come down instead of bringing out the patrol which he considered unnecessary work. Officer White put him in jail, and when he was brought out this morning he was fined \$9.60, and committed to the workhouse until the amount was paid.

Hiram Bourne was another individual that Officer White gathered in. He, Christian Endeavor at 6:30 p. m. Goslike the former case, was just drunk. He was assessed \$9.60, paid the amount 7:30 and went away happy over the fact that he escaped a greater fine.

Hiram Scott, who was fined \$9.60 yesterday, is still in custody. Mayor Bough stated this morning his chances for paying the amount seemed slim, and it is probable he will go to Stark county before many days.

The belting which Mr. Patterson, of Wellsville, was after yesterday has not authorities in this city. Mayor Bough stated this morning he knew where the officers could obtain the goods when why the belting was given the boys when they were released the mayor stated he did so because they said it was

## WELLSVILLE.

Trouble.

RIGHT OF WAY IS NOT CLEAR

Although the General Belief Was That There Would Be no Expressed Dissatisfaction-Water Trustees Deny Authority. All the News.

Things are in a very unsettled state in regard to the extension of the new water mains from Eighteenth street to the United States pottery. At a recent meeting of the water works trustees the route as laid out by them was shown to pass over the ground belonging to Clark & Michaels. The extension from Main street along the railroad, while in actual use as a public thoroughfare by all of the parties whose homes border on the railroad, is owned by these gentlemen. It seems that a certain opening of Twentieth street is considered a very desirable thing, and a compromise was offered to the trustees by which, in return for the right of way through this extension of Main street, this opening should be made to Twentieth street.

The trustees say they have no power, that council alone has that in their for the signature of Clark & Michaels People's meeting. remained unsigned up till noon today. Whether a meeting of council for next Monday night will be called to assist in J. R. Greene. the settlement of the vexed question is still uncertain.

#### HOW HE WON HIS SPURS

General Otis' Rise From a Private to His Present Position.

A SOLDIER AND A GENTLEMAN.

The Personal Story of the Man Who Has Led Our Flag to Victory In the Philippines-He Is Both Courageous and Tactful.

ord as an officer dates from September. praise. 1862, when he was commissioned as a tieth New York infantry.

born in Maryland, he was trained as a the satisfaction he experienced in havlawyer and practiced in the courts of ing under him so capable an officer. New York city in the earliest years of That his feeling was shared by the adhis manhood. When the second call ministration is shown by the words of was made for troops, he sacrificed a President McKinley. When the first lucrative profession and at the age of 24 official news came of the attack upon took up with an eagerness and an ardor | the American forces, the chief executive that have never failed him the career of is reported to have said to Secretary a soldier, whose earliest baptism of fire | Long of the navy was had in the hottest battles of the

services with the celebrated Fifth corps | nila than we can be, 7,000 miles away. of the Army of the Potomac. He participated in all the general engagements of that army from 1862 to 1864, commanding at one time its regular brigade during the operations against Petersburg, Va., and later during the untiring work these soldiers were called upon to exert near the Weldon railroad.

On Oct. 1, 1864, he was severely wounded and placed upon sick leave. and for months he was an invalid, whose sufferings were intensified by the fact that he could not be at that front of action where he always desired to go Indeed, for years insomnia afflicted him as the result of this wound, and it is marvelous how much he accomplished. despite the sufferings he endured.

The shot was received at Weldon Road, Va., the ball entering his face to the left of the nose and passing out just | cans. back of the ear. The wound has never fully healed, and yet, despite its rack- part: ings, he is ever the patient and courteous soldier, ever the hard working, persistent man of affairs.

Because of this physical incapacity for the field he was honorably mustered out in January. 1865, and received new brevets for gallant and meritorious services at Spottsylvania and at Chapel House, Va., his higher brevet of brigadier general of volunteers dating from July 28, 1866.

fession of arms, and his reputation as travagancies. a cool and skilled and persistent officer was so great that on the reorganization of the army he was appointed lieutenant colonel of the Twenty-second United States infantry, one of the best of the new regiments ordered for the regular establishment.

He took up the new work valorously. He became an untiring student of military affairs, and in turn was hailed as war. Nearly all his work from 1866 until he was ordered to Manila was done upon the plains, and good, honest soldiering it was. Whether subduing the hostile Indians or dealing with the vexed questions of the new settlers in unprotected regions, he was as brave as he was tactful. He was as gentle in the arts of peace as he was masterful in the practices of war.

He became skilled in frontier warfare, as Sitting Bull, most wily of all Indians, found to his cost and as that boy warrior, Aguinaldo, found the other day when he tried to catch napping this old Indian fighter, skilled in surprises, stratagems and ambuscades.

From 1874 to 1875 he was the inspector general of the department of Dakota, and you may be sure that the regiments of that command learned fast to respect and regard with an affectionate interest this untiring, just and patient officer of infantry.

If he were asked what he considered his best work, he would probably say now, even in the light of his great success oversea, that he was most proud of his organization of the United States Infantry and Cavalry school. In February, 1880, he had attained the coveted rank of colonel. Ever busy, ever earnest in good intentions for the country and particularly for his own branch, he gave all idle hours—and these were few -to the elaboration of a scheme whereby the infantry and cavalry would receive the benefits of modern training and be able at first hand to test the theories of war which concerned the battleships of the land force—the fa mous infantry of our fighting line.

The school was established in 1881 and he remained with it, nursing it in to a healthy growth, until 1885, when he returned to the command of his own regiment

He was remarkable always for on thing, and for this the army honore him. He never had a political "pull. and if he had had one he would no have known how to use it His who idea was to go where he was ordered

to welcome any work, to do exactly as he was told and to instill into all below him the soldierly instincts of prompt obedience, cheerful discipline and constant study of the art of war, so that First Newspaper Published by in the hour of trial they would not be found wanting. How well he succeeded is shown not only in his work around Manila, but in the reputation that the Twentieth infantry achieved

On Nov. 28, 1893, after 31 years service, he was commissioned as a brigadier general the single star coming to him, if it ever did to any man, as the reward of duty well done. The whole army hailed his promotion with General Elwell S. Otis, the military acclaim, and it is symptomatic of the hero of Manila, is a typical soldier who man's rounded nature that, though an has proved his mettle and his work in appointee from civil life, his brother many years of arducus service for the officers who had the good luck to be country. #### POPE'S LETTER PRAISED.

Archbishop Ireland Said the Whole U. S. Episcopate Condemned the Doctrines as Did the Pope.

Rome, Feb. 25.—The Observatore Romano published the text of a letter from Archbishop Ireland to the pope regarding the pontiff's letter to Cardinal Gibbons on "Americanism." The archbishop thanked the pope for this proof of his esteem and love for American Catholics, and says that now that the pope has shed light on isthe tuation misunderstanding will cease, "for we are now able to determine the fault which some desire to conceal under the name of Americanism and define true Americanism, such as understood by Ameri-

Continuing, the archbishop said in

"With all the energy of my heart 1 repudiate all the opinions the apostolic letter repudiates and condemns, those false and dangerous opinions whereto, as his holiness in brief says, certain people give the name of Americanisms.

The whole episcopate of the United States, in their own name and in the name of their flocks, are ready to re- ther. pudiate and condemn them. We cannot be indignant that such wrong is done us, our bishops, our faithful and our nation, as to designate by the name But his heart was wedded to the pro- of Amoricanism such errors and ex-

SUNDAY SCHOOL CELEBRATION.

The American Union Will Hold One In Philadelphia May 25.

PHILADELPHIA, Feb. 25.—The American Sunday School union, whose headquarters are in Philadelphia, will on May 25 celebrate its seventy-fifth anniversary in this city. Morris K. Jessup of New York is the president of the an acknowledged authority in the art of union. A special committee of arrangements has been appointed, consisting of Clarkson Clothier, chairman; W. H. Wanamaker, william G. Stoever and H. C. Gara of Philadelphia and Robert T. B. Easton and John N. Beach of New York, with J. H. Andrews as secretary and Elmer B. Stevenson of Iowa as assistant to the chairman.

The Academy of Music, one of the largest auditoriums of the city, has been secured for the meetings. Men of national influence have been invited to attend the celebration including President McKinley and ex-Presidents Harrison

and Cleveland.

Y. M. C. A. CONVENTION.

Various Papers Read-Sergeant Harry Palmer Spoke at a Meeting.

BUTLER, Pa., Feb. 25.-The convention of the Y. M. C. A. got down to the regular order of business. The devotional services were conducted by S. M. Sayford of Boston, who took as his theme for a snort talk, "Listening to God," reading the scripture lesson from Samuel, chapter iii, and the eighty-fifth Psalm. Various papers were read.

Fully 1,000 people attended the even-

ing services last night. Sergeant Harry Palmer, color bearer of the Tenth, who recently returned from Manila, was introduced and greeted with the Chautauqua salute. The sergeput spoke highly of the work of the Y. M. C. A. at Manila and of the colonel of his regiment, who, he says, is the "greatest soldier on earth."

Said He Would Decline.

PHILADELPHIA, Feb. 25.—Rev. John W. Shanahan, pastor of the Church of Our Lady of Sorrow of this city, who it was announced from the papal delegation at Washington had been appointed bishop of Harrisburg, says he decline the proffered honor. He says he naturally feels complimented, but he positively will not accept, as there are many reasons why he desired to remain in this parish.

#### Partridges Driven Into Barns.

In Morris county, N. J., partridges were driven by the recent heavy storm into barnyards to feed with the chickens. Dead quail and rabbits were scattered on all the clear places in the hills.

## THE AMERICAN SOLDIER.

Our People In Manila

BRIGHT AND NEWSY PUBLICATION.

It is Devoted to the Interest of the Eighth Army Corps and Contains Much Interesting Information From the Philippines.

The American Soldier is the name of the first American newspaper published | Bayard in Manila. It is devoted to the interests of the Eighth army corps and is sold at Ravenna 10 cents a copy, Mexican money. The issue of Dec. 8 thus foreshadows the Wellsville trouble with the insurgents that has just taken place

"A conflict was narrowly averted Dec. 16. A private of the Colorado regiment who attempted to pass the Filipinos' outposts was captured and his rifle was taken away from him. The American lieutenant demanded the immediate return of the soldier's weapon. The Filipinos were for a time disposed to be stubborn and massed 300 men at the point, ready for trouble. The matter was finally settled by the soldier's weapon being returned and the Americans agreeing that no future attempt | Bellaire would be made to enter the Filipinos' lines by soldiers doing outpost duty.

In its account of this trouble The American Soldier says

"The insurgents are certainly closing in around the city A few nights ago the Idaho boys were drilling near the Malate fort They made a bayonet charge down the beach and had hardly got past the old Spanish trenches when the whole thicket became a mass of bugle sounds.

In another article of the same paper is the following

"In case of an outbreak the first move will be the assassination of all the American officers whom it will be possible to get at. But our regiments have a system of street fighting perfected which will give the rebels all the trouble they want. Each regiment has mapped out certain streets to clear and points to retreat and mass. The bugles give the regiments warning of the presence of our troops in adjoining streets. so there is no danger of a mishap.

In the local news are the following

"Corporal Walker came upon a snake of the constrictor species on the Calle de Pallacio. The snake was set upon by a half dozen soldiers and killed. On being measured it was found to be 9 feet 7 inches long and 10 inches around in the largest part, with fangs like a pan-

"The soldier police are working hard to find the murderers of a young bride. The murderers are said to be Maccabebees, a gang of professional murderers, who were hired to kill the young woman by a disappointed rival for her hand. The assassins entered her home while her husband was absent and stabbed her 30 times in the heart. She fell dead crying for the Americanos. A Filipino detective, wearing false whiskers, figures in the case, and other features give it all the blood curdling interest of Time table effective January 16, 1899. Trains crimes which sometimes startle a big city in this country.

There is an account of a raid on a swell Spanish gambling resort:

"Corporal Bill Pelock and Private Wirtensohn went in through the rear door, while Captain Corriston tackled the front entrance. Two Filipino 'cappers' attempted to bar the way of the police, but they were suppressed. The inmates were arrested in spite of the protest of the proprietor, who said he had permission from police headquarters to run the den The gamblers were fined \$50 each.

Some Minnesota soldiers went on a prospecting tour and came back with samples of gold, which are now on exhibition in Manila. The soldiers prospected the San Juan and Monte Blanc mountains, where mountain streams abound The country is occupied by Negritos. who are said to be much above the Filipinos in cleanliness and morality. The prospectors found evidences of gold in all the streams. The natives have wooden "longtoms" with which they manage to wash out about a teaspoonful of gold a day. This they have been selling to the Spaniards for two Mexican dollars, although the gold is worth about \$85 in American money. The prospectors were rapidly trailing the mother lode when they were ordered back by a party of insurgents, who alleged that the prospectors would be murdered by the mountaineers if they went any farther

The Penalty Will Come.

There are many forms of sin in the world. Some are more heinous than others, but all are of the same naturetransgression of the law. Their greatness cannot be told by the immediate injury that follows, for often there appears to be no immediate evil results. But in process of time the penalty will come. "Be sure your sin will find you out."-- Christian Instructor.

#### HOW HE WON HIS SPURS

General Otis' Rise From a Private to His Present Position.

A SOLDIER AND A GENTLEMAN.

The Personal Story of the Man Who Has Led Our Flag to Victory In the Philippines-He Is Both Courageous and Tactful.

General Elwell S. Otis, the military hero of Manila, is a typical soldier who has proved his mettle and his work in many years of arducus service for the country. Beginning as a private in the national gnard, his first military record as an officer dates from September. 1862, when he was commissioned as a captain in the One Hundred and Fortieth New York infantry.

New York state may therefore claim bim as its own, for, though he was born in Maryland, he was trained as a lawyer and practiced in the courts of was made for troops, he sacrificed a lucrative profession and at the age of 24 that have never failed him the career of a soldier, whose earliest baptism of fire | Long of the navy was had in the hottest battles of the civil war.

In a little over a year he was comregiment for gallant and conspicuous services with the celebrated Fifth corps | nila than we can be, 7,000 miles away. of the Army of the Potomac. He participated in all the general engagements of that army from 1862 to 1864, commanding at one time its regular brigade during the operations against Petersburg, Va., and later during the untiring work these soldiers were called upon to exert near the Weldon railroad.

On Oct. 1, 1864, he was severely wounded and placed upon sick leave. and for months he was an invalid. whose sufferings were intensified by the fact that he could not be at that front of action where he always desired to go Indeed, for years insomnia afflicted him as the result of this wound, and it is marvelous how much he accomplished. despite the sufferings he endured.

The shot was received at Weldon Road, Va., the ball entering his face to the left of the nose and passing out just back of the ear. The wound has never fully healed, and yet, despite its rackings, he is ever the patient and courteous soldier, ever the hard working, pereistent man of affairs

Because of this physical incapacity for the field he was honorably mustered out in January, 1865, and received new brevets for gallant and meritorious services at Spottsylvania and at Chapel House, Va., his higher brevet of brigadier general of volunteers dating from July 28, 1800.

But his heart was wedded to the profession of arms, and his reputation as travagancies." a cool and skilled and persistent officer was so great that on the reorganization of the army he was appointed lieutenant colonel of the Twenty-second United States infantry, one of the best of the new regiments ordered for the regular establishment.

He took up the new work valorously. He became an untiring student of military affairs, and in turn was hailed as an acknowledged authority in the art of war. Nearly all his work from 1866 until he was ordered to Manila was done upon the plains, and good, honest soldiering it was. Whether subduing the hostile Indians or dealing with the vexed questions of the new settlers in unprotected regions, he was as brave as he was tactful. He was as gentle in the arts of peace as he was masterful in the practices of war.

He became skilled in frontier warfare, as Sitting Bull, most wily of all Indians, found to his cost and as that boy warrior, Aguinaldo, found the other day when he tried to catch napping this old Indian fighter, skilled in surprises, stratagems and ambuscades.

From 1874 to 1875 he was the inspector general of the department of Dakota, and you may be sure that the regiments of that command learned fast to respect and regard with an affectionate interest this untiring, just and patient officer of infantry.

If he were asked what he considered his best work, he would probably say now, even in the light of his great success oversea, that he was most proud of his organization of the United States Infantry and Cavalry school. In February, 1880, he had attained the coveted rank of colonel. Ever busy, ever earnest in good intentions for the country and particularly for his own branch, he gave all idle hours-and these were few -to the elaboration of a scheme whereby the infantry and cavalry would receive the benefits of modern training and be able at first hand to test the theories of war which concerned the battleships of the land force—the fa mous infantry of our fighting line.

The school was established in 1881 and he remained with it, nursing it in to a healthy growth, until 1885, when he returned to the command of his own regiment

He was remarkable always for on thing, and for this the army honore him. He never had a political "pull. and if he had had one he would no have known how to use it His who idea was to go where he was ordered

to welcome any work, to do exactly as he was told and to instill into all below him the soldierly instincts of prompt obedience, cheerful discipline and constant study of the art of war, so that First Newspaper Published by in the hour of trial they would not be found wanting. How well he succeeded is shown not only in his work around Manila, but in the reputation that the Twentieth infantry achieved

On Nov. 28, 1893, after 31 years service, he was commissioned as a brigto him, if it ever did to any man, as the reward of duty well done. The whole army hailed his promotion with acclaim, and it is symptomatic of the man's rounded nature that, though an appointee from civil life, his brother officers who had the good luck to be graduates of West Point united in the general chorus of satisfaction and

When congress authorized the new army, he was among the first to be commissioned, and when he was or dered to Manila the senior officer. General Merritt, was not slow to express the satisfaction he experienced in having under him so capable an officer. New York city in the earliest years of That his feeling was shared by the adhis manhood. When the second call ministration is shown by the words of President McKinley. When the first official news came of the attack upon took up with an eagerness and an ardor | the American forces, the chief executive is reported to have said to Secretary

#### POPE'S LETTER PRAISED.

Archbishop Ireland Said the Whole U. S. Episcopate Condemned the Doctrines as Did the Pope.

ROME, Feb. 25.—The Observatore Romano published the text of a letter from Archbishop Ireland to the pope regarding the pontiff's letter to Cardinal Gibbons on "Americanism." The archbishop thanked the pope for this proof of his esteem and love for American Catholics, and says that now that the pope has shed light on isthe tuation misunderstanding will cease, "for we are now able to determine the fault which some desire to conceal under the name of Americanism and define true Americanism, such as understood by Ameri-

Continuing, the archbishop said in

"With all the energy of my heart 1 repudiate all the opinions the apostolic letter repudiates and condemns, those false and dangerous opinions whereto. as his holiness in brief says, certain people give the name of Americanisms.

"The whole episcopate of the United States, in their own name and in the name of their flocks, are ready to repudiate and condemn them. We cannot but be indignant that such wrong is done us, our bishops, our faithful and our nation, as to designate by the name of Amoricanism such errors and ex-

A SUNDAY SCHOOL CELEBRATION.

The American Union Will Hold One In Philadelphia May 25.

PHILADELPHIA, Feb. 25.—The American Sunday School union, whose head. quarters are in Philadelphia, will on May 25 celebrate its seventy-fifth anniversary in this city. Morris K. Jessup of New York is the president of the union. A special committee of arrangements has been appointed, consisting of Clarkson Clothier, chairman; W. H. Wanamaker, William G. Stoever and H. C. Gara of Philadelphia and Robert r. B. Easton and John N. Beach of New York, with J. H. Andrews as secretary and Elmer B. Stevenson of Iowa as assistant to the chairman.

The Academy of Music, one of the largest auditoriums of the city, has been secured for the meetings. Men of national influence have been invited to attend the celebration including President McKinley and ex-Presidents Harrison and Cleveland.

Y. M. C. A. CONVENTION.

Various Papers Read-Sergeant Harry Palmer Spoke at a Meeting.

BUTLER, Pa., Feb. 25 .- The convention of the Y. M. C. A. got down to the regular order of business. The devotional services were conducted by S. M. Sayford of Boston, who took as his theme for a snort talk, "Listening to God," reading the scripture lesson from Samuel, chapter iii, and the eighty-fifth Psalm. Various papers were read.

Fully 1,000 people attended the evening services last night.

Sergeant Harry Palmer, color bearer of the Tenth, who recently returned from Manila, was introduced and greeted with the Chautauqua salute. The sergeput spoke highly of the work of the Y. M. C. A. at Manila and of the colonel of his regiment, who, he says, is the "greatest soldier on earth."

Said He Would Decline.

PHILADELPHIA, Feb. 25.—Rev. John W. Shanahan, pastor of the Church of Our Lady of Sorrow of this city, who it was announced from the papal delegation at Washington had been appointed bishop of Harrisburg, says he decline the proffered honor. He says he naturally feels complimented, but he positively will not accept, as there are many reasons why he desired to remain out."-Christian Instructor. in this parish.

Partridges Uriven Into Barns.

In Morris county, N. J., partridges were driven by the recent heavy storm into barnyards to feed with the chickens. Dead quail and rabbits were scattered on all the clear places in the hills. News.

## THE AMERICAN SOLDIER.

Our People In Manila.

BRIGHT AND NEWSY PUBLICATION.

adier general, the single star coming It Is Devoted to the Interest of the Eighth Army Corps and Contains Much Interesting Information From the Philippines.

> The American Soldier is the name of the first American newspaper published Bayard in Manila. It is devoted to the interests | Alliance of the Eighth army corps and is sold at 10 cents a copy, Mexican money. The issue of Dec. 8 thus foreshadows the trouble with the insurgents that has just taken place

"A conflict was narrowly averted Dec. 16. A private of the Colorado regiment who attempted to pass the Filipinos' outposts was captured and his rifle was taken away from him. The American lieutenant demanded the immediate return of the soldier's weapon. The Filipinos were for a time disposed to be stubborn and massed 300 men at the point, ready for trouble. The matter was finally settled by the soldier's weapon being returned and the Americans agreeing that no future attempt would be made to enter the Filipinos' lines by soldiers doing outpost duty.

In its account of this trouble The American Soldier says

"The insurgents are certainly closing in around the city. A few nights ago the Idaho boys were drilling near the Malate fort They made a bayonet charge down the beach and had hardly got past the old Spanish trenches when the whole thicket became a mass of bugle sounds.

In another article of the same paper is the following:

"In case of an outbreak the first move will be the assassination of all the American officers whom it will be possible to get at. But our regiments bave a system of street fighting perfected which will give the rebels all the trouble they want. Each regiment has mapped out certain streets to clear and points to retreat and mass. The bugles give the regiments warning of the presence of our troops in adjoining streets. so there is no danger of a mishap.

In the local news are the following items

"Corporal Walker came upon a snake of the constrictor species on the Calle de Pallacio. The snake was set upon by a half dozen soldiers and killed. On being measured it was found to be 9 feet 7 inches long and 10 inches around in the largest part, with fangs like a pan-

"The soldier police are working hard L. F. LOREE, to find the murderers of a young bride. The murderers are said to be Maccabebees, a gang of professional murderers, who were hired to kill the young woman by a disappointed rival for her hand. The assassins entered her home while her husband was absent and stabbed her 30 times in the heart. She fell dead crying for the Americanos. A Filipino detective, wearing false whiskers, figures in the case, and other features give it all the blood curdling interest of crimes which sometimes startle a big city in this country.

There is an account of a raid on a swell Spanish gambling resort:

"Corporal Bill Pelock and Private Wirtensohn went in through the rear door, while Captain Corriston tackled the front entrance. Two Filipino 'cappers' attempted to bar the way of the police, but they were suppressed. The inmates were arrested in spite of the protest of the proprietor, who said he had permission from police headquarters to run the den The gamblers were fined \$50 each.

Some Minnesota soldiers went on a prospecting tour and came back with samples of gold, which are now on exhibition in Manila. The soldiers prospected the San Juan and Monte Blanc mountains, where mountain streams abound The country is occupied by Negritos. who are said to be much above the Filipinos in cleanliness and morality. The prospectors found evidences of gold in all the streams. The natives have wooden "longtoms" with which they manage to wash out about a teaspoonful of gold a day. This they have been selling to the Spaniards for two Mexican dollars, although the gold is worth about \$85 in American money. The prospectors were rapidly trailing the mother lode when they were ordered back by a party DAVID BOYCE, of insurgents, who alleged that the prospectors would be murdered by the B. C. SIMMS mountaineers if they went any farther

The Penalty Will Come.

If he were asked what he considered his best work, he would probably say now, even in the light of his great success oversea, that he was most proud of his organization of the United States Infantry and Cavalry school. In February, 1880, he had attained the coveted rank of colonel. Ever busy, ever earnest in good intentions for the country and particularly for his own branch, he gave all idle hours—and these were few -to the elaboration of a scheme whereby the infantry and cavalry would receive the benefits of modern training and be able at first hand to test the theories of war which concerned the battleships of the land force—the fa

mous infantry of our fighting line. The school was established in 1881 and he remained with it, nursing it in to a healthy growth, until 1885, when he returned to the command of his own regiment

He was remarkable always for on thing, and for this the army honore him. He never had a political "pull. and if he had had one he would no have known how to use it His who idea was to go where he was ordered to welcome any work, to do exactly as he was told and to instill into all below him the soldierly instincts of prompt obedience, cheerful discipline and constant study of the art of war, so that First Newspaper Published by in the hour of trial they would not be found wanting. How well he succeeded is shown not only in his work around Manila, but in the reputation that the Twentieth infantry achieved

On Nov. 28, 1893, after 31 years service, he was commissioned as a brigadier general the single star coming to him, if it ever did to any man, as Philippines-He Is Both Courage- the reward of duty well done The whole army hailed his promotion with General Elwell S. #### POPE'S LETTER PRAISED.

Archbishop Ireland Said the Whole U. S. Episcopate Condemned the Doctrines as Did the Pope.

ROME, Feb. 25.—The Observatore Romano published the text of a letter from Archbishop Ireland to the pope regarding the pontiff's letter to Cardinal Gibbons on "Americanism." The archbishop thanked the pope for this proof of his esteem and love for American Catholics, and says that now that the pope has shed light on isthe tuation misunderstanding will cease, "for we are now able to determine the fault which some desire to conceal under the name of Americanism and define true Americanism, such as understood by Ameri-

Continuing, the archbishop said in

"With all the energy of my heart I repudiate all the opinions the apostolic of the constrictor species on the Calle letter repudiates and condemns, those false and dangerous opinions whereto, as his holiness in brief says, certain people give the name of Americanisms.

"The whole episcopate of the United States, in their own name and in the name of their flocks, are ready to re- ther pudiate and condemn them. We cannot but be indignant that such wrong is done us, our bishops, our faithful and our nation, as to designate by the name of Amoricanism such errors and ex-

A SUNDAY SCHOOL CELEBRATION.

Philadelphia May 25.

PHILADELPHIA, Feb. 25.—The American Sunday School union, whose headquarters are in Philadelphia, will on May 25 celebrate its seventy-fifth anniversary in this city. Morris K. Jessup of New York is the president of the an acknowledged authority in the art of union. A special committee of arrangements has been appointed, consisting of Clarkson Clothier, chairman; W. H. Wanamaker, William G. Stoever and H. C. Gara of Philadelphia and Robert T. B. Easton and John N. Beach of New York, with J. H. Andrews as secretary and Elmer B. Stevenson of Iowa as assistant to the chairman.

The Academy of Music, one of the largest auditoriums of the city, has been secured for the meetings. Men of national influence have been invited to attend the celebration including President McKinley and ex-Presidents Harrison and Cleveland.

Y. M. C. A. CONVENTION

Various Papers Read-Sergeant Harry Palmer Spoke at a Meeting.

BUTLER, Pa., Feb. 25.-The convention of the Y. M. C. A. got down to the regular order of business. The devotional services were conducted by S. M. Sayford of Boston, who took as his theme for a short talk, "Listening to reading the scripture lesson from Samuel, chapter iii, and the eighty-fifth

Psalm. Various papers were read. Fully 1,000 people attended the evening services last night.

Sergeant Harry Palmer, color bearer of the Tenth, who recently returned from Manila, was introduced and greeted with the Chautauqua salute. The sergeput spoke highly of the work of the Y. M. C. A. at Manila and of the colonel of his regiment, who, he says, is the "greatest soldier on earth."

Said He Would Decline.

PHILADELPHIA, Feb. 25.-Rev. John W. Shanahan, pastor of the Church of Our Lady of Sorrow of this city. who it was announced from the papal delegation at Washington had been appointed bishop of Harrisburg, says he decline the proffered honor. He says he naturally feels complimented, but he positively will not accept, as there are come. "Be sure your sin will find you many reasons why he desired to remain in this parish.

Partridges Driven Into Barns.

In Morris county, N. J., partridges were driven by the recent heavy storm into barnyards to feed with the chickens. Dead quail and rabbits were scattered on all the clear places in the hills.

## THE AMERICAN SOLDIER.

Our People In Manila.

BRIGHT AND NEWSY PUBLICATION.

It is Devoted to the Interest of the Eighth Army Corps and Contains Much Interesting Information From the Philippines.

The American Soldier is the name of the first American newspaper published | Bayard in Manila. It is devoted to the interests of the Eighth army corps and is sold at 10 cents a copy, Mexican money. The issue of Dec. 8 thus foreshadows the trouble with the insurgents that has just taken place

"A conflict was narrowly averted Dec. 16. A private of the Colorado regiment who attempted to pass the Filipinos' outposts was captured and his rifle was taken away from him. The American lieutenant demanded the immediate return of the soldier's weapon. The Filipinos were for a time disposed to be stubborn and massed 300 men at the point, ready for trouble. The matter was finally settled by the soldier's weapon being returned and the Americans agreeing that no future attempt would be made to enter the Filipinos' lines by soldiers doing outpost duty.

In its account of this trouble The American Soldier says

"The insurgents are certainly closing in around the city. A few nights ago the Idaho boys were drilling near the Malate fort They made a bayonet charge down the beach and had hardly got past the old Spanish trenches when the whole thicket became a mass of bugle sounds.

In another article of the same paper is the following

"In case of an outbreak the first move will be the assassination of all the American officers whom it will be possible to get at. But our regiments have a system of street fighting perfected which will give the rebels all the trouble they want. Each regiment has mapped out certain streets to clear and points to retreat and mass. The bugles give the regiments warning of the presence of our troops in adjoining streets. so there is no danger of a mishap.

In the local news are the following

"Corporal Walker came upon a snake de Pallacio. The snake was set upon by a half dozen soldiers and killed. On being measured it was found to be 9 feet 7 inches long and 10 inches around in the largest part, with fangs like a pan-

"The soldier police are working hard to find the murderers of a young bride The murderers are said to be Maccabebees, a gang of professional murderers, an by a disappointed rival for her hand. The assassins entered her home while her husband was absent and stabbed her 30 times in the heart. She fell dead crying for the Americanos. A Filipino detective, wearing false whiskers, figures in the case, and other features give it all the blood curdling interest of Time table effective January 16, 1899. Trains crimes which sometimes startle a big city in this country.

There is an account of a raid on a swell Spanish gambling resort:

"Corporal Bill Pelock and Private Wirtensohn went in through the rear door, while Captain Corriston tackled the front entrance. Two Filipino 'cappers' attempted to bar the way of the police, but they were suppressed. The inmates were arrested in spite of the protest of the proprietor, who said he had permission from police headquarters to run the den. The gamblers were fined \$50 each.

Some Minnesota soldiers went on a prospecting tour and came back with samples of gold, which are now on exhibition in Manila. The soldiers prospected the San Juan and Monte Blanc mountains, where mountain streams abound The country is occupied by Negritos. who are said to be much above the Filipinos in cleanliness and morality. The prospectors found evidences of gold in all the streams. The natives have wooden "longtoms" with which they manage to wash out about a teaspoonful of gold a day. This they have been selling to the Spaniards for two Mexican dollars, although the gold is worth about \$85 in American money. The prospectors were rapidly trailing the mother lode when they were ordered back by a party of insurgents, who alleged that the prospectors would be murdered by the mountaineers if they went any farther

The Penalty Will Come.

There are many forms of sin in the world. Some are more heinous than others, but all are of the same naturetransgression of the law. Their greatness cannot be told by the immediate injury that follows, for often there appears to be no immediate evil results. But in process of time the penalty will out."-Christian Instructor.

Still In Possession.

"Why do you think they are on their wedding journey?'

"Didn't you notice that he had the pocketbook when they bought those oranges from the trainboy?"-Chicago

## UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours, and union labor employed.

#### PATRONIZE UNION CLERKS. tembers of the R. C. N. P. A. can show this card

Ask for it when making your purchases Endorsed by the A. F. of L.

UNION MADE BOOTS AND SHOES

properly signed, and STAMPED with the number of the L

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee

that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS

This Label is about an inch and a half square, and is printed on buffis printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it. and places it in another, or has any detached labels in his store, do not buy from him. as his labels may be

counterfeit, and his hats may be the product of scab or non-union labor. UNION MADE CLOTHES.

STATISTED SEA CARMINE

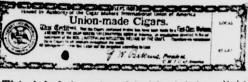

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest. and on, the waistband lin-ing of the pants

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of a background of pea green, bor-dered by gold. The Label will

be placed on the upper front side of the tube that receives the seat post. BLUE LABRL CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a simi-

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plus tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS

This is a full size fac-simile of the Label of the Bakers' and Con-fectioners' union It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions.

and in clean and healthy bakeshops Following is the confectioners' and cracker Label:

Progress Made In Americanizing Porto Rico.

ABOLISHES TAXES ON FOOD STUFFS

Eight Cent Loaves of Bread Now Sell For Sty Cents-The Tax Also Taken off Meat-Applying Common Sense Ideas to Matters of Government.

General Guy V. Henry, military and dvil governor of Porto Rico, says the San Juan correspondent of the New York Sun, has not only given the people of Porto Rico increased the people of Porto Rico increased to the people of Porto Rico, says the San Juan correspondent of the people of Porto Rico, says the San Juan correspondent of the people of Porto Rico, says the San Juan correspondent of the people of Porto Rico increased to the people of Por the people of Porto Rico increased confidence in their new mother country, but also established a more settled and stable administration by the introduction so far as possible of his promised reforms in the island government. During his two months' rule ernment. During his two months' rule he has abolished the tax on two common food stuffs, appointed special commissioners to clear the court dockets, organized island and municipal boards of health, introduced American policemen, placed the lighthouses in charge of the navy, repealed many obnoxious Spanish laws in whole or in part, and even extended self government to many interior towns.

General Henry owes much of his success to his vigorous business methods. When he first took control, he defined his present policy precisely in the remark, "I shall use good western horse eense in administering the affairs of the island and seek to give the people here a daily lesson in self government." He shows, too. Yankee shrewdness, a trait acquired perhaps at school in a little Connecticut village near New Haven. And for a governor general he is democratic. At the palace he greets all callers cordially, makes them feel at ease, listens patiently to all complaints, recommendations and requests, and every day grants and refuses everything, from a pass on a transport to a valuable railway franchise. But visitors must come in the morning. In his afternoons, with his stenographer and interpreter, he tackles his big pile of personal letters, Washington correspondence and official reports. He also spends a few hours each day investigating and remodeling and repealing Spanish laws and customs. Yet another matter of importance in which he finds an urgent need of reform is the employment of contractors in municipal or government improvements. Concerning this subject, in an interview. General Henry

"I find difficulty in getting contracters to bid on work because they are afraid of the corruption which existed so much under Spanish rule. Fer the present, therefore, I am compelled to employ laborers by the day, without any satisfactory system."

As an experiment General Henry has withdrawn troops from many interior towns in order to give the people, as he promised, a practical lesson in self government. His action was hurried partly by a lack of harmony in a few cases between the military officers and the municipal officials. For example, in one village a volunteer officer, bringing a native prisoner into court, demanded an immediate trial without even the necessary signed complaint. Such a proceeding the judge of course refused more complaints of the same nature the tion. governor general has sent letters to soldiers, officers and municipal officials notifying them that "councils are held responsible for their duties and military officers for the law and order of the community." Of his self government experiment General Henry says: "I of this community. If they fail to preserve law and order or show an indifference and neglect of duty, the towns in which such neglects occur will be put ander a military officer and necessary troops, and the functions of the alcalde, council and courts be suspended and the town governed by military law."

But the common people, the class of natives whose attention is fixed not so more toward the needs of everyday life, see the blessings of their new government more plainly in the tax reforms made by the American governor general. In Spanish times, when the 850, 900 or 900,000 islanders annually raised4,000,000 pesos for the government, taxes were laid on everything from lustrate this fact. valuable plantations down to the sale of bread and meat. On a loaf of bread then the poor as well as the rich paid a tax of 2 cents. But since General Henry has removed this obnoxious tax even the little street urchins can tell you that the 8 cent loaves now sell for 6 cents. As for meat, before the sale of this article became free from duty the tiful tree. In its beauty it is emblematic little city of San Juan collected from the public market a daily tax of 150 pesos, which, of course, the people themselves really paid. Now, in order to physical beauty, and, though it may not physical beauty, and though it may not make up the reductions in municipal always seem so, yet it is really more receipts receipts, caused by the foregoing exemptions, General Henry has authorized all towns and villages to issue spetial licenses for the sale of liquors and tobacco, which heretofore have been sold under a general merchandise permit. For the mit. For the new schedule he recommends a fee of 50 pesos for every liquor or tobacco store or stand in towns of

Impossible To Produce Stronger Proof.

Proof is evidence. Evidence is testimony, but testimony is not always proof, for testimony differs. A stranger from a far away place---a man in Maine ---a woman in Wisconsin---may testify in most emphatic language, but is it proof? We think not! Positive proof to an East Liverpool citizen is the exper-

ience and public expression of East Liverpool people, the statement of friends and neighbors, easily investigated, easily indorsed. Many readers of this are troubled with bachache, with rheumatic pains, with urinary disorders, with sick kidneys; have tried many recommended remedies and failed to get permanent relief. No wonder they ask for better proof. We say to every kidney sufferer, DOAN'S KID-NEY PILLS cure all forms of kidney ills, from Backache to Diabetes. Our evidence of it? The best that can be had. Impossible to produce stronger proof than the indorsement that guarantees full value for every box of DOAN'S KIDNEY PILLS. Here is a case of it. An emphatic statement of an East Liverpool citizen. We have many more like it.

Mr. Charles Smith, of 198 Fourth street, letter carrier, says: "I contracted a heavy cold which settled in my kidneys and caused such severe pains across the small of my back that I could scarcely get around my trip. I thought it would wear off, but as it did not, but got worse, I got Doan's Kidney Pills at the W & W. Pharmacy and took them. The result was that the pain soon left me and I was all right again.

Doan's Kidney Pills, sold at all Drug Stores -- 50 cents per box.

Foster-Milburn Co., Buffalo, N. Y.

from 5,000 to 10,000 population and a fee of 80 pesos for towns of more than 20,000 population. General Henry further strikes a blow for temperance by a paragraph which reads "It is hoped that this taxing of the sales of liquors may have the effect of closing a number of saloons and of taking temptation to drink away from the inhabitants, a vice of the island which tends to demoralize its people, causes misery and suffering to the innocent and interferes materially with moral progress, upon to authorize. So in order to prevent which depends the success of any na-

#### CHRISTIAN ENDEAVOR.

fopic For the Week Beginning Feb. 26-Comment by Rev. S. H. Doyle. Topic.—Palm tree Christians.—Ps. xcii, 1-15.

The Ninety-second Psalm, as we learn shall hold the alcalde and his council from the Talmud, was sung in the temstrictly responsible for the government ple on Sabbath morning. It speaks of the appropriateness of giving thanks unto God day and night, and praises His just government of the world and prophesies the final destruction of the wicked and the success and prosperity of the righteons. This latter fact is made more vivid by comparing the righteons to the palm and the cedar "The righteous shall flourish like the palm tree; be shall grow like a cedar much on forms of government, but in Lebanon." This comparison was a peculiarly happy one in Palestine, where the palm at one time was very abundant and useful, though rarely found today. Many comparisons readily suggest themselves between the righteous, the Christian and the palm tree. The leading characteristics of the palm will il-

1. The palm tree is noted for its beauty. "Its trunk is straight, tall and unbroken, terminating in a crown of emerald green plumes, like a diadem of gigantic ostrich feathers. These leaves are frequently 20 feet in length, droop slightly at the ends and whisper musically in the breeze." It is a most beauof Christian righteousness. What more beautiful than a Christian life? Moral beauty is much more to be desired than admired even by men of the world. There is nothing more beautiful in the world than a pure, ennobling, bumble, consistent Christian life.

2. The palm tree is noted for its fruitgins to bear fruit and does not cease its work until a century has passed away. Millions receive from it their daily food. It is put to 360 different uses and and joy in the home. We feel pity for supplies almost all the wants of the Arab or Egyptian. It bears its best fruit in old age. The Christian should also be noted for fruitfulness. Fruit bearing is his mission in the world. "I have chosen you," says Christ, "that you might go and bring forth fruit, and as good or correct as it "used to be!" that your fruit should remain."

3. The palm tree is noted for its height. It is usually at least 40 or 50 feet in height, and often attains a height of 80 feet. It grows heavenward, as the Christian should also do, partaking more and more of those graces which adorn the inhabitants of God's eternal

4. The palm tree is an indogenous tree. It grows on the inside. In this respect it also typifies the Christian. Christianity is not a reformation outside, but the implanting within us of new principles of life, which change the entire moral exterior of the man.

5. The palm tree is noted for its perpetual greenness. In winter's cold or summer's heat the palm continues green. It is evergreen, symbolical of the eternal life of the Christian.

Thus this beautiful, useful plant may well inspire us to strive to adorn the spiritual world with the same characteristics with which it beautifies and ennobles the physical world.

Bible Readings. - Job xvii, 9; Ps. i, 1-6; xxxiv, 19; xxxvii, 19, 29; lii, 1-9; cxii, 1-10; Isa. lxi, 1-3; Jer. xvii, 8; Hos. xiv, 5-7; Prov. x, 3, 11, 25; Math. v, 10-16; xiii, 41-43; xxv, 34-46; John xv, 16; Rev. xxii, 10-12.

#### Depend on Christ.

Reckon on Christ to do His part perfectly. Directly you give, He takes. Directly you will open the door, He enters. Directly you will open the floodgates, He pours in a glorious tide of fullness-fullness of wealth, of power, of joy. The clay has only to be plastic to the hand of a Palissy, the marble has only to be pliant to the chisel of a Michael Angelo, the organ has only to be responsive to the slightest touch of a Handel, the student has only to follow the least bint of a Faraday or a Whewell-and there will be no failure in results. Oh, to be equally susceptible to the molding influences of Christ! We shall not fail in realizing the highest ideal of which we are capable if only we will let Him do His work unhindered. - Rev. F. B. Meyer.

A Perennial Benefit.

A cheerful temper is a perennial benefit as well as a very rainbow of peace

those who can see only ill in everybody and everything, evil only everywhere; believing naturally, too, that the "race is degenerating, that all men are dreadfully wicked" and "going to the dogs" or to the "bad place;" that nothing is The unfortunates born to these common and pessimistic ideas surely deserve our commiseration. - Churchman.

Prayer.

Jesus never taught his disciples how to preach, only how to pray. He did not speak much of what was needed to preach well, but much of praying well. To know how to speak to God is more than knowing how to speak to men. Not power with men, but power with God, is the first thing. Jesus loves to teach us how to pray .-- Andrew Murray.

#### Unequal to the Strain.

Whatever men may say, God is no party to the idea of interminable punishment, and whatever punishment and whatever natural immortality may mean it would be unequal to the strain of God's endless wrath. - Universalist Leader

#### THE FICKLE SEA.

Who has heard the cod line singing o'er the bow? Who has hauled the flashing prey across the

wale Who has felt the wet brine stinging on the When the boat is all a-stagger 'neath the gale? Who has laid him in the sagging of the sail

While the masthead's nodding sleepy to the And has slumbered till the stars grow dim and pale Fill your bumpers! Join the chorus of my

croon! Oh, the fickle, fuming, frolic fretting sea! Oh, the limpid, lapping, laughter loving sea!

We who tove her fill our glasses To the best of all the lasses, And we drink a briny bumper to the sea! Who has lain upon the sloping deck awash?

Who has hauled and clewed and chanted in Who has watched the mainmast bending nigh a-crash,

While the rival boat's a-dropping off behind? Who has leaned against the creaking, jolting Through a moonlit summer night on south

Who has felt the old sea longing that I feel? Fill your bumpers, men, and shout aloud

ern sea?

Oh, the singing, sighing, salty scented sea! Oh, the rushing, roaring, ramping, raging sea! On your feet and clash your glasses. "To the best beloved of lasses-

Here's a brimming, briny bumper to the sea!' -Richard Stillman Powell in Criterion

Eight Cent Loaves of Bread Now Sell For Six Cents-The Tax Also Taken of Meat-Applying Common Sense ideas to Matters of Government.

General Guy V. Henry, military and General Guy V. Henry, military and givil governor of Porto Rico, says the San Juan correspondent of the New York Sun, has not only given the people of Porto Rico increased confidence in their new mother country, but also established a more settled and stable administration by the introduction so far as possible of his promised reforms in the island government. During his two months' rule ernment. During his two months' rule be has abolished the tax on two common food stuffs, appointed special commissioners to clear the court dockets, organized island and municipal boards of health, introduced American policemen, placed the lighthouses in charge of the navy, repealed many obnoxious Spanish laws in whole or in part, and even extended self government to many interior towns.

General Henry owes much of his success to his vigorous business methods. When he first took control, he defined his present policy precisely in the remark, "I shall use good western horse cense in administering the affairs of the island and seek to give the people here a daily lesson in self government." He shows, too. Yankee shrewdness, a trait acquired perhaps at school in a little Connecticut village near New Haven. And for a governor general he is democratic. At the palace he greets all callers cordially, makes them feel at ease. listens patiently to all complaints, recommendations and requests, and every day grants and refuses everything, from a pass on a transport to a valuable railway franchise. But visitors must come in the morning. In his afternoons, with his stenographer and interpreter, he tackles his big pile of personal letters, Washington correspondence and official reports. He also spends a few hours each day investigating and remodeling and repealing Spanish laws and customs. Yet another matter of importance in which he finds an urgent need of reform is the employment of contractors in municipal or government improvements. Concerning this subject, in an interview. General Henry

"I find difficulty in getting contracters to bid on work because they are afraid of the corruption which existed so much under Spanish rule. For the present, therefore, I am compelled to employ laborers by the day, without

any satisfactory system.' As an experiment General Henry has withdrawn troops from many interior towns in order to give the people, as he promised, a practical lesson in self government. His action was hurried partly by a lack of harmony in a few cases between the military officers and the municipal officials. For example, in one village a volunteer officer, bringing a native prisoner into court, demanded an immediate trial without even the necessary signed complaint. Such a proceeding the judge of course refused to authorize. So in order to prevent which depends the success of any namore complaints of the same nature the tion. governor general has sent letters to soldiers, officers and municipal officials notifying them that "councils are held responsible for their duties and military officers for the law and order of the community." Of his self government experiment General Henry says: "I shall hold the alcalde and his council strictly responsible for the government of this community. If they fail to preserve law and order or show an indifference and neglect of duty, the towns in ander a military officer and necessary troops, and the functions of the alcalde,

the town governed by military law. But the common people, the class of natives whose attention is fixed not so more toward the needs of everyday life. see the blessings of their new government more plainly in the tax reforms eral. In Spanish times, when the 850,taxes were laid on everything from lustrate this fact. valuable plantations down to the sale of bread and meat. On a loaf of bread a tax of 2 cents. But since General Henry has removed this obnoxious tax even the little street urchins can tell you that the 8 cent loaves now sell for 6 cents. As for meat, before the sale of the public market a daily tax of 150 pesos, which, of course, the people themselves really paid. Now, in order to make up the reductions in municipal receipts, caused by the foregoing exemptions, General Henry has authorized all towns and villages to issue spetial licenses for the sale of liquors and tobacco, which heretofore have been sold under a general merchandise permit. For the new schedule he recommends a fee of 50 pesos for every liquor er tobacco store or stand in towns of

Impossible To Produce Stronger Proof.

> Proof is evidence. Evidence is testimony, but testimony is not always proof, for testimony differs. A stranger from a far away place---a man in Maine ---a woman in Wisconsin---may testify in most emphatic language, but is it proof? We think not! Positive proof to an East Liverpool citizen is the exper-

ience and public expression of East Liverpool people, the statement of friends and neighbors, easily investigated, easily indorsed. Many readers of this are troubled with bachache, with rheumatic pains, with urinary disorders, with sick kidneys; have tried many recommended remedies and failed to get permanent relief. No wonder they ask for better proof. We say to every kidney sufferer, DOAN'S KID-NEY PILLS cure all forms of kidney ills, from Backache to Diabetes. Our evidence of it? The best that can be had. Impossible to produce stronger proof than the indorsement that guarantees full value for every box of DOAN'S KIDNEY PILLS. Here is a case of it. An emphatic statement of an East Liverpool citizen. We have many more like it.

Mr. Charles Smith, of 198 Fourth street, letter carrier, says: "I contracted a heavy cold which settled in my kidneys and caused such severe pains across the small of my back that I could scarcely get around my trip. I thought it would wear off, but as it did not, but got worse, I got Doan's Kidney Pills at the W & W. Pharmacy and took them. The result was that the pain soon left me and I was all right again.

Doan's Kidney Pills, sold at all Drug Stores .- 50 cents per box.

Foster-Milburn Co., Buffalo, N. Y.

from 5,000 to 10,000 population and a fee of 80 pesos for towns of more than 20,000 population. General Henry further strikes a blow for temperance by a paragraph which reads "It is hoped that this taxing of the sales of liquors may have the effect of closing a number of saloons and of taking temptation to drink away from the inhabitants, a vice of the island which tends to demoralize its people, causes misery and suffering to the innocent and interferes

fopic For the Week Beginning Feb. 26-Comment by Rev. S. H. Doyle.

TOPIC.—Palm tree Christians.—Ps. xcii, 1-15. The Ninety-second Psalm, as we learn from the Talmud, was sung in the temple on Sabbath morning. It speaks of the appropriateness of giving thanks unto God day and night, and praises His just government of the world and which such neglects occur will be put prophesies the final destruction of the wicked and the success and prosperity of the righteous. This latter fact is council and courts be suspended and made more vivid by comparing the righteous to the palm and the cedar "The righteous shall flourish like the palm tree; he shall grow like a cedar much on forms of government, but in Lebanon." This comparison was a peculiarly happy one in Palestine, where the palm at one time was very abundant and useful, though rarely found today. made by the American governor gen- Many comparisons readily suggest themselves between the righteous, the 000 or 900,000 islanders annually raised Christian and the palm tree. The lead-4.000,000 pesos for the government, ing characteristics of the palm will il-

1. The palm tree is noted for its beauty. "Its trunk is straight, tall and then the poor as well as the rich paid unbroken, terminating in a crown of emerald green plumes, like a diadem of gigantic ostrich feathers. These leaves are frequently 20 feet in length, droop slightly at the ends and whisper musically in the breeze." It is a most beauthis article became free from duty the tiful tree. In its beauty it is emblematic little city of San Juan collected from of Christian righteousness. What more beautiful than a Christian life? Moral beauty is much more to be desired than physical beauty, and, though it may not always seem so, yet it is really more admired even by men of the world. There is nothing more beautiful in the world than a pure, ennobling, bumble, consistent Christian life.

2. The palm tree is noted for its fruitfulness. When 6 or 8 years old, it begins to bear fruit and does not cease its work until a century has passed away. Millions receive from it their daily

food. It is put to 360 different uses and and joy in the home. We feel pity for supplies almost all the wants of the Arab or Egyptian. It bears its best fruit and everything, evil only everywhere; in old age. The Christian should also be noted for fruitfulness. Fruit bearing is degenerating, that all men are dreadis his mission in the world. "I have fully wicked" and "going to the dogs' chosen you," says Christ, "that you might go and bring forth fruit, and that your fruit should remain."

3. The palm tree is noted for its height. It is usually at least 40 or 50 feet in height, and often attains a height of 80 feet. It grows heavenward, as the materially with moral progress, upon Christian should also do, partaking more and more of those graces which adorn the inhabitants of God's eternal

4. The palm tree is an indogenous tree. It grows on the inside. In this respect it also typifies the Christian. Christianity is not a reformation outside, but the implanting within us of new principles of life, which change the entire moral exterior of the man.

5. The palm tree is noted for its perpetual greenness. In winter's cold or summer's heat the palm continues green. It is evergreen, symbolical of the eternal life of the Christian.

Thus this beautiful, useful plant may well inspire us to strive to adorn the spiritual world with the same characteristics with which it beautifies and ennobles the physical world.

Bible Readings. - Job xvii, 9; Ps. i, 1-6; xxxiv, 19; xxxvii, 19, 29; lii, 1-9; exii, 1-10; Isa. 1xi, 1-3; Jer. xvii, 8; Hos. xiv, 5-7; Prov. x, 3, 11, 25; Math. v, 10-16; xiii, 41-43; xxv, 34-46; John xv, 16; Rev. xxii, 10-12.

Depend on Christ.

Reckon on Christ to do His part perfectly. Directly you give, He takes. Directly you will open the door, He enters. Directly you will open the floodgates, He pours in a glorious tide of fullness-fullness of wealth, of power, of joy. The clay has only to be plastic to the hand of a Palissy, the marble has only to be pliant to the chisel of a Michael Angelo, the organ has only to be responsive to the slightest touch of a Handel, the student has only to follow the least hint of a Faraday or a Whewell-and there will be no failure in results. Oh, to be equally susceptible to the molding influences of Christ! We shall not fail in realizing the highest ideal of which we are capable if only we will let Him do His work unhindered. - Rev. F. B. Meyer.

A Perennial Benefit. A cheerful temper is a perennial benefit as well as a very rainbow of peace

those who can see only ill in everybody believing naturally, too, that the "race or to the "bad place;" that nothing is as good or correct as it "used to be!" The unfortunates born to these common and pessimistic ideas surely deserve our commiseration. -Churchman.

Prayer.

Jesus never taught his disciples how to preach, only how to pray. He did not speak much of what was needed to preach well, but much of praying well. To know how to speak to God is more than knowing how to speak to men. Not power with men, but power with God, is the first thing. Jesus loves to teach us how to pray. - Andrew Murray.

Unequal to the Strain.

Whatever men may say, God is no party to the idea of interminable punishment, and whatever punishment and whatever natural immortality may mean it would be unequal to the strain of God's endless wrath. - Universalist Leader.

Progress Made In Americanizing Porto Rico.

ABOLISHES TAXES ON FOOD STUFFS

Eight Cent Loaves of Bread Now Sell For Six Cents-The Tax Also Taken of Meat-Applying Common Sense Ideas to Matters of Government.

General Guy V. Henry, military and civil governor of Porto Rico, says the San Juan correspondent of the New York Sun, has not only given the people of Porto Rico increased confidence in their new mother country, but also established a more settled and stable administration by the introduction so far as possible of his promised reforms in the island government. During his two months' rule he has abolished the tax on two common food stuffs, appointed special commissioners to clear the court dockets, organized island and municipal boards of health, introduced American policemen, placed the lighthouses in charge of the navy, repealed many obnoxious Spanish laws in whole or in part, and even extended self government to many interior towns.

General Henry owes much of his success to his vigorous business methods. When he first took control, he defined his present policy precisely in the remark, "I shall use good western horse cense in administering the affairs of the island and seek to give the people here a daily lesson in self government." He shows, too. Yankee shrewdness, a trait acquired perhaps at school in a little Connecticut village near New Haven. And for a governor general he is democratic. At the palace he greets all callers cordially, makes them feel at ease, listens patiently to all complaints, recommendations and requests, and every day grants and refuses everything, from a pass on a transport to a valuable railway franchise. But visitors must come in the morning. In his afternoons, with his stenographer and interpreter, he tackles his big pile of personal letters, Washington correspondence and official reports. He also spends a few hours each day investigating and remodeling and repealing Spanish laws and customs. Yet another matter of importance in which he finds an urgent need of reform is the employment of contractors in municipal or government improvements. Concerning this subject, in an interview, General Henry

"I find difficulty in getting contractors to bid on work because they are afraid of the corruption which existed so much under Spanish rule. For the present, therefore, I am compelled to employ laborers by the day, without any satisfactory system.

As an experiment General Henry has withdrawn troops from many interior towns in order to give the people, as he promised, a practical lesson in self government. His action was hurried partly by a lack of harmony in a few cases between the military officers and the muvillage a volunteer officer, bringing a native prisoner into court, demanded an immediate trial without even the necessary signed complaint. Such a proceeding the judge of course refused more complaints of the same nature the tion. governor general has sent letters to soldiers, officers and municipal officials notifying them that "councils are held responsible for their duties and military | fopte For the Week Beginning Feb. officers for the law and order of the community." Of his self government experiment General Henry says: "I of this community. If they fail to preserve law and order or show an indifference and neglect of duty, the towns in which such neglects occur will be put under a military officer and necessary troops, and the functions of the alcalde, council and courts be suspended and the town governed by military law.'

But the common people, the class of natives whose attention is fixed not so much on forms of government, but more toward the needs of everyday life, see the blessings of their new government more plainly in the tax reforms made by the American governor general. In Spanish times, when the 850,-000 or 900,000 islanders annually raised 4,000,000 pesos for the government, taxes were laid on everything from valuable plantations down to the sale of bread and meat. On a loaf of bread then the poor as well as the rich paid a tax of 2 cents. But since General Henry has removed this obnoxious tax even the little street urchins can tell you that the 8 cent loaves now sell for 6 cents. As for meat, before the sale of this article became free from duty the little city of San Juan collected from the public market a daily tax of 150 pesos, which, of course, the people themselves really paid. Now, in order to make up the reductions in municipal receipts, caused by the foregoing exemptions, General Henry has authorized all towns and villages to issue sperial licenses for the sale of liquors and tobacco, which heretofore have been sold under a general merchandise permit. For the new schedule he recommends a fee of 50 pesos for every liquor er tobacco store or stand in towns of

26-Comment by Rev. S. H. Doyle.

Topic.-Palm tree Christians.-Ps. xcii, 1-15. The Ninety-second Psalm, as we learn chall hold the alcalde and his council from the Talmud, was sung in the temstrictly responsible for the government ple on Sabbath morning. It speaks of the appropriateness of giving thanks unto God day and night, and praises His just government of the world and prophesies the final destruction of the wicked and the success and prosperity of the righteous. This latter fact is made more vivid by comparing the righteous to the palm and the cedar "The righteous shall flourish like the palm tree; be shall grow like a cedar in Lebanon." This comparison was a peculiarly happy one in Palestine, where the palm at one time was very abundant and useful, though rarely found today. Many comparisons readily suggest themselves between the righteous, the Christian and the palm tree. The leading characteristics of the palm will il-

lustrate this fact. 1. The palm tree is noted for its beauty. "Its trunk is straight, tall and unbroken, terminating in a crown of emerald green plumes, like a diadem of gigantic ostrich feathers. These leaves are frequently 20 feet in length, droop slightly at the ends and whisper musically in the breeze." It is a most beautiful tree. In its beauty it is emblematic of Christian righteousness. What more beautiful than a Christian life? Moral beauty is much more to be desired than physical beauty, and, though it may not always seem so, yet it is really more admired even by men of the world. There is nothing more beautiful in the world than a pure, ennobling, bumble, consistent Christian life.

2. The palm tree is noted for its fruitfulness. When 6 or 8 years old, it begins to bear fruit and does not cease its work until a century has passed away. Millions receive from it their daily

from 5,000 to 10,000 population and a food. It is put to 360 different uses and and joy in the home. We feel pity for supplies almost all the wants of the Arab or Egyptian. It bears its best fruit in old age. The Christian should also be noted for fruitfulness. Fruit bearing is degenerating, that all men are dreadis his mission in the world. "I have chosen you," says Christ, "that you might go and bring forth fruit, and that your fruit should remain."

> 3. The palm tree is noted for its height. It is usually at least 40 or 50 feet in height, and often attains a height of 80 feet. It grows heavenward, as the Christian should also do, partaking more and more of those graces which adorn the inhabitants of God's eternal

4. The palm tree is an indegenous tree. It grows on the inside. In this respect it also typifies the Christian. Christianity is not a reformation out side, but the implanting within us of new principles of life, which change the entire moral exterior of the man.

5. The palm tree is noted for its perpetual greenness. In winter's cold or summer's heat the palm continues green. It is evergreen, symbolical of the eternal life of the Christian.

Thus this beautiful, useful plant may well inspire us to strive to adorn the spiritual world with the same characteristics with which it beautifies and ennobles the physical world.

Asks the Court to Give Her a Divorce on What Seems Good Grounds.

LISBON, Feb. 25.—[Special]—Following closely on the proceeding in which the Dyoall family, of Salem, are prominent figures comes a petition for divorce and alimony, filed by Mrs. Olive ing reconnaissance near San Pedro S. Dyball.

Mrs. Dyball says she was married to E. E. Dyball at Youngstown, July 31, 1887, and they have two children, loocan, Feb. 22-23: Estella and Mabel, aged 10 and eight years. As ground for divorce she says Dr. Samuel Lindsay, of this city, who that Feb. 19 her husband without cause has been spending several days with was guilty of extreme cruelty toward otherwise beating and maltreating her Mrs. McCloskey, wife of Mail Carrier in a shameful manner. Second-By us- Charles Hultberg, neck, severe. guests and servants of the Broadway Wheeler, head, slight. F. A. Leonard, who has been spend. hotel. Third-After thus abusing her nervous and sick, he, in the presence of another woman, had copulation with her against her will.

He has, she says, at other times been guilty of acts of cruelty toward her by striking, beating and threatening to kill her, and by reason of his ill treatment there is a separation between them.

The husband owns real estate in Salem. She asks in connection with the divorce reasonable alimony, custody of her children and the court require him to provide for their maintenance and education.

#### Hunting For Men.

Eagan Denied Such a Charge-Canned Meat Condemned by Some Witnesses at the Inquiry.

WASHINGTON, Feb. 25 .- Former Commissary General Eagan concluded his testimony before the court of inquiry, explaining the provisions of contracts for beef supplies to the armies in Porto Rico, Cuba and the Philippines. He very vigorously denied any knowledge of any chemical treatment of beef to preserve it and disavowed any connection whatever of the government with any such treatment. He further defended the canned roast beef, explain-William Brown left this morning for ing why it had been sent to the troops, an experiment or pretense of experiment, suggesting General Miles' famous allegations that precipitated the Eagan courtmartial, the former commis-ary general, with great dignity and emphasis, replied sweepingly in the

General Eagan was followed by Ma jor General B. M. Young and oth rol ficers who were in the Santiago cam paign, and by officers of the subsistence epartment. The refrigerated beer wa commended while the canned roabeef, on the whole, rather suffered as

Philadelphia's Expenses.

The estimated expenses of the city of Philadelphia for the year 1899 are \$31, 400,000, the chief item of which is for education, the police expenses being \$3,. 100,000 and the fire department \$1,000,-000 New York has, approximately, three times as many inhabitants as Philadelphia, and its police department costs nearly 812,000,000 a year.

#### BURNING. MORE

Pilipinos Didn't Disturb the man was killed in the trenches Friday. People of Manila.

#### **\*CCASIONAL VOLLEYS WERE FIRED.**

Punches of the Enemies Sent In Shots From Various Points Along the Line Ostside-Dewey's Request For the Oregen-Many Casualties Among Natives.

Manila, Feb. 25.—(10:15 a. m.)—Despite the threats of the Filipinos to burn the business center, the inhabitants of Manila were not disturbed last night. There was not a single incident worth recording from the time when the streets were cleared until day dawned this morning.

Everything was equally quiet along the line outside, except for occasional volleys from bunches of the enemy at various points.

The enemy were most active along General King's and General Ovenshine's line, from the beach to Pasig. but a few volleys of musketry, supplemented by shells from the Buffalo, effectually quieted them.

Washington, Feb. 25.—The cabinet gave some attention to Dewey scable; message relative to the political importance of sending the Oregon at once to Manila. The conclusion reached was that too much importance should not be attached to it; that Dewey wants the big ship to influence the Filipinos | not last. through fear. Secretary Long said when asked for an explanation of the reference to political reasons in the dispatch: "I am sure that it has no international significance. You may state that positively. Probably he wants a fine ship there, as the American commissioners are about due, and it will give weight to the American representat ous.

It was suggested from other naval sources that Dewey wants the Oregon to release a number of the smaller ships of the fleet for other work. He had been planning a tour among the other islands than Luzon with the purpose of establishing the authority of the United States among them. It is also necessary to establish a close blockade to prevent the insurgents from receiving supplies. These projects require for their execution a number of ships. Dewey cannot spare them at present, but when the Oregon got into Manila harbor she will be sufficiently formidable to insure the protection of the entire harbor in conjunction with the two big double-turreted monitors Monterey and Monadnock. The remainder of the fleet then will be free to carry out the projects. While these three armored ships are lying in Manila bay there is no tear that any force can enter or pass out without

These messages were received from Dewey:

their consent.

"MANILA, Feb. 24. "For political reasons the Oregon should be sent here at once.

"DEWEY." (Signed) "MANILA, Feb. 24. "Yorktown arrived. Charleston and

Petrel cruising around the Philippine Islands. Affairs more quiet. (Signed)

The Oregon sailed from Honolala, Feb. 12, it is thought for Manila.

General Otis cabled the war department as follows:

"MANILA, Feb. 24.—Scandia arrived last night. On nights 21st and 22d and yesterday morning insurgent troops gained access to outskirts of city behind our lines. Many in hiding and about 1,000 entrenched themselves. Completely routed yesterday with loss of killed and wounded about 500 and 200 prisoners. Our loss very slight. City quiet, confidence restored, business "Oris. progressing. (Signed)

MANILA. Feb. 25.—Owing to the wholesale arrests of all suspected Filipinos Thursday and the clearance of the streets at 7 o'clock Thursday night the threatened renewal of the scenes of the previous night did not occur. With the exception of a few shots fired in the neighborhood of the penitentiary the city was as quiet as possible.

Outside Manila the rebels were very active. Near Caloocan, the brigade commanded by General Harrison Gray Ous had several lively skirmishes with the rebels. But at daylight the enemy were driven back with severe loss.

The feeling in this city was much improved and business generally was resumed. Excellent order was maintained by General Hughes' police force, which was universally commended.

The United States transport Scandia, with the I wentieth innantry on board, arrived here from San Francisco, which

port she left on Jan. 26. All auties on importations of fresh fruits, vegetables and meats had been

temporarily suspended. Orders had been issued to enforce the provisional customs tariffs at lioilo and the following officers had been appointed to conduct the civil affairs of lloilo: Major Theodore Stomberg. treasurer; Captain J. T. Evans, collector of customs; Ensign L. H. Everhart, port captain; E. C. Hatch, Eigh-

teenth infant. y, collector of revenue. The enemy's sharpshooters had been particularly active about Caloocan all day. Special attention was paid to the three gun bactery near the railroad and the improvement of the rebel marks- Blessing to the Church?"

mansinp was very nonceaute. The rebels fired volleys at the battery, their bullets frequently skimming the tops of the sandbags. A lieutenant of the Twentieth Kausas volunteers and three others men were slightly wounded. A

The rebel battery had not been used rince a shell from the United States couble-turreted monitor Monadnock exploded over it Thursday.

The enemy's fire was so hot, during the night, in the vicinity of the Higgins House, that the headquarters was removed to a church 400 yards inside

The Twentieth infantry was being disembarked from the transport Scandia. The regiment likely will be encamped on the water front, at the former quarters of the Tennessee volunteers, temporarily.

#### TRADE NEVER BETTER,

Dun's Review on the General Situation. Gain Astonishing In Some Industries.

NEW YORK, Feb. 25.-R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

The situation is without precedent. Business has never been better on the whole, and in some great industries the gain is astonishg. Exports surpass last year's as much as noorts, though the excess over imports then as beavy. Failures are smaller than last ear and smaller than in either of six years ast. Stocks are stronger, the average for the native railway securities being a little higher d for trusts much more owing to the exaordinary a lvance of \$48,75 in tobacco. Payments through exchanges show a greater volume of business than ever before at this season, and nearly one half larger than in the t of previous years. The outgo of breaduffs and cotton continues heavy. But there are some who fear that such prosperity can-

Popular impressions have to be reckoned with because they control events. Yet at every point of danger except one the signs are in every respect favorable. The upward rush of 16.5 per cent in the prices of pigiron since Jan. l and 17.6 per cent in prices of iron and steel products does indeed raise a question whether exports of such products may not be temporarily checked, but if they could be entirely stopped, as they are not, the balance due this country would still be large. The crush of demand for finished products, at a time when nearly all the works are crowded by orders covering production until July 1 or later. causes many to refuse to contract beyond that date except at higher prices, and a rise under such circumstances may prove the one thing needful to sober buyers and to bring into the list of producers other establishments heretofore idle.

While a fairly large capacity of production is still in reserve, the demand now pressing for cars, vessels, bridges, buildings and pipes is partly to anticipate an expected rise in prices. The best sign is that great producers appear to be anxious to maintain their hold of foreign markets, although just now unto take orders for future delivery.

Little weakness is there seen, except for fleece and in quarter and three-eighths blood and combing wool prices are generally strong with scarcity of supply, but sales for three weeks have been 18,050,200 pounds, against 34,-753,500 pounds two years ago with free wool and 17.005,200 pounds in 1892.

Wheat has gained only 1% cents in price, although Atlantic exports, flour included, have been 2,567,334 bushels, against 3,030,417 bushels last year, and including other exports, 3,279.736 bushels, against 3,656,793 bushels last year. The exports have been so heavy that many doubt their continuance and yet grain comes from the farms and then goes abroad as if such doubt had no basis. The western receipts during the past three weeks have been 9,376,473 bushels, against 7,335,426 bushels

last year. Corn has gained but one-half cent, with smaller demand for export, although its outward movement will be quite beyond precedent, but for last year. In three weeks the

10.931.774. Failures for the week have been 191 in the United States against 233 last year and 40 in Canada against 30 last year.

## BULGARIA SAFE IN PORT.

The Steamer, Thought to Have Foundered, Reached the Azores.

PONTA DEL GADA, Azores, Feb. 25 .-The Hamburg-American liner Bulgaria reached this port. All on board the

Bulgaria are in good health. The British tank steamer Weehawken arrived at Ponta del Gada on Feb. 12, with 25 passengers which she had taken off the Bulgaria. The Bulgaria was spoken by the Weehawken on Feb. 5. She was pronounced to be in a sinking condition. She had a crew of 98 men and carried 41 passengers. The Weehawken lost sight of the Bulgaria during the night of Feb. 5 and was obliged to proceed. The rescued passengers of the Bulgaria reported that the cargo of the Bulgaria shifted, throwing the steamer on her beam ends and that although a quantity of her cargo was jettisoned the crew were unable to right her. During the gale 150 horses were lost from the Bulgaria and a boat with five men in her went adrift. These five were rescued and brought to the United

States by another vessel. The Bulgaria, it appears, stopped about 11 days, during which she was engaged in repairing her macninery and rudder. She lost one man during

the operation. The British steamer Antillian, Captain Fost, from Liverpool, on Feb. 4, for New Orleans, attempted to take the Bulgaria in tow, but gave up the task. The Bulgaria eventually proceeded

## United Evangelical Conference.

READING, Pa., Feb. 25.—At the United Evangelical conference Revs. C. S. Haman, B. J. Smoyer and A. M. Stirk were re-elected elders. Bishop Dubs delivered an address on the question, "Has the Lay Representation Been a

## COAL CONFERENCE.

State Operators and Miners Try to Agree.

#### LITTLE PROSPECT OF SETTLEMENT.

Neither Side Showed a Disposition to Yield-Miners Offered to Send Organizers Into West Virginia-Little Inducement to the Operators.

Columbus, Feb. 25,--The conference held here between the executive committees of the Ohio miners and operators developed serious differences. The operators of this state not having been a party to the interstate agreement at Pittsburg are not bound by it, and they had determined to secure the most advantageous terms possible by dealing directly with the Ohio miners.

At the conference they demanded a settlement on the run of mine basis in the Pittsburg district, which is 423% cents per ton. The miners insisted on the price under the Chicago agreement, which would be 47% cents per ton. Neither side showed a disposition to yield, and the conference adjourned until today, with the prospects for a settlement anything but encouraging. National President Mitchell and Vice President Davis were here to assist in the settlement.

The Ohio miners offered to send organizers into the West Virginia coal fields and endeavor to raise the price of mining there, but as similar efforts in the past had failed the offer of the

ROAD SOLD FOR \$4,000,000.

Hocking Valley Property Goes to the Morgan Syndicate.

COLUMBUS, Feb. 25.—The Columbus, Hocking Valley and Toledo railroad was sold here by R. R. Cowen and A. R. Humes, special master commissioners, to representatives of the Morgan syndicate, in furtherance of the reorganization committee's plan. There was only one bid, made by M. E. Ingalls. Jr., and George F. Gardner, the exports have been 6,915,567 bushels, against amount being that of the upset price, \$3,250,000 for the road, and \$750,000 for the Hocking Valley Coal and Railroad

> The two properties were knocked down at \$4,000,000. The stock of the Wellston and Jackson Belt line brought \$250,000 and two other batches of stocks \$5,000 each.

> immediately after the sale the reorganization con mittee and officials of the road lett on a special train for Cincinnati to appear before Junge Taft and have the sale confirmed, intending then to return at once to Columbus and complete the reorganization. The present receiver, M. Monsarrat, it is generally conceded, will be made president of the new company, and have charge of the operation of the road.

#### Prisoners In the Ice.

CLEVELAND, Feb. 25 .- Five men were imprisoned in a temporary water works crib several miles out in Lake Erie, and there was much apprehension felt for their safety. Enormous piles of ice covered the crib, almost hiding it from view. No communication had been had with the men for several days, and it is known their supply of provisions is short.

#### EGG FAMINE.

Retail Price Reached 50 Cents at Cleveland - Forty Cents at Pittsburg,

Where They Were Cornered. CLEVELAND, Feb. 25.—The egg famine has reacted this city and the retail price reached 50 cents per dozen. Many grocers were unable to obtain even a small supply and would-be purchasers in many cases were unable to get their orders fille . At some of the restaurants eggs have been erased from the bill of rare. Commission dealers express the belief that there will be no adequate supply for a week or ten days at least.

PITTSBURG, Feb. 25.-Eggs jumped from 21 and 22 cents a dozen to 25 and 40 cents a dozen since Wednesday in Pittsburg, Allegneny and asl the surrounding towns. The market was

cornered in a most daring rashion right under the very noses of the commission. dealers. H. D. Miller, a poultry and eggs dealer, hailing from Philo, Muskingum county, O., did the cornering and succeeded not only in buying up his own price for them.

Indianapolis, Feb. 25 .- An egg famine was on in this city. The retail price was 60 cents and the wholesalers were holding at 55 cents. The retailers hesitate to meet this price and were hopeful that shipments from Southern Indiana would soon bring the price

#### JOHNSON'S FIERCE PHILLIPIC

The Indianian Made a Sensational Attack In the House on the President.

Washington, Feb. 25.-Mr. Johnson (Rep., Ind.) delivered a most remarkable and sensational speech, in the house, arraigning the administration in bitter terms for its alleged imperialistic program. He referred in opening to the recent banquet at Boston attended by the president and members of his cabinet. He paid his respects to Secretary Alger, who, he said, had been retained in the cabinet despite his incompetency on account of his contributions to the campaign fund in 1896. Secretary Long also came in for his share of irony. He had the audacity, Mr. Johnson said, to repeat the baseless charge that those opposed to ratification of the treaty were responsible for the bloodshed in the Philippines.

The president's speech at the Boston panquet, Mr. Johnson declared, was the most disingenius that ever fell from the lips of a chief executive. "Apart from it's platttudes and professions of virtue; wounded, and Mr. T. Haslam slightly. it was," he said, "a carefully devised and studious misstatement of facts."

He likened the president to Peck-If the president really felt that con-

gress should determine upon the future of the Philippines, he asked why the president did not call congress in extra session and then keep his hands off. He charged that the president coerced the senate into ratifying the treaty; that he would not permit a vote on the Bacon resolution and only allowed the McEnery resolution, which meant nothing, to pass in order to lull the opposition of the country to sleep while he went ahead waging relentless war against a helpless people struggling for hberty

How the two-thirds vote to ratify the treaty was secured, Mr. Johnson said, only the president could tell. The peo-ple did not endorse the action of the senate. They would overthrow him

The true cause of the president's

change of attitude toward the Philippines, Mr. Johnson declared, was to be found in the demands of selfish capitalists. They were the gentlemen, he said, who had furnished the money for his nomination and election and he had no doubt they had already pledged him a renomination and re-election. He charged that these men had al-

ready seized valuable concessions in China which the acquisition of the Philippines would benefit. He said vast concessions had already been granted in Porto Rico and he had no doubt the board created by the president would farm out valuable franchises to Americans which properly belonged to the natives of those islands.

The speech did not raise about him the storm of his former speeches. Mr. Landis, one of his Republican colleagues from Indiana, briefly stated to the house that Mr. Johnson's constituents had repudiated him, and the two members had a wordy duel. Later in the day Mr. Marsh (Rep., Ills.) replied to some of Mr. Johnson's strictures, but the Republican leaders had evidently decided to ignore the attacks of the Indianan and no general reply was made to his speech.

#### CANAL AMENDMENT PASSED.

It Went Through the Senate With the River and Harbor Bill.

WASHINGTON, Feb. 25 .- The senate passed the river and harbor bill by the decisive vote of 50 to 3. A sharp contest arose over the Nicaragua canal bill amendment. A point of order was made against it that it was general legislation, but the senate, to which the vice president submitted the point, overruled it. It was then attacked as not being relevant to a river and harbor measure, but this, too, was overruled by the senate. Mr. Pettigrew (Rep., S. D.), Mr. Rawlins (Dem., Utah) and Mr. Teller (Silver Rep., Colo.) vigorously attacked the bill, their opposition being directed especially against the canal amendment.

Mr. Sewell (N. J.) delivered a speech in support of the Hull-Hawley army reorganization bill, in the course of which he deciared that the United States was now as much at war in the Philippines as it was with Spain when our army was before Santiago. He expressed the belief that it would require an army of 50,000 men to control the Filipinos and that we were likely yet to have serious trouble in Cuba.

Mr. Sewell said he never was in favor from the hotel. of keeping the Philipp nes.

Weather . .... For Today. Western Pennsylvania, Ohio and West Virginia - Generally fair, with rising temperature; light to fresh north to east

# FOREIGN CONSULS MET.

eggs in this locality, but also in getting | Result of Meeting Not Communicated to General Otis.

BRITISH CONSUL DIDN'T ATTEND.

One Englishman Killed by American Soldiers, Another Fatally Wounded and Another Slightly Hurt-Mistaken For Filipinos-British Bluejackets Landed.

MANILA, Feb. 25.-10:15 A. M.-The foreign consuls met yesterday to confer regarding commercial interests, but the result of their deliberations has not been communicated, it is understood, to the American authorities. The British consul was not present at the confer-

The shooting of two Englishmen and of Mr. Argentine, manager of the Andrews cotton mill at Tondo on Wednesday is generally regretted, but it is admitted that this was unavoidable. Instead of remaining in the stone basement during the excitement occasioned by the fires in the vicinity the trio leaned from an upper window.

Their white suites attracted attention of the American soldiers, who believing them to be natives firing from the windows, shot all three. Mr. Argentine is gead. Mr. C. F. Simpson is fatally

By permission of the authorities a party of blue jackets is landed every evening from the British cruiser Narcissus to act as a special fire brigade for wetting down the consulate and banks, as a precaution against the incen-

#### ARMY BILL REPORTED.

The New Compromise Measure Given to the Senate-Some of It's Provisions.

WASHINGTON, Feb. 25 .- The senate on military affairs reported the compromise army reorganization bill to the senate. One section reads as follows:

"That to meet the present exigencies of the military service the president is nereby authorized to maintain the regular army at a strength of not exceed. ing 65,000 enlisted men, to be distributed among the several branches of the service according to the needs of each, and raise a force of not more than 35,000 volunteer infantry, as he may determine, from the country at large, under general law, or from the localities where their services may be required with regard to citizenship or educational qualifications, and to form the same into not more than 30 regiments organized as infantry regiments of war strength in the regular army." Another section said:

"Provided, that such increase in the reguler and volunteer force shall continue in service only during the necessity therefor, and not later than July 1.

FOUR SOLDIERS DIED.

General Brooke Reported Deatks at Various Places In Cuba.

WASHINGTON, Feb. 25.-General Brooke

cabled as follows: "Death report Feb. 22:

"Havana-George W. Skellenger, Company K, Second artillery, Feb. 20, typhoid,

on hospital ship Missouri.
"Puerto Principe — Clarence Beneki,
Company C, Eighth cavalry, 22d, typhoid.
"Santiago—Charles M. Hanser, Company G, Fifth volunteers, 22d, malaria. Trinidad-William Bullock, Company A, Fourth Tennessee, 21st. malaria."

#### KIPLING WAS WEAKER.

Due to the Inflammation Increasing and a Continuation of the Disease.

NEW YORK, Feb. 25 .- The following bulletin was issued by Rudyard Kipling's physicians at 10:30 last night:

"Mr. Kipling, owing to added inflammation and a continuation of the disease, is a little weaker, but otherwise as at the last builetin.

"E. J. JANEWAY," (Signed) "THEODORE DUNHAM."

Dr. Janeway and Dr. Dunham were with the patient for about an hour and a half before issuing the above bulletin. Soon after it was posted Dr. Janeway came downstairs. He was asked if he could not add to the bulletin, but said he did not wish to say anything more. "Is the case likely to prove fatal, doc-

tor?" was asked. "The progress of the disease is less rapid than in a fatal case," was all the doctor would say, and he hurried away

Grovener's anoor Union Measure.

WASHINGTON, Feb. 25 .- Representative Grosvenor of Unio introduced a bill directing that government publications shall bear the imprint of the luterns tonal Typographical union.

## A METHODIST CHURCH

Will Probably Be Built In the Near Future.

LOOKING FOR A SITE

Officers and Members of the Organization Desire a Change and Have Taken Preliminary Steps-Schools are Crowded With no Hope of Relief Soon.

While several churches in East End have been making improvements upon their property or erecting new buildings. the members of the Second M. E. church have been thinking and saying nothing. This morning it was learned from the most reliable source that their thoughts were of a new church. The gentleman who ventured the assertion said:

"The matter of building a new church has been talked over by the board of trustees, and even by some of the members, but as yet nothing of a definite character has been decided upon. Work is being quietly done, and so far several building sites have been considered. Among these were lots in the Harker plat. Objection was raised to these from the fact that they were too far away from the center of the place. The ridge has been suggested as a suitable site, and it is probable will receive favorable consideration."

The Second M. E. church was organized 11 years ago in the building known then as the Episcopal chapel, with the following members: Mr. and Mrs. Henry Chambers, Mr. and Mrs. William Bryan, Mr. and Mrs. John Green, Mr. and Mrs. Reagle, Mr. and Mrs, William Finley and Mrs. Marsh. Messrs. Bryan, Green and Reagle are now dead. One of the old school rooms in Pennsylvania avenue was purchased for \$100 and the seats were bought from the colored church in this city. The first meeting held was a revival service, conducted by Doctor Williams, of the First M. E. church. At this meeting 120 conversions were made.

The present congregation numbers 240 members, and the church is free from debt.

#### Mud Was Very Deep

The cold weather has benefited the teamsters to a considerable extent in this part of the city. The warm weather caused the frost to come out of the ground, and the recent rains resulted in monials in England, but the more prac much mud being formed. In Mulberry street and Pennsylvania avenue the mud was at least five inches deep in some places while in other parts it was even deeper. Now that the ground is frozen pedestrians as well as teamsters are thankful.

#### Schools Filled.

The crowded condition of the schools in this part of the city will not be relieved this term as was anticipated. In the building in Pennsylvania avenue every room is filled with the exception of one, that which is taught by Miss Flowers. The rooms at Helana are filled, as is the Neville institute at Dry Run. The condition of the schools is the best evidence that the East End is growing, and growing rapidly.

#### Delayed by Painters.

The painters now working at the Second U. P. church will not finish their work tonight as expected, and the time has been extended until next week. The work of laying the carpet could not be commenced under such circumstances, and will not until the painters have finished. All the seats have been joined, and these will be placed in position as soon as the carpet is laid.

#### Lewellen Is Better.

William Lewellen, who was seriously injured by being thrown from a horse recently, is improving. His condition is such that it is thought by his friends that he will be able to resume his work within a few days.

#### One Man In a Mine.

The coal mine at Dry Run is not being worked extensively at present. Only one man is employed, and the owner is ill at his home. The vein is not a large one, but much coal remains to be mined.

#### Disappeared.

A prominent individual of this place has not been seen since the first of the week. No word has been received from him and his friends are becoming anxious as to his whereabouts.

#### A Stranger.

The many friends of Mr. and Mrs. W. A. Andrews will be pleased to learn that a little son came to their home in First avenue. Thursday night.

## THE EAST END. BERESFORD ON AMERICA

He Is Gratified With His Reception In This Country.

OUTLINE OF HIS OPEN DOOR PLANS.

American Prestige Is High, He Says. In the Orient-Our Reputation In the East Warrants an Alliance to Guarantee Freedom of Trade.

Lord Charles Beresford, the British commissioner who is on a semiofficial Topic For the Week Beginning Feb. visit to this country, is received with enthusiastic expressions of good will at every place he visits. To a reporter of an Omaha paper a day or two ago he

"I had expected the American people to take kindly to the idea of a commercial alliance that would lead to a better understanding in the far east and contribute to the development of better trade relations, but I cannot say that I was prepared for the enthusiastic reception I have received thus far from the sections of the United States I have vis-

Lord Beresford declared with emphasis that he believed the community of interest needed for the maintenance of open ports in China and the restriction of "spheres of influence" would be secured.

"I base my opinion of the success of this venture," said he, "not only on the enthusiasm displayed by American commercial bodies since my arrival. but from the letters and telegrams received from prominent men throughout the United States. Even while in China studying this subject I received letters from prominent Americans.

"I am gathering memorials, resolutions and other forms of expression of the commercial bodies of this country. Of course I will exhibit these testi-

LORD BERESFORD.

tical advantage will be the influence these gentlemen in America will contribute toward the forming of a wave of public sentiment that will have practical effect in urging the importance of the situation on the congress of the United States.

"I am especially desirous of seeing the chamber of commerce of Chicago take a determined stand in favor of this alliance. In New York I desire to secure about the same thing. I will also go to Washington and probably get some testimonials if possible from men of public prominence there. I am anxious to visit other cities of the country before I return to England, but am not yet sure I can do so.

"I find a difference of sentiment with reference to one phase of the proposition I am attempting to promote. That refers to the form of alliance between the nations that will undertake to guarantee the integrity of the Chinese empire. I have met many Americans who are unqualifiedly in favor of an alliance for defensive and offensive purposes, while others seem to prefer an amicable understanding between these powers, but not a formal agreement. The latter argue that the results can be obtained as well through a friendly understanding as by a formal treaty.

"This is a question that will bear careful discussion. My study of the proposition in the orient leads me to conclude that a formal alliance is the proper manner in which the subject should be handled. Community of interests is the mainspring of all national alliances. The subject matter for a community of action between America, England and Germany and 'Japan certainly exists. If a formal alliance is entered into between these nations it will be a notice to the civilized world of their determination to act in behalf of

"I want to impress one thing especially upon the minds of the Americans -that is, the vast prestige the great American republic has secured in the orient through the magnificent work of its army and navy against Spain. The battle of Manila Bay did more to impress upon the higher classes of Chinese the efficiency of modern methods in war exposition. -Philadelphia Press. over the methods used by effete nations than anything that could have occurred. Then, too, it gave the average Chinaman respect for the stars and stripes that they could have secured in no other way.

orient. It placed the stars and scripes in the front rank. Americans, of course. AN AL FRESCO DINNER. in the front rank. Americans, of course, appreciate the efficient work of their gallant admiral, but in the east the naval victory at Manila and the celerity Gotham's Costliest Banquet Givwith which the administration rushed vast bodies of troops half way around the world to support its navy had the effect of impressing upon many nations of the orient the boundless power of the great republic, the strength of the great nation on the other side of the world. which at a single bound has placed itself in the front rank of the powers of the world.

#### EPWORTH LEAGUE.

26, "Palm Tree Christians." Text, Ps. xcii, 12-15.

"The righteons shall flourish like the palm tree." Few objects are more beautifully majestic than the palm. The charm of the tropical landscape is greatly enhanced by the towering fronds of palms lifted high above the luxuriance of tangled jungles of shrubs and vines. So, says the Bible, does a Christian man appear in the mass of men. What dignity and power there is in a life like that of David Livingstone, of Bishop Hannington of Uganda, of Judson of Burma or of Chinese Gordon, of Havelock and the heroes of the Christian faith of many lands and times!

Whoever cares to know the truth can quickly assure himself of the fact that during the ages past as well as today the man who prospers most and the people who achieve most substantial success and progress are those who maintain the highest moral integrity. The man who disregards truth and the rights of others, the people who indulge in oppression, fraud and violence, may for a little while acquire an advantage over others, but in the long run they weaken themselves and will invariably fall.

Permanent wealth cannot be acquired by gambling or theft. Industry and frugality alone lay the foundations of stable fortunes. Experience teaches this, reason approves it.

Happiness is an element of all human advancement. No man or people are flourishing unless there are contentment of spirit and joyousness in the life. Happiness was never known to rest in the heart of one doing evil. No people can be prosperous and contented who are fraudulent and wicked.

Today in all the higher circles of trade the honest yard and honest dollar are recognized as necessities. Over all other considerations of self approval and the regard of fellow men rises the fact that the approbation of God is the most necessary thing to the human heart. He is pure and just and good. His blessing is on righteousness only. His mercies are over all, even the evil, but His promises of peace and prosperity are only to the upright in heart and life.

However iniquity may seem to abound no lie prospers and no fraud is stable. From the vantage ground of heaven we shall look back and see in human history that righteousness alone has been prosperous. "Trust in the Lord and do good; so shalt thou dwell in the land, and verily thou shalt be fed.'

#### What Is It Good Forf

Thistles and thorns have their place and worth, but the man who cultivates them in hope of harvesting grapes and figs from them loses time and labor. So some folks have started in the Christian way, thinking it yielded fruits of a variety different from what it does. 'Can a man make more money and make it faster by being a Christian than by not being one?" is a question not infrequently asked. "Is a Christian more prospered in business than one not a Christian?" These questions mistake the nature of Christianity and salvation. It is not possible for any one to confound a full pocktbook with love for his child, though the two may have close connection and profound influence on each other.

Religion of the right sort will make a man better in every part of life and work, but it is not of the nature of an insurance policy on his business prosperity. Righteousness in all his transactions and intentions, peaceableness and assurance of Divine pardon and favor and joyousness in consciousness of Christ as Saviour and God as Father, that is the nature of Christian prosperity. It is worth something, it is worth everything, for a man to have peace with God, whether he be beggar or billionaire. Religion is for the soul. It saves it. Prosper in all else and fail here, and all is lost.

FORTY FRIENDS AS HIS GUESTS.

Entertainment at the Waldorf-Astoria Excelled Anything of the Kind Ever Given In New York-Famous Lackmeyer Dinner of 1873 Outdone - Roses Bloomed, Birds

Beneath a vine clad bower, while nightingales sang and a fountain purled, Randolph Guggenheimer, president of the municipal council, gave a dinner the other night at the Waldorf-Astoria which in decoration and appointments surpassed any function of the kind ever ishes, vitalizes and builds up every organ given in New York. It set the mark above the Lackmeyer dinner of 1873. which has always been spoken of as the most costly feast ever served on Manhattan Island. That banquet was known as the "swan" dinner, because three of the sort of bird that rested upon "Still St. Mary's Lake" floated about a fountain surrounded by the circular table.

The dinner at which Mr. Guggenheimer entertained 40 personal friends was given beneath the spreading vine in a garden which exhaled the fragrance of the flowers of spring and rang with the roundelay of nightingales, blackbirds and canaries. Real grapes hung from the trellis beneath which the guests were seated, and flowers actually growing nodded at their

When the door of the myrtle room was opened, and the guests were bidden to enter a fairyland of spring, electric lights were turned on, and the air was filled with the notes of a woodland oratorio notes attuned to the throats of birds hidden in foliage. The flash of light was to them the breaking of another dawn. They greeted an artificial sun and a morn which was the beginning of night. From beyond was wafted the minstrelsy of stringed instruments. Softly glowed the light upon the garden. It was like the sunrise in the spring. The guests were walking down a garden path. Tulips raised their chalices where once had been a well waxed floor A bank of ferns bearing the dews of morn had upon the top the roses of June.

Between the hedges, along the path. walked the guests to a summer house. in the midst of a tropic jungle of palms It may have been called a grape arbor, save that the smilax twined itself with the vine. Full, round bunches of grapes hung from the leafy canopy. Over all was the light which came from Venetian lanterns. wrought from iron, after the manner which made famous the artificers of mediæval Italy. The electric light shone through panels and medallions of richly colored glass. From the leaves on the roof of the bower have. shone scores of electric lights so tiny that they hardly gave the suggestion of

color. Only two sides of the 12 sided arbor were open. The guests stood at the threshold, as if they were in an Aladdin's garden which would suddenly disappear. Before them was a circle which beamed with colors and light. There was a marge from which the white cloth showed; beyond were beds of flowers, and in the center of all a bronzed boy leaning against a stork locked with laughing eyes at a purling fountain. A sparkling jet rose to within two feet of the lamp which hung from the apex of the bower's roof.

The chairs were drawn back. The gnests sat down at a board which told them of what this old earth gives for the comfort of mankind. There was no lavish display of silver. There were instead flowers and fruit, the most perfect known to man. Bunches of grapes glowed on the white cloth. There lay corsage bouquets of pink roses and lilies of the valley and boutonnieres of white carnations. The menus were painted in letters of gold upon cocoanuts, from a part of the shell of which the rough fiber had been scraped away. The menus at the places for the women guests were printed upon fans.

Those who sat at that board could hardly keep their eyes from the beauties beyond the rim of white napery Here was a miniature garden, which seemed to grow before their eyes. From the edge of the basin of the fountain, more than two feet from what had been the floor, sloped a bed of tulips. Then the flower beds reached to the table. Upon the ascent bloomed roses, will be held at Stuttgart, Germany, and sometimes a daffodil would droop ders, glisten in the light and disappear Here is the menu

It Is Not Forgotten by Company E Soldiers.

THREE LOTS WERE RECEIVED

The First Was Buried as Being Unfit For Use, Some of the Second Was Eaten and the Third Was Not Altogether Good, Only a Memory Now.

The announcement in the NEWS RE-WIEW of last evening that an officer of the Eighth Ohio had stated that beef many years old had been issued to the regiment while it was in Cuba, recalled some things to members of Company

Among those who are in position to talk of the matter is F. L. Trump, commissary sergeant. He recalls many things in connection with the rations received by the company.

"We received three consignments of beef while in Cuba," he said, "all of which was more or less tainted. The first lot was so rotten that we were compelled to throw it away, and a good many dollars worth of the stuff was buried below Camp Lookout. The boys could not eat it, and it was quickly disposed of. The next lot did not seem so had and a part of it was eaten, but it was by no means what it should have been. Soon afterwards dysentery appeared in camp, and everybody who followed the fortunes of the activity at 62. When the army was regiment in Cuba knows the rests. The last shipment was received while we were at Santiago and was an improvement over the others but by no means good. Some of it was spoiled and unfit for use. The boys traded cans to the Cubans for almost anything they could get, yet it constituted the greater part of their ration.

"There may be something in this can story for the packages in which the beef was sent us were tin cans, old and rusty. They had the appearance of having seen service for a long time, and 62 when he crossed the Rio Grande at were by no means the bright, attrac- the head of the American army, marchtive appearing tins put on the market here. I don't know how old they were, but the meat they contained was certainly too old for soldiers' use."

Gallant Deeds of Officers In Advanced Years.

THE LATE GENERAL G. S. GREENE.

His Case Was but One of Many In the United States Army-Generals of Threescore Years In the Mexican, Civil and Spanish Wars.

his ninety-eighth year, belonged dishis contemporaries on the Virginia and Tennessee battlefields have been actively campaigning from 1865 up to the compelled by age to put away the sword more than a generation ago. but intrepid line on Culp's hill, Gettys-

Strange as it may seem to readers unin the annals of the American soldier. The present commanding general of Henry will reach the age limit ahead of Miles. Lee and Wilson are his seniors, and so is Wheeler, who is a marvel of marshaled for the war against Spain, all the major generals of the line, except Wade, and not fewer than 100 subordinate officers were older than

Threescore years or an age approaching it is a common one for American leaders. When Winfield Scott stood upon the dome of the castle of Chapulte pec, directing his battalions in the attack on the City of Mexico, he could look back 34 years to the day of his first battle wound. And General Zachary Taylor, who initiated the Mexican war with all the fiery ardor of youth, was ing to Buena Vista and Monterey. And it was only last year that all the world applauded the spectacle of Dewey, in his sixty-first year, smashing Spanish sovereignty in the Philippines, but he was simply bringing to fruit, late in life, lessons that he had himself learned back in the sixties, sailing under Farragut, then a veteran of more than A larger number of tramps than usual threescore, having a record of almost

It is interesting to contrast the ages of the distinguished leaders in the civil | his own. war. Gray hairs were on the side of the Confederates in those commanders who fought brilliant campaigns. When the conflict began, Grant was 39; Burnside, 37; McClellan, 35; Sherman, 40; Meade, 46; Hcoker, 46; Thomas, 45; Rosecrans, 42; Buell, 43; Sheridan, 30. Of the foremost southerners Lee was 54; A. Sidney Johnston, 58; Joseph E. Johnston, 54; Stonewall Jackson, 37; Longstreet, 40; Beauregard, 44; Bragg, 46; Hood, 31; A. P. Hill, 36; J. E. B. Stuart, 28; Forrest, 40. The crime of being a young man was not lightly passed over in Washington surely, for it was held that Sheridan was too youthful to be appointed colonel of a cavalry regiment when he was 31. Women's \$3 shoes, choice of Miles received the same sort of rebuff at the Boston statehouse when he asked to be commissioned captain of a hundred patriots who had elected him their leader at the age of 21. Young men were coming to the front in 1865 because of the immense armies in the field and the lack of trained old heads to take the lead. For that reason the highest battlefield valor has been associated with names like Sheridan, Stuart, Custer, Kilpatrick, Wilson, the fiery Cleburne and John B. Gordon, who were all under the average age for commissioned officers as it stood in the last year of the war.

But long before that the gray locks of fighting warriors had been conspicuous on scores of bloody battlefields and the bullets of Yankee and Confederate spared them not. General Leonidas Polk, the ex-bishop, known as the Surpliced Warrior of the South, was killed in the defense of Atlanta at the age of 58; Mansfield, in his sixtieth year, fell at Antietam while deploying his army corps, regiment by regiment, for a was 57 when he leaped his horse over the fighting Second corps of the Army of the Potomac when he was 66 years on account of his fiery ardor in battle. Old Bull of the Woods, had reference We are selling our men's \$5 to his impetuosity when the hour came

That Dewey had many gray haired compeers in the battles against Spain is shown by the long list of veterans who made history for the army at Santiago. First to fall was Colonel Wikoff, a soldier who had held a commission in years, is suffering with an attack of the the regular establishment for more than 37 years. By Wikoff's side almost when

killed was the second in command of the First brigade, Colonel Worth, with nearly 40 years of service to his credit. Worth fell within a few feet of his dead chief. Next in rank came Lieutenant Colonel Liscum, who at that moment was climbing the rough hillside at the head of his negro regiment. That young staff officer. Charles E. Tayman, mentioned in the official reports as the breathless messenger sent by Colonel Kent to summon the Seventy-first to the front, owed his breathlessness to a race after Liscum to tell him that the command of the brigade devolved upon General George Sears Greene, who the start of Tayman at the bank of the him. Licum was 58 and hadn't much died at Morristown, N. J., recently, in river, but the youngster nearly gave out before he could deliver the message tinctly to a bygone era. While many of Almost instantly the old man disappeared in the tall grass, wounded, but gray hairs were still in evidence on that part of the field. Major Ellis and Major present day, this representative of the Auman of the Thirteenth, charging old army and of the armies of 1861 was abreast of Liscum's colored troops, were war veterans hard crowding threescore. They went down before San Juan block-When he waved it in front of his thin house was reached. Then Colonel Ewers of the Ninth, a graybeard who had burg, in 1863, he was 62 years old, or fought in that regiment under Grant within two years of the retiring age for as far back as 1862, took command of the victorious line.

Meanwhile, just to the right of Wifamiliar with the subject, the case of koff's brigade, Hawkins, a soldier who General Greene is but one of many began his career in 1852, was leading on the Sixth and Sixteenth, under Egbert and Theaker, graybeards who the United States army, Nelson A. were to fall outside the breastworks. Miles, fought his first battle almost 38 Hawkins crossed the trenches and was years ago, but he is today the youngest shot the next day while repelling the of the more distinguished survivors of | Spanish counter assault. Next to Hawthe civil war now in harness. Brooke, kins Wheeler was the oldest man on Merritt, Shafter, Merriam, Otis and the firing line, and how valiantly he battled until the victory was won has been told.

It should be noted that with one exception every regiment, battalion and squadron of the regulars engaged at San Juan went into action led by a veteran of 1861, and the ten generals and field officers who were victims of Spanish bullets in that battle were close to 60, while some, notably Hawkins, had passed the threescore mark by a couple of years. -New York Sun.

#### HE UPHELD SUICIDE.

#### A New York Magistrate Who Thinks

Self Destruction Is Justifiable. When a 16-year-old boy charged with attempting to take his own life was arraigned before Magistrate Wentworth in New York recently, the magistrate startled the court attendants and few spectators by declaring himself in favor of suicide.

Policemen, clerks and court habitues were looking for the usual lecture on the enormity of the offense and were unprepared for the radical announcement that came from the bench.

Congratulations were extended afterward to the prisoner on his good fortune in being haled before a judge whose views of life and death were similar to

Matthew Mohr, who has been in this country only a short time, and had been apprenticed to a Brooklyn baker, lost his place and was unable to find another. He became despondent and decided to kill himself. He went to a hotel and, after writing a note saying he had nothing to live for, swallowed a little carbolic acid and turned on the gas. A chambermaid noticed the odor of escaping gas, and the young man was pumped out at the hospital.

clemency. Magistrate Wentworth said:

"This is a sad case. I believe in suicide, and I think every one has a right to shuffle off when he has nothing in life left for him. When I get so that moons, and as true as I live it came to there is nothing left in life for me, I pass

think that is what I shall do." The magistrate then turned the boy over to his sister, who took him home with her. When asked later if he thought suicide justifiable, Magistrate Wentworth said:

"That is not the question. I believe in suicide. That is all."

Other magistrates have been lenient in punishing persons who, after attempting to take their lives, have manifested regret, but Magistrate Wentlife rests with the individual. Attempted suicide is a misdemeanor under law in New York state.

THE WITCH VILLAGE.

#### A Name That Keeps the Memory of Three Old Women Fresh.

Possibly Hexenshded'l, Pa., is the only settlement in the United States that has for its name "witch village, for that is the meaning of the Pennsylvania German word Hexenshded'l. The village is a century old, and the practices which gave it its name are nearly as old. A man 92 years of age, a former resident of the neighborhood, gave this version of the origin of the name:

"It must have been 75 years ago," he said, "when we young men heard of When he was arraigned in court, his a politician who came down from Lebsister and her husband made a plea for anon to consult a woman on the mountain side as to whether he was going to be elected. The old woman told her visitor that he would win, but would die before he was in office three

"Most people are too young to remember that. That old woman was then 70 years of age. She wandered all over South mountain. She had a dead cheek-that is to say, she had a mark that was said to be the print of a witch below her left eye. Wherever a witch touches the flesh dies. She said she received her mark on the night she became a witch, and ever thereafter she, too, had the power of putting a blight upon living flesh wherever she touched worth is the first one to excuse the act | it. She had two female friends, middle and to declare that the right to end | aged. It is safe to say they had never read or even heard of Shakespeare, but when together on the hill in the moonlight, with their canes and hoods, they resembled for all the world the three witches in 'Macbeth.' These women knew the Bible from end to end-that "We call this," said the middle aged is to say, everything in the Old and the ed to the black art. People were afraid of her and her companions. They were glad enough to let them alone, just so they'd be let alone and not have a spell get out of a chair. Finally the father of the girl came down from the mounes at a spring. He determined to face her. She was dipping water into a wash boiler, and he volunteered to carry the boiler down the hill to her hut, which has long since crumbled into ruins. She accepted his offer. When they reached her door, she laughed in an unearthly manner, made a couple of signs by swinging her arms and exclaimed. 'She's well again.' When the man reached home, his daughter and the whole family were singing a hymn, for the girl was well and strong as usual That was only one of the very many

stories told in olden times. If the win dows in the hamlet rattled at night when there was no wind, the people believed the witches were abroad. If one farmer's corn disappeared from his crib and was found scattered over the fields of a neighbor, it was the work of the witches. I can well remember when a farmer made affidavit that half his well filled haymow had been spirited away at night, and the farmer who discovered it in his wagon shed the next day was kind enough to haul it back where it belonged. No. it was not stolen, depend on that. My own grandmother declared to me that her bake oven was so bewitched at one time that no fire would burn in it. She sent word to one of the witches on the hillside that if the spell was not removed the hags would have to quit the neighborhood. That night the family heard an unearthly yell. Looking out of the window on the moonlit snow scene, they could see nothing. The next bake day that oven was all right.

#### United States Wheat In Spain.

Theodore Mertens, in charge of the United States consular agency at Valencia, writes as follows:

"The great demand for wheat in this country and the present low price of this article in the United States offer a rare opportunity to our grain exporting merchants to sell large quantities to Spain until her own crops are ready for market. A steamer cargo of 4,000 tons of red winter wheat has just arrived here from New York, which has proved satisfactory, and importers are willing to receive more during the winter or spring. The price seems to compare favorably with that of Russian wheat (the kind generally imported here when there is a demand for foreign wheat), although American wheat pays 20 per cent higher duties than grain from countries which have a commercial treaty with Spain. This is the first direct shipment from the United States to this port since the war.

#### A Manila Attraction.

The following advertisement appeared in a recent number of the Manila

"The Hoffman House cafe-the only American bar with American proprietors in the city where a sparkling fountain is that makes the place as cool as a winter's day in Alaska. There you will find the best kind of Old Government whisky, rye and Bourbon. Eggnogs and American cocktails a specialty Beer and English ale on draft (ice cold). All come and spend the afternoons and evenings and listen to the sweet strains of music from the piano discoursed by a capable performer.

The Book Committee Will Wind Up Its Affairs.

SUPT. RAYMAN IS AT WORK

Progress Was Made at the Meeting Last Night, But In Order to Have the Books Placed In the Library Very Soon Another Plan Was Adopted

It is expected that the committee appointed to select books for the public day. Among the number that passed library will have its work completed next Monday evening.

A meeting of the committee was held in the office of Superintendent Rayman at Central school last night, and some progress made. It was decided, however, to adopt another and what believed will prove a more rapid method of transacting the business on hand. Mr. Rayman was empowered to select the required number of books and report the list at a meeting to be held in his office Monday. The committee then adjourned.

Mr. Rayman is hard at work today and hopes to have the list complete at the appointed time. His selection are of fiction, economics, history, poetry, science, general literature and juvenile literature. A number of reference books will also be included.

The library directors met last evening, but transacted no business of importance beyond paying a few bills.

ONLY AN ICICLE,

Nervous.

o one of the most popular and best known business men of the city found that someone was stealing his chickens. He purchased the best lock he could buy and put it on the coop, but it proved no barrier. At length he decided to take a personal part in the game, and, stretching a wire from the door of the coop to the house, fastened the end to the sensitive trigger of a bell in such manner that tightening of the wire would cause the bell to sound.

One night the bell rang out its alarm, and the young man sprang from his bed, hastily pulled on trousers and slippers, and catching up his revolver ran to a window where he could comin operation have all they can do. Trade mand a good view of the coop. Then he waited. There were no more alarms, and all seemed quiet at the coop. When he was beginning to grow restless and to shiver, a streak shot down almost before his eyes and the bell sounded

It is not recorded that he swore, but he quickly kicked off his slippers, put aside his revolver, removed his trousers and went to bed the most disgusted man in town. The wire passed under the eaves, and it having commenced to thaw icicles were dropping from the roof, The reports that Secretary Alger is to striking the connection and ringing the

Should the Trust Fail to Materialize.

PROFIT IS ALMOST ALL HERE

Some Surprising Information Brought Out by the Investigation of the Experts. Where New Potteries Will Be Built--Big Advertisement For Liverpool.

"I don't particularly care whether the trust becomes a reality or fails, the fact remains that East Liverpool has been given the greatest advertisement in its history and any benefit arising from this agitation of the past six months will come to the west."

The speaker was a man who is very well acquainted with the potting industry and its affairs. Continuing he said :

"Some surprising facts were brought to know that 85 per cent of the profit realized was reported from the west, while the east gave the remaining 15 per cent. The bulk of this was from East Liverpool, showing that the manufacturers here can make money where the Trenton fellows would be out of

"You can see what a boon this will be for Liverpool if individual enterprise is to control the industry. The city and the industry has been widely advertised. Men who have money to invest in manufacturing will naturally turn to potting as a safe return for their money. They will, of course, go to the centers, and Liverpool having the best showing will attract the majority. I think it will not be long until we hear from the advertisement in a most substantial manner. You know that old expression about town, 'Trust or no trust, things will come our way.' "

Commissioners In Session All of Today.

Who Are Opposed to Their Property Besoming a Part of the City, While Solicitor McGarry Pointed Out the Advantages of Agnexation-Some Compromises.

The county commissioners yesterday afternoon in company with Engineer George viewed the territory which proposed to be annexed to the city.

This morning at 10 o'clock they met at city hall for the purpose of hearing the evidence and arguments for and would have to pay. He made a lengthy against annexation. A number of the property owners were present, and they were represented by Attorneys Grosshans and Hill while Councilmen Marshall, Peach and Stewart were also present and Solicitar McGarry looked after the interests of the city.

to going over a plat showing the terris erty and residence of Mr. Fisher, and he tory annexed, while the councilmen and was one of the men in Columbiana engineer debated the question in the office of Engineer George.

An effort was made to compromise on Columbian park by taking in the race by stating that he thought the line track and leaving out the remainder. This Attorney Hill refused to accept, of Lisbon road. and Commissioner French stated that the way the board of commissioners felt ject of the city was not to get the adit would be wise for him to accept the ditional taxes. He stated that it was compromise.

Shortly after 10 o'clock Doctor Marshall appeared and stated that council council did not hold that they were gowas ready to proceed, as their last ing to improve to the door of Mr. Fisher proposition in regard to Columbian park at the present time but they thought it had been rejected.

The council practically decided to farms in East End, all of the land west and said the fact that the city had exof Lisbon road and take in but 150 feet pended \$12,000 on the road was an arguof the Anderson farm which lies east of Calcutta road.

The Columbian park people refused to accept the compromise and it was de- hour for dinner. cided to go on with the original line.

gard to the Anderson farm a compro- of Columbian park, as the others were mise had been effected for the taking in satisfied with the compromise. of 150 feet lying east of Calcutta road, along the base of the hill along a prop- needed the taxes. erty line between the Anderson and Boyce farms to property of H. R. Hill. Then cross the road and follow a section line and along this line to Smith's Ferry road near Dry Run. This takes in part of Dixson and Lake farms.

Attorney Hill wanted to know if 150 feet was equitable on Calcutta road why was not the same equitable on Pennsylvania avenue.

Commissioner French said they were very glad to accept the compromise, and that matter was settled.

next. It lies west of the Calcutta road, small patch north of the section line. across from Riverview cemetery, and he thought it should be left out. They heard his story and proceeded to the farm of M. O. Fisher. The statement was made that it would be well to leave out the cemeteries.

There was a decided kick on this, and the first argument of the day com-

menced. Solicitor McGarry made the statement for the city, and said that counsel for M. O. Fisher would urge that the cemeteries should be left out, but the council was willing to run the risk of them becoming a charge in 50 or 100 years. He said that 18 acres were north of the cemeteries, eight acres of which had been laid off in two and three acre strips and sold at from \$200 to \$300 an acre. The 15 acres upon which the homestead was built was equally valuable while across the road was land lying adjacent to Pleasant Heights upon which had been built several houses of a modern style and the

vicinity was well populated. The solicitor then quoted from a su preme court decision where property was annexed to Toledo when it was separated from the city proper by the Maumee river. The solicitor claimed that Mr. Fisher was enjoying the bene ats of improvement in the city and his property would be made more valuable by the improvements of Lisbon road. apon which \$6,000 would be spent, and some of his land had already sold for \$350 an acre. A Wood Center case was cited.

Attorney Grosshans, representing M. O. Fisher, said he conceded the right of the commissioners to take in the territory but whether it was the proper thing to do was the question. He argued that it would be of no benefit to Mr. Fisher as the city had nothing to offer him for the 13 mills additional taxes he

It is singular that any person will take the word of an irresponsible traveling agent or canvasser for some unknown baking powder, as against the scientific reports of eminent chemists and medical authorities. The Is Causing no Small Amount of ATTORNEYS ARGUE FOR CLIENTS canvasser has no actual knowiedge of the subject, and simply commits to memory a plausible argument concocted by the parties most interested. On the other hand, it is notable with what unanimity the real authorities commend Royal Baking Powder as the superior of all others in wholesomeness and purity.

and strong argument for his client and closed by stating that Mr. Fisher would not derive one benefit from the city and the only thing the city desired was to collect 32 mills instead of that which he now pays. He said another reason the city wanted the 18 acres was The commissioners spent some time because it included the personal propcounty who paid taxes on \$10,000 personal property. He also argued that the cemeteries should be left out. He closed should not extend beyond the south line

> President Marshall stated that the obnot practicable to leave out one side of road and take in the other, and that best to take in both sides of the road.

Solicitor McGarry replied to some of leave out the Dixson, Dobbs and Lake the arguments of Attorney Grosshans ment in favor of annexing the terri-

The commissioners then adjourned an 2nd.

Solicitor McGarry, at the afternoon Attorney Grosshans stated that in re- session, argued long for the admission

Attorney Hill thought no land north from the northwest corner of Riverview of Pennsylvania avenue should be accemetery to Anderson's lane, or present cepted, adding that only eight councilcorporate limits. Then follow line east men wanted annexation because they

He entered a protest against taking pital. the park into the city. Mr. Peach proved. stated he thought the park should be considered, as the stockholders were the most interested in the improvement of Pennsylvania avenue.

The commissioners were in executive session a short time, and according his son, Dr. A. B. Holland. to their decision the line was so changed as to leave out the house and 10 acres of the land of M. O. Fisher, but no change was made in regard to the property of Alfred Fisher. It also The property of Alfred Fisher came takes in all of Columbian park except a

#### SOME DRUNKS.

They Were Disposed of by Mayor Bough Today.

Only one man was arrested last night but since yesterday afternoon two men have been placed behind the bars.

During yesterday afternoon Charles Carragher got drunk, and walking to city hall told the mayor he could not keep sober. He thought he would come down instead of bringing out the patrol which he considered unnecessary work. Officer White put him in jail, and when he was brought out this morning he was fined \$9.60, and committed to the workhouse until the amount was paid.

Hiram Bourne was another individual that Officer White gathered in. He, like the former case, was just drunk. He was assessed \$9.60, paid the amount 7:30. and went away happy over the fact that he escaped a greater fine.

Hiram Scott, who was fined \$9.60 yesterday, is still in custody. Mayor Bough stated this morning his chances for paying the amount seemed slim, and it is probable he will go to Stark county before many days.

The belting which Mr. Patterson, of Wellsville, was after yesterday has not been delivered to its owner by the authorities in this city. Mayor Bough stated this morning he knew where the officers could obtain the goods when ever they were wanted. It is probable no arrests will be made. When asked why the belting was given the boys when they were released the mayor stated he did so because they said it was

The police officers have been on daty all night during most of the week. None of them will say what they are after, but it is evident some big game will be bagged before many days.

A SOLDIER AND A GENTLEMAN.

The Personal Story of the Man Who Has Led Our Flag to Victory In the Philippines-He Is Both Courageous and Tactful.

General Elwell S. Otis, the military many years of arducus service for the national guard, his first military record as an officer dates from September. 1862, when he was commissioned as a captain in the One Hundred and Fortieth New York infantry.

him as its own, for, though he was eral Merritt, was not slow to express born in Maryland, he was trained as a the satisfaction he experienced in havlawyer and practiced in the courts of ing under him so capable an officer. New York city in the earliest years of | That his feeling was shared by the adhis manhood. When the second call ministration is shown by the words of was made for troops, he sacrificed a President McKinley. When the first lucrative profession and at the age of 24 official news came of the attack upon took up with an eagerness and an ardor | the American forces, the chief executive that have never failed him the career of is reported to have said to Secretary a soldier, whose earliest baptism of fire | Long of the navy was had in the hottest battles of the civil war.

services with the celebrated Fifth corps | nila than we can be, 7,000 miles away. of the Army of the Potomac. He participated in all the general engagements of that army from 1862 to 1864, commanding at one time its regular brigade during the operations against Petersburg, Va., and later during the untiring work these soldiers were called upon to exert near the Weldon railroad.

On Oct. 1, 1864, he was severely wounded and placed upon sick leave. and for months he was an invalid, whose sufferings were intensified by the fact that he could not be at that front bishop thanked the pope for this proof of action where he always desired to go. Indeed, for years insomnia afflicted him as the result of this wound, and it is marvelous how much he accomplished. despite the sufferings he endured.

The shot was received at Weldon Road, Va., the ball entering his face to the left of the nose and passing out just back of the ear. The wound has never fully healed, and yet, despite its rackings, he is ever the patient and courteous soldier, ever the hard working, pereistent man of affairs.

Because of this physical incapacity for the field he was honorably mustered out in January, 1865, and received new brevets for gallant and meritorious services at Spottsylvania and at Chapel House, Va., his higher brevet of brigadier general of volunteers dating from July 28, 1866.

But his heart was wedded to the profession of arms, and his reputation as travagancies." a cool and skilled and persistent officer was so great that on the reorganization of the army he was appointed lieutenant colonel of the Twenty-second United States infantry, one of the best of the new regiments ordered for the regular establishment.

He took up the new work valorously. He became an untiring student of military affairs, and in turn was hailed as an acknowledged authority in the art of war. Nearly all his work from 1866 until he was ordered to Manila was done upon the plains, and good, honest soldiering it was. Whether subduing the hostile Indians or dealing with the vexed questions of the new settlers in unprotected regions, he was as brave as he was tactful. He was as gentle in the arts of peace as he was masterful in the practices of war.

He became skilled in frontier warfare, as Sitting Bull, most wily of all Indians, found to his cost and as that boy warrior, Aguinaldo, found the other day when he tried to catch napping this old Indian fighter, skilled in surprises, stratagems and ambuscades.

From 1874 to 1875 he was the inspector general of the department of Dakota, and you may be sure that the regiments of that command learned fast to respect and regard with an affectionate interest this untiring, just and pa-

tient officer of infantry. If he were asked what he considered his best work, he would probably say now, even in the light of his great success oversea, that he was most proud of his organization of the United States Infantry and Cavalry school. In Febru- from Manila, was introduced and ary, 1880, he had attained the coveted rank of colonel. Ever busy, ever earnest in good intentions for the country and particularly for his own branch, he gave all idle hours—and these were few -to the elaboration of a scheme whereby the infantry and cavalry would receive the benefits of modern training and be able at first hand to test the theories of war which concerned the battleships of the land force—the fa

mous infantry of our fighting line. The school was established in 1881 and he remained with it, nursing it in to a healthy growth, until 1885, when he returned to the command of his own regiment

He was remarkable always for on thing, and for this the army honore him. He never had a political "pull. and if he had had one he would no have known how to use it His who idea was to go where he was ordered

to welcome any work, to do exactly as he was told and to instill into all below him the soldierly instincts of prompt obedience, cheerful discipline and constant study of the art of war, so that First Newspaper Published by in the hour of trial they would not be found wanting. How well he succeeded is shown not only in his work around Manila, but in the reputation that the Twentieth infantry achieved

On Nov. 28, 1893, after 31 years service, he was commissioned as a brigadier general, the single star coming to him, if it ever did to any man, as the reward of duty well done. The whole army hailed his promotion with acclaim, and it is symptomatic of the hero of Manila, is a typical soldier who man's rounded nature that, though an has proved his mettle and his work in appointee from civil life, his brother officers who had the good luck to be country. A SUNDAY SCHOOL CELEBRATION.

The American Union Will Hold One In Philadelphia May 25.

PHILADELPHIA, Feb. 25.—The American Sunday School union, whose headquarters are in Philadelphia, will on May 25 celebrate its seventy-fifth anniversary in this city. Morris K. Jessup of New York is the president of the union. A special committee of arrangements has been appointed, consisting of Clarkson Clothier, chairman; W. H. Wanamaker, william G. Stoever and H. C. Gara of Philadelphia and Robert T. B. Easton and John N. Beach of New York, with J. H. Andrews as secretary and Elmer B. Stevenson of Iowa as assistant to the chairman.

The Academy of Music, one of the largest auditoriums of the city, has been secured for the meetings. Men of national influence have been invited to attend the celebration including President McKinley and ex-Presidents Harrison and Cleveland.

Y. M. C. A. CONVENTION

Various Papers Read-Sergeant Harry Palmer Spoke at a Meeting.

BUTLER, Pa., Feb. 25 .- The convention of the Y. M. C. A. got down to the regular order of business. The devotional services were conducted by S. M. Sayford of Boston, who took as his theme for a short talk, "Listening to God," reading the scripture lesson from Samuel, chapter iii, and the eighty-fifth

Psalm. Various papers were read. Fully 1,000 people attended the even-

ng services last night. Sergeant Harry Palmer, color bearer of the Tenth, who recently returned greeted with the Chautauqua salute. The sergeput spoke highly of the work of the Y. M. C. A. at Manila and of the colonel of his regiment, who, he says,

Said He Would Decline.

is the "greatest soldier on earth."

PHILADELPHIA, Feb. 25.—Rev. John W. Shanahan, pastor of the Church of Our Lady of Sorrow of this city, who it was announced from the papal delegation at Washington had been appointed bishop of Harrisburg, says he decline the proffered honor. He says he naturally feels complimented, but he positively will not accept, as there are many reasons why he desired to remain out."-Christian Instructor. in this parish.

#### Partridges Driven Into Barns.

In Morris county, N. J., partridges were driven by the recent heavy storm into barnyards to feed with the chickens. Dead quail and rabbits were scattered on all the clear places in the hills. | News.

## THE AMERICAN SOLDIER.

Our People In Manila.

BRIGHT AND NEWSY PUBLICATION

It is Devoted to the Interest of the Eighth Army Corps and Contains Much Interesting Information From the Philippines.

The American Soldier is the name of the first American newspaper published Bayard .... in Manila. It is devoted to the interests of the Eighth army corps and is sold at 10 cents a copy, Mexican money. The issue of Dec. 8 thus foreshadows the trouble with the insurgents that has just taken place

"A conflict was narrowly averted Dec. 16. A private of the Colorado regiment who attempted to pass the Filipinos' outposts was captured and his rifle was taken away from him. The American lieutenant demanded the immediate return of the soldier's weapon. The Filipinos were for a time disposed to be stubborn and massed 300 men at the point, ready for trouble. The matter was finally settled by the soldier's weapon being returned and the Americans agreeing that no future attempt would be made to enter the Filipinos' lines by soldiers doing outpost duty.

In its account of this trouble The American Soldier says

"The insurgents are certainly closing in around the city. A few nights ago the Idaho boys were drilling near the Malate fort. They made a bayonet charge down the beach and had hardly got past the old Spanish trenches when the whole thicket became a mass of bugle sounds.

In another article of the same paper is the following

"In case of an outbreak the first move will be the assassination of all the American officers whom it will be possible to get at. But our regiments bave a system of street fighting perfected which will give the rebels all the trouble they want. Each regiment has mapped out certain streets to clear and points to retreat and mass. The bugles give the regiments warning of the presence of our troops in adjoining streets. so there is no danger of a mishap.

In the local news are the following items

"Corporal Walker came upon a snake of 'the constrictor species on the Calle de Pallacio. The snake was set upon by a half dozen soldiers and killed. On being measured it was found to be 9 feet 7 inches long and 10 inches around in the largest part, with fangs like a pan-

"The soldier police are working hard The murderers are said to be Maccabebees, a gang of professional murderers. who were hired to kill the young woman by a disappointed rival for her hand. The assassins entered her home while her husband was absent and stabbed her 30 times in the heart. She fell dead crying for the Americanos. A Filipino detective, wearing false whiskers, figures in the case, and other features give it all the blood curdling interest of Time table effective January 16, 1899. Trains daily except Sunday. Central time. city in this country.

There is an account of a raid on a swell Spanish gambling resort:

"Corporal Bill Pelock and Private Wirtensohn went in through the rear door, while Captain Corriston tackled the front entrance. Two Filipino 'cappers' attempted to bar the way of the police, but they were suppressed. The inmates were arrested in spite of the protest of the proprietor, who said he had permission from police headquarters to run the den. The gamblers were fined

\$50 each. Some Minnesota soldiers went on a prospecting tour and came back with samples of gold, which are now on exhibition in Manila. The soldiers prospected the San Juan and Monte Blanc mountains, where mountain streams abound. The country is occupied by Negritos. who are said to be much above the Filipinos in cleanliness and morality. The prospectors found evidences of gold in all the streams. The natives have wooden "longtoms" with which they manage to wash out about a teaspoonful of gold a day. This they have been selling to the Spaniards for two Mexican dollars, although the gold is worth about \$85 in American money. The prospectors were rapidly trailing the mother lode when they were ordered back by a party of insurgents, who alleged that the prospectors would be murdered by the mountaineers if they went any farther

The Penalty Will Come.

There are many forms of sin in the world. Some are more heinous than others, but all are of the same naturetransgression of the law. Their greatness cannot be told by the immediate injury that follows, for often there appears to be no immediate evil results. But in process of time the penalty will come. "Be sure your sin will find you

Still In Possession.

"Why do you think they are on their wedding journey?"

## UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods

made at unfair wages by others? The Union Label in every industry is a guarantee of fair wages, decent work. ing hours, and union labor employed.

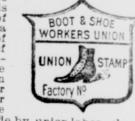

#### PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card ask for it when making your purchases. Endorsed by the A. F. of L.

UNION MADE BOOTS AND SHOES

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and snoe workers. The above trade-mark when found on the sole or lining of a boot or

shoe, is a guarantee that the same is made by union labor. Look that the same is made by union labor. for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is found in the inside breast pocket of the coat, on the underside of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a If a dealer takes a label from one has and places it in another, or has any detached labels in his store, do not buy from him. as his labels may be counterfeit, and his hats may be the product

of scab or non-union labor. UNION MADE CLOTHES,

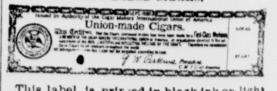

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on, the waistband lining of the pants

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as fol-lows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.
The Label will

be placed on the upper front side of the tube that receives the seat post. BLUE LABEL CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a simi-TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plus tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS

This is a full size fac-simile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made and another that the bread is made union that and is made union that the bread is made union to the bread union to the bread union to the bread union to is made under fair and wholesome conditions.

and in clean and healthy bakeshops Fol-lowing is the confectioners' and cracker

Progress Made In Americanizing Porto Rico.

ABOLISHES TAXES ON FOOD STUFFS

Eight Cent Loaves of Bread Now Sell For Six Cents-The Tax Also Taken of Meat-Applying Common Sense Ideas to Matters of Government.

General Guy V. Henry, military and civil governor of Porto Rico, says the San Juan correspondent of the New York Sun, has not only given the people of Porto Rico increased confidence in their new mother country, but also established a more settled and stable administration by the introduction so far as possible of his promised reforms in the island government. During his two months' rule he has abolished the tax on two common food stuffs, appointed special commissioners to clear the court dockets, organized island and municipal boards of health, introduced American policemen, placed the lighthouses in charge of the navy, repealed many obnoxious Spanish laws in whole or in part, and even extended self government to many

General Henry owes much of his success to his vigorous business methods. When he first took control, he defined his present policy precisely in the remark, "I shall use good western horse sense in administering the affairs of the island and seek to give the people here a daily lesson in self government." He shows, too, Yankee shrewdness, a trait acquired perhaps at school in a little Connecticut village near New Haven. And for a governor general he is democratic. At the palace he greets all callers cordially, makes them feel at ease. listens patiently to all complaints, recommendations and requests, and every day grants and refuses everything, from a pass on a transport to a valuable railway franchise. But visitors must come in the morning. In his afternoons, with his stenographer and interpreter, he tackles his big pile of personal letters, Washington correspondence and official reports. He also spends a few hours each day investigating and remodeling and repealing Spanish laws and customs. Yet another matter of importance in which he finds an urgent need of reform is the employment of contractors in municipal or government improvements. Concerning this subject, in an interview, General Henry

"I find difficulty in getting contractors to bid on work because they are afraid of the corruption which existed so much under Spanish rule. For the present, therefore, I am compelled to employ laborers by the day, without

any satisfactory system. As an experiment General Henry has withdrawn troops from many interior towns in order to give the people, as he promised, a practical lesson in self government. His action was hurried partly by a lack of harmony in a few cases between the military officers and the muvillage a volunteer officer, bringing a native prisoner into court, demanded an immediate trial without even the necessary signed complaint. Such a proceeding the judge of course refused more complaints of the same nature the | tion. governor general has sent letters to soldiers, officers and municipal officials notifying them that "councils are held responsible for their duties and military | fopte For the Week Beginning Feb. officers for the law and order of the community." Of his self government experiment General Henry says: "I of this community. If they fail to preserve law and order or show an indifference and neglect of duty, the towns in under a military officer and necessary troops, and the functions of the alcalde,

But the common people, the class of natives whose attention is fixed not so much on forms of government, but more toward the needs of everyday life, see the blessings of their new government more plainly in the tax reforms made by the American governor general. In Spanish times, when the 850,-000 or 900,000 islanders annually raised 4,000,000 pesos for the government, taxes were laid on everything from valuable plantations down to the sale of bread and meat. On a loaf of bread a tax of 2 cents. But since General Henry has removed this obnoxious tax even the little street urchins can tell you that the 8 cent loaves now sell for 6 cents. As for meat, before the sale of little city of San Juan collected from the public market a daily tax of 150 pesos, which, of course, the people themselves really paid. Now, in order to make up the reductions in municipal receipts, caused by the foregoing exemptions, General Henry has authorized all towns and villages to issue sperial licenses for the sale of liquors and tobacco, which heretofore have been sold under a general merchandise permit. For the new schedule he recommends a fee of 50 pesos for every liquor er tobacco store or stand in towns of

the town governed by military law."

# Impossible To Produce Stronger Proof.

Proof is evidence. Evidence is testimony, but testimony is not always proof, for testimony differs. A stranger from a far away place---a man in Maine ---a woman in Wisconsin---may testify in most emphatic language, but is it proof? We think not! Positive proof to an East Liverpool citizen is the exper-

ience and public expression of East Liverpool people, the statement of friends and neighbors, easily investigated, easily indorsed. Many readers of this are troubled with bachache, with rheumatic pains, with urinary disorders, with sick kidneys; have tried many recommended remedies and failed to get permanent relief. No wonder they ask for better proof. We say to every kidney sufferer, DOAN'S KID-NEY PILLS cure all forms of kidney ills, from Backache to Diabetes. Our evidence of it? The best that can be had. Impossible to produce stronger proof than the indorsement that guarantees full value for every box of DOAN'S KIDNEY PILLS. Here is a case of it. An emphatic statement of an East Liverpool citizen. We have many more like it.

Mr. Charles Smith, of 198 Fourth street, letter carrier, says: "I contracted a heavy cold which settled in my kidneys and caused such severe pains across the small of my back that I could scarcely get around my trip. I thought it would wear off, but as it did not, but got worse, I got Doan's Kidney Pills at the W & W. Pharmacy and took them. The result was that the pain soon left me and I was all right again.

Doan's Kidney Pills, sold at all Drug 

from 5,000 to 10,000 population and a fee of 80 pesos for towns of more than 20,000 population. General Henry further strikes a blow for temperance by a paragraph which reads: "It is hoped that this taxing of the sales of liquors may have the effect of closing a number nicipal officials. For example, in one of saloons and of taking temptation to drink away from the inhabitants, a vice of the island which tends to demoralize its people, causes misery and suffering to the innocent and interferes materially with moral progress, upon to authorize. So in order to prevent which depends the success of any na-

#### CHRISTIAN ENDEAVOR.

26-Comment by Rev. S. H. Doyle. Topic.—Palm tree Christians.—Ps. xcii, 1-15.

The Ninety-second Psalm, as we learn shall hold the alcalde and his council from the Talmud, was sung in the temstrictly responsible for the government ple on Sabbath morning. It speaks of the appropriateness of giving thanks unto God day and night, and praises His just government of the world and which such neglects occur will be put prophesies the final destruction of the wicked and the success and prosperity of the righteous. This latter fact is council and courts be suspended and made more vivid by comparing the righteons to the palm and the cedar "The righteous shall flourish like the palm tree; he shall grow like a cedar in Lebanon." This comparison was a peculiarly happy one in Palestine, where the palm at one time was very abundant and useful, though rarely found today. Many comparisons readily suggest themselves between the righteous, the Christian and the palm tree. The leading characteristics of the palm will illustrate this fact.

1. The palm tree is noted for its beauty. "Its trunk is straight, tall and then the poor as well as the rich paid unbroken, terminating in a crown of emerald green plumes, like a diadem of gigantic ostrich feathers. These leaves are frequently 20 feet in length, droop slightly at the ends and whisper musically in the breeze." It is a most beauthis article became free from duty the tiful tree. In its beauty it is emblematic of Christian righteousness. What more beautiful than a Christian life? Moral beauty is much more to be desired than physical beauty, and, though it may not always seem so, yet it is really more admired even by men of the world. There is nothing more beautiful in the world than a pure, ennobling, humble, consistent Christian life.

2. The palm tree is noted for its fruitfulness. When 6 or 8 years old, it begins to bear fruit and does not cease its work until a century has passed away. Millions receive from it their daily food. It is put to 360 different uses and and joy in the home. We feel pity for supplies almost all the wants of the those who can see only ill in everybody Arab or Egyptian. It bears its best fruit and everything, evil only everywhere; Arab or Egyptian. It bears its best fruit and everything, evil only everywhere; in old age. The Christian should also believing naturally, too, that the "race Our Type. be noted for fruitfulness. Fruit bearing is degenerating, that all men are dreadis his mission in the world. "I have fully wicked" and "going to the dogs" chosen you," says Christ, "that you might go and bring forth fruit, and that your fruit should remain."

height. It is usually at least 40 or 50 feet in height, and often attains a height of 80 feet. It grows heavenward, as the Christian should also do, partaking more and more of those graces which adorn the inhabitants of God's eternal home.

4. The palm tree is an indegenous tree. It grows on the inside. In this respect it also typifies the Christian. Christianity is not a reformation outside, but the implanting within us of new principles of life, which change the

entire moral exterior of the man. 5. The palm tree is noted for its perpetual greenness. In winter's cold or summer's heat the palm continues green. It is evergreen, symbolical of the eternal life of the Christian.

Thus this beautiful, useful plant may well inspire us to strive to adorn the Leader. spiritual world with the same characteristics with which it beautifies and ennobles the physical world.

Bible Readings. - Job xvii, 9; Ps. i, 1-6; xxxiv, 19; xxxvii, 19, 29; lii, 1-9; cxii, 1-10; Isa. 1xi, 1-3; Jer. xvii, 8; Hos. xiv, 5.7; Prov. x, 3, 11, 25; Math. v, 10-16; xiii, 41-43; xxv, 34-46; John xv, 16; Rev. xxii, 10-12.

#### Depend on Christ.

Reckon on Christ to do His part perfectly. Directly you give, He takes. Directly you will open the door, He enters. Directly you will open the floodgates, He pours in a glorious tide of fullness-fullness of wealth, of power, of joy. The clay has only to be plastic to the hand of a Palissy, the marble has only to be pliant to the chisel of a Michael Angelo, the organ has only to be responsive to the slightest touch of a Handel, the student has only to follow the least hint of a Faraday or a Whewell-and there will be no failure in results. Oh, to be equally susceptible to the molding influences of Christ! We shall not fail in realizing the highest ideal of which we are capable if only we will let Him do His work unhindered. - Rev. F. B. Meyer.

A Perennial Benefit. A cheerful temper is a perennial benefit as well as a very rainbow of peace

or to the "bad place;" that nothing is as good or correct as it "used to be!" The unfortunates born to these common 3. The palm tree is noted for its and pessimistic ideas surely deserve our commiseration. -Churchman.

#### Prayer.

Jesus never taught his disciples how to preach, only how to pray. He did not speak much of what was needed to preach well, but much of praying well. To know how to speak to God is more than knowing how to speak to men. Not power with men, but power with God, is the first thing. Jesus loves to teach us how to pray. - Andrew Murray.

#### Unequal to the Strain.

Whatever men may say, God is no party to the idea of interminable punishment, and whatever punishment and whatever natural immortality may mean it would be unequal to the strain of God's endless wrath. - Universalist

#### THE FICKLE SEA.

Who has heard the cod line singing o'er the bow? Who has hauled the flashing prey across the

Who has felt the wet brine stinging on the When the boat is all a-stagger 'neath the gale? Who has laid him in the sagging of the sail While the masthead's nodding sleepy to the

And has slumbered till the stars grow dim Fill your bumpers! Join the chorus of my

Oh, the fickle, fuming, frolic fretting sea! Oh, the limpid, lapping, laughter loving sea! We who tove her fill our glasses To the best of all the lasses, And we drink a briny bumper to the sea!

croon!

Who has lain upon the sloping deck awash? Who has hauled and clewed and chanted in the wind?

Who has watched the mainmast bending nigh a-crash. While the rival boat's a-dropping off behind? Who has leaned against the creaking, jolting

Through a moonlit summer night on south-Who has felt the old sea longing that I feel?

Fill your bumpers, men, and shout aloud with me! Oh, the singing, sighing, salty scented sea! Oh, the rushing, roaring, ramping, raging sea! On your feet and clash your glasses,

"To the best beloved of lasses-Here's a brimming, briny bumper to the sea!" -Richard Stillman Powell in Criterion

## SALEM WOMAN

Asks the Court to Give Her a Divorce on What Seems Good Grounds.

LISBON, Feb. 25.—[Special]—Following closely on the proceeding in which the Dyball family, of Salem, are prominent figures comes a petition for divorce and alimony, filed by Mrs. Olive S. Dyball.

Mrs. Dyball says she was married to E. E. Dyball at Youngstown, July 31, 1887, and they have two children, Estella and Mabel, aged 10 and eight years. As ground for divorce she says Dr. Samuel Lindsay, of this city, who that Feb. 19 her husband without cause was guilty of extreme cruelty toward her, by striking her with his fist and otherwise beating and maltreating her Mrs. McCloskey, wife of Mail Carrier in a shameful manner. Second-By us-McCloskey, who has been visiting rela- ing profane, obscene and insulting tives in Akron for several weeks, re- language in the hearing of 20 guests and servants of the Broadway F. A. Leonard, who has been spend- hotel. Third-After thus abusing her ing several weeks in the east in the in. for four hours and rendering her terest of the potteries he represents, re- nervous and sick, he, in the presence nervous and sick, he, in the presence tenant William A. Callaban, thigh, of another woman, had copula-slight; I, Private John M. Webber,

> He has, she says, at other times been guilty of acts of cruelty toward her by striking, beating and threatening to kill her, and by reason of his ill treatment there is a separation between them.

> The husband owns real estate in Salem. She asks in connection with the divorce reasonable alimony, custody of her children and the court require him to provide for their maintenance and education.

#### Hunting For Men.

This morning three men were placed in jail charged with being suspicious persons. This afternoon Chief Johnson and four officers were called out and at the hour of going to press were on the trail of a crowd of men who have been wanted for some time.

#### NOTICE.

#### NO FOOD EXPERIMENT.

Eagan Denied Such a Charge-Canned Meat Condemned by Some Witnesses at the Inquiry.

WASHINGTON, Feb. 25 .- Former Commissary General Eagan concluded his testimony before the court of inquiry, explaining the provisions of contracts for beef supplies to the armies in Porto Rico, Cuba and the Philippines. He very vigorously denied any knowledge of any chemical treatment of beef to preserve it and disavowed any connection whatever of the government with any such treatment. He further defended the canned roast beef, explaining why it had been sent to the troops, an experiment or pretense of experiment, suggesting General Miles' famous allegations that precipitated the Eagan courtmartial, the former commis-ary general, with great dignity and emphasis, replied sweepingly in the negative.

General Eagan was followed by Major General B. M. Young and other or ficers who were in the Santiago cam paign, and by officers of the subsistence epartinent. The refrigerated beer wa commended while the canned roabeef, on the whole, rather suffered as

Philadelphia's Expenses.

The estimated expenses of the city of Philadelphia for the year 1899 are \$31,-400,000, the chief item of which is for education, the police expenses being \$3,-100,000 and the fire department \$1,000,-000 New York has, approximately, three times as many inhabitants as Philadelphia, and its police department costs nearly 812.000,000 a year.
